NOTE 1 – DESCRIPTION OF PLAN

The following description of the Barr Management, Ltd. ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a voluntary deferred compensation plan under Section 401(k) of the Internal Revenue Code (the "Code"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

In order to participate in the Plan, an employee must complete one year of service from the date he or she is hired to the one-year anniversary of his or her date of hire and be age twenty-one or older. During the year of service, the employee must have 1,000 or more hours of service; an hour of service is defined as an hour of paid working time.

Contributions

Participants were able to contribute up to $17,000 for 2012 and $16,500 for 2011 of pretax annual compensation, as defined in the Code. In both 2012 and 2011, an additional $5,500 of catch-up contribution may be contributed for participants at least age 50 by the end of the year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct all of the investments of their contributions into various investment options offered by the Plan.

The Company contributes a matching contribution of 25 percent of each participant's elective contribution, up to a maximum of 13% of eligible compensation, as defined by the Plan. The matching contribution is invested in the same manner as the participants' elective contributions. Matching contributions are subject to certain limitations. Additional profit sharing amounts may be contributed at the option of the Company's board of directors.

Investment Options

Upon enrollment in the plan, a participant directs Company and participant contributions. Contributions can be directed into mutual funds in 21 pooled separate accounts and guaranteed investment separate account.

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their elective contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon are vested at a rate of 20 percent for each year of service beginning in the second year, being fully vested after six years of credited service, or upon death, disability, or normal retirement.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUTED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans must be adequately secured, typically by the vested balance in the participant's account, as determined by the Trustee. The loans bear an interest rate based on the rates available for similar loans from commercial lending institutions, as determined by the Plan Trustee. Principal and interest is paid ratably through monthly payroll deductions. These monthly payroll deductions are applied to interest and then to principal according to a payment schedule.

Payment of Benefits

Participants are able to request a distribution of their salary deferral amounts in the event of financial hardship as defined by the Plan only after they have received all other withdrawals or loans available under the Plan. The amounts of the distribution cannot exceed the amount needed to meet the immediate financial hardship and participants are prohibited from making salary deferrals to the Plan for the six-month period following the hardship distribution. Beginning in 2012, the Plan was restated to allow participants to withdraw both salary deferral and employer match amounts in cases of hardship distributions.

On termination of service due to death, disability, retirement, or termination, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a single lump sum amount or a direct rollover distribution, if the balance is more than $1,000 and less than $5,000. For vested balances greater than $5,000, a participant may receive the value of the vested interest in his or her account as a rollover, an annuity or a lump-sum distribution.

As of December 31, 2012, there were vested benefits of $66,986 which remain in the Plan for participants that had withdrawn from the Plan due to termination from the Company.

Forfeited Accounts

Forfeitures of non-vested accounts are used to reduce future Company contributions and pay administrative expenses. At December 31, 2012 and 2011, there was $2,411 and $2,120, respectively, in outstanding forfeitures.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Cash Equivalents

Cash and cash equivalents include cash and highly liquid debt instruments with maturities when purchased of three months or less.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. The separate accounts record dividends on the ex-dividend date and record interest income on an accrual basis. Dividends and interest earned by the pooled separate accounts increase the value of the Plan's units in those separate accounts and are included in the net appreciation, which also includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Net Depreciation / Appreciation in Fair Value of Investments

In the Statements of Changes in Net Assets Available for Benefits, the Plan presents the net depreciation / appreciation in the fair value of investments that consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments.

Operating Expenses

Operating expenses were paid for by the Company in 2012.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following table presents the investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011. The table also represents the fair value of the investments.

NOTE 5 – FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosure,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts: Valued daily based on the net asset value of the underlying fund, the fund's dividends, and any separate account charges.

Guaranteed Investment Account: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of further fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – FAIR VALUE MEASUREMENT (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

Interest income of $2,820 recorded on the Statement of Changes in Net Assets Available for Benefits was related to the Plan's guaranteed investment contract.

NOTE 6 – GUARANTEED INVESTMENT CONTRACT WITH ING INSURANCE AND ANNUITY COMPANY

In 2010, the plan entered into a guaranteed investment contract (GIC) with ING Insurance and Annuity Company ("ING"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the GIC is subject to restrictions, it is not a fully benefit-responsive contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the GIC for credit risk of the contract issuer or otherwise. At December 31, 2012, the contract value and the fair value of the GIC were $206,164 and $209,337, respectively. The contract value and the fair value of the GIC at December 31, 2011 were $198,724 and $200,549, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.45% through December 31, 2013. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields	2012	2011
Based on Actual Earnings	1.60%	2.05%
Based on Interest Rate Credited to Participants	1.60%	1.96%

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in all accounts.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Company's third-party administrator by a letter dated March 31, 2008 that the prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Service Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS) and/or the Department of Labor (DOL). The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING Insurance and Annuity Company ("ING"). ING is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments.

NOTE 11 – PARTICIPANT CONTRIBUTION/SUBSEQUENT EVENT

During 2012 Management discovered that compensation used to determine participant contributions was calculated without including payroll for unused vacation, sick days and bonuses. The Plan's definition of compensation includes the above mentioned amounts. Management is in the process of correcting the omission in 2013. Management estimates that the amount that should have been contributed to the participants, including the company match, is a range not to exceed $17,000. Management has put controls in place to use the Plan's definition of compensation when determining participant contribution and company match on an ongoing basis.
