Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Kaiser Permanente Salaried Retirement Plan For
Ohio Permanente Medical Group, Inc.
Trust No. 14977 and No. 16946

Report on the Financial Statements

We have audited the accompanying financial statements of the **Kaiser Permanente Retirement Plan for Ohio Permanente Medical Group, Inc.** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2012, and changes therein for the year then ended, and its financial status as of December 31, 2011, and changes therein for the year then ended, in accordance with U.S. generally accepted accounting principles.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held as of December 31, 2012, and reportable transactions for the year ended December 31, 2012 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A - Description of the Plan

The following description of the **Kaiser Permanente Salaried Retirement Plan for Ohio Permanente Medical Group, Inc.** (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan established effective April 1, 1958. The Plan covers substantially all salaried employees. Retirement benefits are based on the participant's compensation and years of credited service. Participants become vested upon completion of 5 years of service or, if earlier, the attainment of age 65. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

401(h) Account

The Plan includes a medical-benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC). A separate account (Trust No. 16946) has been established and maintained in the Plan for the net assets related to the medical-benefit component (401(h) account). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are determined annually and are at the discretion of the Plan Sponsor.

Trustee

State Street Bank & Trust Company (State Street) is the trustee of the Kaiser Permanente Group Trust (Group Trust, a 103-12 investment entity). The Group Trust holds the Defined Benefit Investment Fund (the Fund) for which the Plan participates together with other defined benefit plans sponsored by Kaiser Foundation Health Plan, Inc. and independent Medical Groups.

NOTE B - Significant Accounting Policies

Accounting Pronouncement Adopted

During 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, to converge U.S. GAAP and International Financial Reporting Standards on fair value measurements and disclosures. The amended guidance changes several aspects of the fair value measurement guidance in FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, including information about valuation techniques and unobservable inputs used in level 3 fair value measurements and a narrative description of the sensitivity of level 3 measurements to changes in unobservable

inputs. The amended guidance must be applied prospectively and is effective beginning after December 15, 2011. ASU 2011-04 was adopted by the Plan in 2012 and did not have a significant impact on the Plan's financial statements.

Significant accounting policies of the Plan are summarized below:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note C - Fair Value Measurements).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Retirement Benefits

Retirement benefits are recorded when paid.

Administrative Expenses

Administrative expenses paid by the Plan consist primarily of investment advisor and trustee fees, actuarial and audit fees, pension calculation and benefit administration fees, and premiums paid to the Pension Benefit Guaranty Corporation (PBGC). Certain employee and administrative costs are also paid by the Plan.

Subsequent Event

In preparing the financial statements, significant transactions and events have been evaluated for potential recognition through September 27, 2013, the date the financial statements were available to be issued. Plan management has determined that there are no subsequent transactions and events that require adjustment to or disclosure in the financial statements.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE C - Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for investment measured at fair value:

- Investment in group trust is stated at fair value as determined by the issuer based on the unit value of the Fund. Unit value is determined by dividing the Fund's net assets, which represent the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date. While not publicly traded, the Fund is comprised primarily of underlying securities represented by a variety of asset classes that are publicly traded on exchanges or over-the-counter, and price quotes for the assets held by the Fund are generally readily observable and available. Therefore, the Fund is categorized as a Level 2 investment.

NOTE C - Fair Value Measurements (Continued)

There have been no changes in the methodologies used as of December 31, 2012 and 2011.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers Between Levels

The Plan recognizes any transfers between levels in the fair value hierarchy as of the end of the reporting period. There were no transfers between levels for the years ended December 31, 2012 and 2011.

The Plan's investment in the Fund of \$12,065,555 and \$10,711,095 represents 5% or more of the Plan's net assets as of December 31, 2012 and 2011, respectively.

NOTE D - Funding and Actuarial Matters

The following funding and actuarial information relates to the retirement benefit portion of the Plan (Trust No. 14977).

Employer contributions, as certified by an independent actuary, are made annually in amounts which satisfy the funding standards of ERISA. Employer contributions for the years ended December 31, 2012 and 2011 were \$1,000,000 and \$500,000, respectively.

The significant assumptions underlying the actuarial computations for the January 1, 2012 and 2011 valuations are as follows:

	2012	2011
Actuarial Method	- Standard Unit Credit Method	Standard Unit Credit Method
Interest Rate	- 7.0% per annum	6.2% per annum
Mortality after Retirement	- Based upon the 2012 Static Mortality Table with separate annuitant and nonannuitant rates	Based upon the 2011 Static Mortality Table with separate annuitant and nonannuitant rates

	<u>2012</u>	<u>2011</u>
Turnover and Mortality before Retirement	- Combined rates have been assumed to range from 17.8% at age 25 to 6.0% at age 60 for male employees and 17.0% at age 25 to 6.0% at age 60 for female employees.	Combined rates have been assumed to range from 17.8% at age 25 to 6.0% at age 60 for male employees and 17.0% at age 25 to 6.0% at age 60 for female employees.
Age at Retirement	- Retirement is assumed to occur at various ages starting at age 55 with 100% retirement assumed at age 70.	Retirement is assumed to occur at various ages starting at age 55 with 100% retirement assumed at age 70.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE D - Funding and Actuarial Matters (Continued)

As of January 1, 2011, the total actuarial present value of accumulated plan benefits was \$8,937,604. During 2011, the actuarial present value of accumulated plan benefits decreased by \$12,237 due to the following:

Actuarial present value of accumulated plan benefits as of January 1, 2011	<u>\$ 8,937,604</u>
Increase (decrease) during the year attributable to	
Interest accumulation	538,364
Benefit payments	(592,262)
Assumption changes	(1,001,101)
Other changes	1,042,762
	<u>(12,237)</u>
Actuarial present value of accumulated plan benefits as of January 1, 2012	<u><u>\$ 8,925,367</u></u>

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. The actuarial present value of accumulated plan benefits is determined by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money.

NOTE E - Plan Obligations

In accordance with GAAP, benefits due to terminated participants are included in net assets available for benefits. There were no benefits due to terminated participants as of December 31, 2012 and 2011.

NOTE F - Risks and Uncertainties

The Plan's investment in the Fund holds investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**KAISER PERMANENTE SALARIED RETIREMENT PLAN FOR
OHIO PERMANENTE MEDICAL GROUP, INC.**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE F - Risks and Uncertainties (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE G - Plan Termination

Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE H - Tax Status

The Plan has obtained a determination letter dated May 21, 2012 in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not to be sustained upon examination by the IRS. The tax positions taken by the Plan have been analyzed and, as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE I - Party-in-Interest Transactions

Certain underlying assets of the Fund are managed by State Street. State Street is the trustee of the Plan. Transactions with the trustee qualify as party-in-interest transactions.

Schedule SB, Part V—Summary of Plan Provisions

Early Retirement

Eligibility	Age 55 and 15 years of service, or the sum of years of age plus years of service equals at least 75.
Monthly Benefit	The accrued normal retirement benefit earned to the participant's termination date, reduced based on the participant's age when the benefit commences. The benefit reduces 3% for each year from age 60 through 65 and 5% for each year from age 55 through 60.

Late Retirement

Eligibility	Termination after normal retirement date.
Monthly Benefit	The accrued normal retirement benefit earned to the participant's termination date.

Vested Termination

Eligibility	5 years of service.
Monthly Benefit	<ol style="list-style-type: none">(1) The accrued normal retirement benefit earned to the participant's date of termination, payable at age 65.(2) A participant who terminates after completing at least 15 years of service may elect to receive a reduced benefit beginning as early as age 55. The benefit is reduced in the same manner as the early retirement benefit.

In Service Death Benefits

Eligibility	Any vested participant who is employed within the controlled group at the date of death.
Monthly Benefit	100% of the participant's accrued benefit at time of death payable at the participant's normal retirement date. If the surviving spouse elects early commencement, the benefit is actuarially adjusted. If the beneficiary is not the spouse, payment commences within one year of the participant's death. The benefit is payable in the form of a life annuity or lump sum that is actuarially equivalent to the participant's accrued benefit.
