Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Accountants'

To the Participants and Administrator
of the Scott Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Scott Pension Plan, which comprise the statement of net assets available for benefits as of December 31, 2012 and 2011, the related statement of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- Participants included: The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- Participants excluded: No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- Insurance contracts: The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions****Benefits Included or Excluded:**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:** Participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Salaried	<p>The annual benefit payable at normal retirement is equal to the sum of all Retirement Income Credits, basic and supplemental. This basic credit is an amount equal to 7/10 of 1% of Average Pensionable Earnings up to the covered compensation level for a person age 65, multiplied by the participant's number of years of Benefit Service.</p> <p>The supplemental credit is an amount equal to 1.2% of Average Pensionable Earnings in excess of the Covered Compensation level for a person age 65, multiplied by the lesser of (i) and (ii) below.</p> <p>(i) The participant's years of Benefit Service, less years of Benefit Service prior to January 1, 1999 during which the participant elected not to contribute to the Supplemental Part of the Salaried Program.</p> <p>(ii) Thirty-five (35) minus the total number of years the participant was credited with Supplemental Future Service Retirement Income Credits under the prior plan.</p> <p>The annual benefit can not be less than the benefit under the prior Salaried plan as of December 31, 1998.</p>
Late retirement	
▪ Benefit	Continued accruals; actuarially increased after age 70 ½
Early retirement	
▪ Eligibility	
Hourly	Age 60 and 15 years of Continuous Service (Interstate: 55 and 10)
Salaried	Age 55 with 10 years of Continuous Service
▪ Benefit	
Hourly	Accrued benefit, with 0.6% per month reduction for commencement before normal retirement date.
Salaried	Accrued benefit, with 0.5% per month reduction for commencement before normal retirement date.
Deferred vested	
▪ Eligibility	Five years of Continuous Service
▪ Benefit	<p>Accrued benefit payable at normal retirement date.</p> <p>Benefits can commence at early retirement date, if service criteria is met upon termination, subject to same reduction factors as early retirement.</p>

Schedule SB, Part V — Summary of Plan Provisions

Disability		
▪ Eligibility		
Hourly		Permanently and totally disabled with completion of disability service requirement (Interstate Electronics and Interstate Engineering: 15 years, South Haven: 17 years)
Salaried		Participant receiving disability income payments under the Salaried Disability Plan
▪ Benefit		
Hourly		The annual benefit as defined under Normal Retirement, payable at: <ul style="list-style-type: none">- Normal retirement for hourly participants at Corporate headquarters and the Monroe plant (or at early retirement age, subject to the same factors as early retirement)- Disability retirement date, unreduced for early commencement, for hourly participants of Interstate Electronics and Interstate Engineering and the South Haven plant.
Salaried		Participants continue to accrue benefit while disabled based on rate of pay at disability, for a maximum of 30 months. After the plan freeze effective December 31, 2001, this additional period of service does not increase the benefit. Salaried participants who become disabled, but do not qualify for Federal Social Security benefits, may receive an additional 0.7% of Average Pensionable Earnings in excess of covered compensation for service while disabled, as an addition to the Supplemental Credit.
Death		
▪ Eligibility		Vested and married for at least one year at the date of death
▪ Benefit		Spouse annuity (actuarial equivalent 50% Joint and Survivor Annuity) based on accrued benefit at date of death and payable on later of: <ul style="list-style-type: none">▪ Date of death, or▪ Date employee first eligible to receive benefits. Subject to same reduction factors as early retirement
▪ Supplemental benefit		Other than Hourly participants at the Monroe Plant, a retired participant's beneficiary shall also receive a single lump sum payment of \$1,350.

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	Joint & Survivor
• Optional forms	Life Annuity 50%, 75%, 100% Joint & Survivor Life Annuity (60, 120, 180, 240 Months Certain). If the total value of benefit is less than \$1,000, the benefit will be paid as a lump sum.
• Optional form conversion factors	Amount of an alternative form of benefit (other than a lump sum cash out) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 7.00% compound annual interest rate and the UP-1984 Mortality Table, unadjusted for participants and with ages set back three years for spouses
Funding medium	Master trust administered by Northern Trust
Prior Plan Provisions	Certain inactive participants may be covered under provisions of a prior plan.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2012, the limit is \$200,000.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2011 to 2012.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Scott Pension Plan, which comprise the statement of net assets available for benefits as of December 31, 2012 and 2011, the related statement of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following brief description of the Scott Pension Plan (the "Plan"), formerly the Scott Technologies, Inc. Retirement Income Plan II, is provided for general information purposes only. Selected Plan provisions are described below. Participants should refer to the Plan document and summary of Plan description for more complete information regarding the terms of the Plan.

General

The Plan is a trustee, noncontributory, defined benefit pension plan which was established as of November 1, 1988 to provide retirement benefits to eligible salaried and non-bargaining employees (and their beneficiaries) of certain participating divisions and subsidiaries of Scott Technologies, Inc. (formerly Figgie International, Inc.) (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended (the "Code").

Effective December 31, 2001, all benefit accruals and future participation under the plan ceased.

On September 19, 2011, Tyco International Ltd. ("TIL") announced that its Board of Directors ("the Board") approved a plan to separate TIL into three separate, publicly traded companies consisting of TIL's North American residential security business, its flow control business, and its commercial fire and security business by spinning off the North American residential security business and flow control business in a tax-free pro rata distribution to shareholders. On March 28, 2012, TIL announced that it entered into a definitive agreement to combine its flow control business with Pentair, Inc. ("Pentair") in a tax-free, all-stock merger immediately following the spin-off of the flow control business. See note 8 Subsequent Events for additional information. On September 28, 2012, TIL completed the separation of its North American residential security business and flow control business.

The Company is part of a controlled group of entities with Tyco International Management Company, LLC ("TIMCO LLC"), which is the Plan Sponsor.

Funding Policy

The Plan Sponsor's funding policy is to make all required contributions to the pension plan in accordance with applicable pension laws and regulations. Additional, voluntary contributions (in excess of required minimum amounts) are periodically considered based on their individual merits. The Company's contributions for 2012 and 2011 met the minimum funding requirements under Internal Revenue Service regulations.

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

According to the terms of the Plan, employees of participating divisions and subsidiaries of the Company become eligible to participate in the Plan on the earlier of attaining age 40 for salaried employees (age 21 for non bargaining employees) or completing one year of employment with the Company. A participant becomes eligible to receive normal retirement benefits upon attaining age 65. Early retirement benefits are available to vested participants who have attained at least age 55. Generally, participants become 100% vested after five years of vesting service, as defined. Normal retirement benefits accrued by participants are based upon their participation, as defined, and their eligible earnings. No individual shall become a Participant in the Plan after December 31, 2001.

Scott Pension Plan
Notes to Financial Statements
December 31, 2012

Disability and Death Benefits

Participants who terminate employment due to total and permanent disability or spouses of vested participants who die may be entitled to receive benefits under this Plan.

Administrative Expenses

Insurance premiums, trustee service charges, audit fees, investment related fees and certain administrative and actuarial fees are paid by the Plan. All other expenses associated with the administration of the Plan are paid by the Company.

Plan Administration

The Plan has an Administrative Committee and an Investment Committee. The Administrative Committee acts in the capacities of Plan administrator and Plan fiduciary. The Investment Committee acts in the capacity of Plan fiduciary. Committee members are appointed by the Board of Directors of TIMCO LLC. The Investment Committee appoints the investment managers to manage the assets of the Tyco Master Trust (the "Master Trust").

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable, or would have been payable, during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC"), a U.S. government agency, up to the applicable limitations.
3. All other vested benefits; that is, vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Actuarial Valuation Method and Assumptions

Independent actuaries are employed by the Company to determine the Plan's required contributions, present value of accumulated benefits, and prior service costs using the traditional unit credit method. The significant actuarial assumptions including mortality, salary increases, and investment returns, used by the independent actuaries in the January 1, 2012 valuation are summarized as follows:

Investment Return Rate:	5.18% effective interest rate based on nonstabilized funding segment rates: 1.98% for the first 5 years, 5.07% for the next 15 years, and 6.19% for years after 20 years
Retirement:	Weighted average age 63
Mortality:	IRC Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables

Certain actuarial assumptions discussed above have changed since the January 1, 2011 valuation. The actuarial assumption used in the January 1, 2011 valuation was the effective investment return rate of 5.81% based on funding segment rates: 2.94% for the first 5 years, 5.82% for the next 15 years, and 6.46% for years after 20 years.

The effect of these changes is included in note 3 under the caption change in actuarial assumptions.

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition

The investment in the Master Trust is shown at estimated fair value based on the fair values of the underlying investments held in the Master Trust. The Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated net investment income or loss (including interest, dividends, net unrealized and realized gains and losses) less actual distributions and allocated administrative expenses. Net investment income or loss and certain administrative expenses are allocated to the individual plans based upon the ratio of the plans holdings in the Master Trust of the prior month end.

Other significant accounting policies include: investment transactions are recorded on the trade date, net appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan to sell an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. Fair value measurements require the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable

inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs for the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

The fair values of the underlying investments of the Master Trust are determined as follows:

Cash and cash equivalents are primarily invested in various money market funds. The fair value is determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Common stocks are valued by obtaining prices on recognized and highly liquid exchanges (level 1 inputs).

Common collective trusts are valued based on their net asset values, as reported by custodians of the common collective trusts and as supported by actual redemption prices (level 2 inputs). Included in the common collective trusts are money market funds which are valued at the net asset value per share as quoted by such companies or funds as of the valuation date. The money market funds are institutional commingled funds. Although not traded on active markets the net asset value per share is observable. Cash is valued at the amounts deposited in the fund, plus accrued interest (level 1 inputs).

Corporate bonds primarily consist of more than 200 corporate investment grade and high yield credit bonds ("Corporate credits"), as well as Asset Backed Securities ("ABS"). The Corporate credits are generally priced using the most recent bid prices or potentially the mean of the latest bid and ask prices. ABS are generally valued using matrix pricing through recognized financial models utilized by the investment manager and the custodian that incorporate other observable inputs such as cash flow, security structure, or market information, when there is no broker/dealer quote available (level 2 inputs).

Investment Valuation and Income Recognition, continued

Partnership/joint venture interests are valued by the custodian based on the underlying assets which includes publicly traded common stock, commercial paper, futures, foreign exchange forwards and money market funds. Redemption value is based on current ownership percentage at the end of the calendar month. Redemption frequency is on a monthly basis, upon 15 days advance notice (level 2 inputs).

U.S. government securities are direct obligations of the U.S. government or its agencies. These securities are generally priced using the most recent bid prices or potentially the mean of the latest bid and ask prices. This category also includes mortgage backed securities ("MBS") issued by U.S. government agencies that may utilize models, such as a single cash flow model, that incorporate data on interest rate movements, pass-thru securities markets, bid evaluations, and other pertinent data (level 2 inputs).

Registered investment companies are valued by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs). Some registered investment companies have private open-ended mutual funds which are valued based on their net asset values, as reported by custodians of the registered investment companies and as supported by actual redemption prices (level 2 inputs).

Other investments includes swap, municipal bond, non-U.S. government bonds, and sundry assets which are valued either by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs) or by third party pricing sources obtained by the custodian which may utilize models that incorporate pertinent data to determine pricing and non-U.S. sovereign debt securities, where the custodian will utilize available broker/dealer quotes (level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 21, 2003, that the Plan and related trust are designed in compliance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes is required.

The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

5. INVESTMENT IN THE MASTER TRUST

As of December 31, 2012 and 2011 the Plan's sole investment is in the Master Trust, which was established for the investment of assets of the Plan and several other TIMCO LLC and affiliated companies' sponsored retirement plans. The assets of the Master Trust are held by its trustee, The Northern Trust Company, for the years ended December 31, 2012 and 2011. Each participating retirement plan has an undivided interest in the assets of the Master Trust except for any other securities, which, if applicable, are identifiable with individual plans. The Plan's interest in the net assets of the Master Trust is approximately 11% and 10% at December 31, 2012 and 2011, respectively.

On November 9, 2010, TIL announced that it entered into an investment agreement (the "Agreement") to sell a majority interest in its Electrical and Metal Products business to an affiliate of the private equity firm Clayton, Dubilier & Rice, LLC (the "Investor"). TIL formed a newly incorporated holding company, Atkore International Group Inc. ("Atkore"), to hold TIL's Electrical and Metal Products business. On December 22, 2010, the transaction closed and the Investor acquired shares of a newly-created class of cumulative convertible preferred stock of Atkore (the "Preferred Stock"). The Preferred Stock initially represented 51% of the outstanding capital stock (on an as-converted basis) of Atkore. The assets and liabilities relating to the participants of the Allied Harvey Union Pension Plan, the Allied Philadelphia Union Pension Plan, the T.J. Cope Pension Plan and the Unistrut Pension Plan, which were sold in the transaction above, continued to be a part of the Master Trust as of December 31, 2010. During the month of April 2011, \$59,386,733 of assets relating to Atkore participants were transferred to a master trust established by Atkore.

The following financial information was obtained from data that has been prepared and certified to as complete and accurate by the trustee of the Master Trust. Such financial information has not been audited by the Plan's independent accountants.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management or the Plan Sponsor evaluated the significance of transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of any levels.

7. RISKS & UNCERTAINTIES

The Master Trust invests in a highly diversified portfolio of investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the use of estimates and the assumption setting process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Master Trust are managed by The Northern Trust Company, the trustee for the Plan. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

9. SUBSEQUENT EVENTS

The Plan Sponsor has evaluated subsequent events through October 4, 2013, which is the date the financial statements were available to be issued.
