SYMETRICS INDUSTRIES, LLC EMPLOYEE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2011

1 DESCRIPTION OF PLAN

The following description of Symetrics Industries, LLC Employee Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General

The Plan is organized as a defined contribution plan under Section 401(k) of the Internal Revenue Code and covers substantially all eligible employees of Symetrics Industries, LLC (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and is administered by a trustee appointed by the Board of Directors of the Company. The Plan was established effective May 1, 1998.

Eligibility

Employees who have attained age 18 are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to 100% of pretax compensation, as defined in the Plan, up to an annual maximum of \$17,000 and \$16,500 for the plan years 2012 and 2011, respectively, with certain excess contributions allowed for employees over age limits defined in the Internal Revenue Code (the “Code”). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching or discretionary contributions that are determined annually. It is the Company’s current policy to match 100% of employees’ contributions up to 6% of annual compensation.

Investment options

Participants direct the investment of their contributions into a variety investment options (see Notes 5 and 7). Participants may change their investment options at their discretion.

NOTES TO FINANCIAL STATEMENTS (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is determined under the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant will also be 100% vested under any of the following circumstances:

- Death before retirement date;
- Disability before retirement date; or
- Attainment of normal retirement age.

In the event a participant's employment is terminated for reasons other than retirement, disability or death, such participant is entitled to a termination of employment benefit in an amount equal to his vested interest as of the date of benefit distribution.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms may not exceed five years, unless used to acquire the principal residence of the participant. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. The number of outstanding loans for a participant is limited to three.

NOTES TO FINANCIAL STATEMENTS (continued)

Distributions

Distributions of vested account balances are eligible to be made within a reasonable time after the occurrence of one of the following events:

- Normal retirement (the date on which a participant attains the age of 65 years);
- Termination of employment;
- Death or disability; or
- Termination of the Plan.

Amounts allocated to accounts of persons who, as of December 31, 2012, have withdrawn from the Plan but have not been paid are \$574,457.

Forfeitures

The nonvested portion of a participant's account is forfeited upon termination of employment with the Company. Forfeitures remain in the Plan for the benefit of other participants and are allocated in the same manner as the employer's contribution. During 2012, \$26,976 of forfeited non-vested accounts were so allocated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements are presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U. S. GAAP"). The following is a summary of the more significant accounting principles and practices used in the preparation of the accompanying financial statements.

Use of estimates

The preparation of financial statements in conformity with U. S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

SYMETRICS INDUSTRIES, LLC EMPLOYEE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The Company pays substantially all expenses of the administration of the Plan and such expenses are excluded from these financial statements. Any costs associated with the investment of a participant's accounts are charged to that participant. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan administrator has evaluated events and transactions for potential recognition or disclosure through September 12, 2013, the date the financial statements were available to be issued.

3 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian as of December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>

The custodian's certification also applies to investment transactions and income for the year ended December 31, 2012 and the supplemental schedule of assets held as of December 31, 2012.

Additions to net assets for 2012 are as follows:

SYMETRICS INDUSTRIES, LLC EMPLOYEE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

4 TAX STATUS

The Plan has received a determination letter from the IRS dated April 28, 1998, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
- a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in inactive markets;
 - c) Inputs other than quoted prices that are observable for the asset or liability;
 - d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

SYMETRICS INDUSTRIES, LLC EMPLOYEE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at net asset value ("NAV") and categorized as a Level 2 fair value measurement.

As a practical expedient, NAV per share is permitted by FASB ASC 820 to estimate the fair value of an investment as long as the investment does not already have a readily determinable fair value (i.e. it's available on a domestic stock exchange or is a mutual fund with a published price), it's calculated in a manner consistent with the measurement principles of investment company reporting as of the reporting entity's measurement date and there are no plans to redeem the investments at amounts different from NAV. The Plan administrator has determined that the Plan's pooled separate accounts currently meet these requirements.

Guaranteed investment contract: Valued at contract value minus early withdrawal charges and categorized as a Level 3 fair value measurement (see Note 6).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6 PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2012 and 2011, \$8,877,841 and \$8,478,263, respectively, of the Plan's net assets available for benefits were invested in funds under control of the Plan custodian.

During the year ended December 31, 2012, \$6,513 was paid to the Plan custodian from Plan assets for administrative expenses.

7 GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Plan has entered into a benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to the contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Certain events limit the ability of the Plan to transact at contract value with the issuer, but the Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The fair value of the investment contract at December 31, 2012 and 2011 was \$410,956 and \$596,950, respectively. The weighted average yield on all accounts under the guaranteed investment contract with annual maturities from December 31, 2012 to 2016 based on actual earnings credited to participants was 2.75% for the year ended December 31, 2012.

8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Various claims arising in the ordinary course of the Plan's operations may be filed against the Plan. Since the ultimate effect of such litigation cannot be ascertained at this time, no provision for losses has been recorded in these financial statements.

9 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.
