(1) Description of plan

The following description of Laparkan Trading Limited 401(k) Profit Sharing Plan (the "Plan"), provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Laparkan Trading Limited (the "Company") for the benefit of its full-time employees who have six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan amendment - Effective October 1, 2011, the Plan was amended to allow three loans outstanding at any time, and to change the age eligibility requirement from twenty-one to eighteen.

Contributions - Contributions to the Plan consist of the following:

Employer Matching Contributions
The Company may make matching discretionary contributions based on a percentage of a participant's elective deferral, as defined in the Plan. During 2012 and 2011, the Company made matching contributions of 100% of the first 2% of elective deferral contributions.

Employee Salary Deferrals
Participants may make voluntary contributions to the Plan up to the lesser of 100% of annual compensation or the maximum allowable annual deferral established by the Internal Revenue Service ("IRS"). In addition, participants may contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations imposed by the Internal Revenue Code ("IRC"). Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

Employer Profit Sharing Contributions
These contributions are made at the discretion of the management of the Company but may not exceed amounts permitted under the IRC as a deductible expense by the Company. In 2012 and 2011, the Company did not make any profit sharing contributions.

Participant investment account options - Upon enrollment in the Plan, a participant may direct the investments of all contributions into any of several investment options offered by the Plan. These investments are held through pooled separate accounts and guaranteed interest accounts. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings (losses), and is charged with plan administration expense and applicable loan and disbursement processing fees. Allocations are based on either participant's compensation or account balance as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's discretionary contributions portion of their accounts plus earnings thereon is based upon years of continuous service. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notwithstanding the above, a participant shall become fully vested upon his date of death.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance on the date of the loan, whichever is less. Loan terms cannot extend beyond five years from the date of the loan unless used for the purchase of a primary residence. The loans are secured by the vested portion of the participant's account, and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - Participants are allowed in-service withdrawals of their separate accounts attributable to rollover contributions, upon attainment of retirement age or in the event of a financial hardship. Upon termination of service due to death, disability or retirement, participants or their designated beneficiary may receive the value of their vested interest in his or her account as a lump sum distribution. Participants 59 ½ years old can obtain benefits from the Plan without penalties.

Forfeited accounts - At December 31, 2012 and 2011, forfeited non-vested accounts totaled approximately $6,000 and $0, respectively. Forfeitures, if any, are used to reduce Company contributions to the Plan. During the years ended December 31, 2012 and 2011, no forfeitures were used to reduce employer contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

(2) Summary of significant accounting policies (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - The following new accounting pronouncements were adopted during the year ended December 31, 2012:

Fair value measurements - In May 2011, the Financial Accounting Standards Board ("FASB") issued guidance which amends Accounting Standards Codification ("ASC") 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. Net assets available for benefits and changes in net assets available for benefits of Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) Summary of significant accounting policies (continued)

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Unit Values - Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification - Certain items from the 2011 financial statements have been reclassified to conform with the 2012 presentation.

(3) Investments (continued)

During 2012 and 2011, the Plan's investments including gains and losses on investments bought and sold, as well as held during the year appreciated (depreciated) in value as follows:

	December 31,	
	2012	2011
Pooled separate accounts	$ 114,372	$ (28,916)
Guaranteed Interest Account	(1,155)	1,123
	$ 113,217	$ (27,793)

(4) Information prepared and certified by the custodians

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company ("John Hancock"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Dividend and interest income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC 820*, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(5) Fair value measurements (continued)

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest accounts are not considered benefit-responsive and are valued at estimated fair value as determined by John Hancock. The crediting interest rates ranged from 0.15% to 0.40% and 0.50% to 4.30% for the years ended December 31, 2012 and 2011, respectively. For the years ended December 31, 2012 and 2011, the average net return for the guaranteed interest accounts was 1.62% and 1.79%, respectively.

Pooled separate accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

(5) Fair value measurements (continued)

* The fair value of the investments in the pooled separate accounts has been estimated using the net asset value of the investments. The pooled separate listed in the above charts are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

The following table set forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2012 and 2011:

	Level 3 Investments Year Ended December 31, 2012
	Guaranteed Interest Accounts
Balance, January 1, 2011	$ 151,766
Unrealized gain	1,123

Gains and losses (realized and unrealized) included in the changes in net assets for the periods above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

(5) Fair value measurements (continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Description	Fair Value	Principal Valuation Techniques	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Interest Accounts	$ 2,835	Discounted Cash Flow	Current rates compared to composite rates	0.15% - 0.40%	1.62%
			Duration	Five years or ten years	
			Payout Date	12/31/16 - 12/31/21	
			Payout Percentage	None until maturity	

(6) Parties-in-interest transactions

Plan investments are managed by John Hancock, who is the custodian of the Plan, as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrators of $4,408 and $13,801 for the years ended December 31, 2012 and 2011, respectively, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan’s operations.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of the Employment Retirement Income Security Act (ERISA). In the event of Plan termination, participants will become 100% vested in their account balances.

(8) Tax status

The Internal Revenue Service has determined that the non-standardized prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and informed custodian of such in a letter dated March 31, 2008. The plan administrator has adopted the non-standardized prototype plan and believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan, contributions of $36 were not remitted within the required time period for the year ended December 31, 2012. The Company is in the process of remitting these delinquent employee contributions, including any lost earnings as a result.

(11) Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net increase (decrease) per the financial statements for the years ended December 31, 2011 to Form 5500:

	December 31, 2011
Net increase per the financial statements	$ 80,460
Other deductions	2,685
Net increase per the Form 5500	$ 83,145

(12) Subsequent events

The Plan has evaluated events that have occurred subsequent to the year ended December 31, 2012 through October 2, 2013, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
