WORLD PUBLISHING COMPANY 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

Note 1 – Description of the Plan

World Publishing Company (the Company or Employer) sponsors the World Publishing Company 401(k) Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for leased and reclassified employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by a committee appointed by the Board of Directors. INTRUST Bank, N.A. (the Trustee) serves as the trustee of the Plan. INTRUST Bank, N.A. processes and maintains the records of the participant data and holds the Plan's assets.

Eligibility

Nonexcluded employees who have reached 21 years of age and have completed 1,000 hours of service in 12 consecutive months of employment are eligible to participate in the Plan. Participants may enroll in the Plan on the first day of January or first day of July after satisfying eligibility requirements.

Contributions

Each year, participants may contribute up to 75% of pretax or after-tax compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

The Plan also provides for discretionary Employer matching contributions to non-excluded participants who work at least 1,000 hours during the Plan year and who are employed on the last day of the Plan year. During 2012, the Company matched 100% of participant deferrals, excluding catch-up contributions, up to 2% of a participant's annual compensation.

Additional nonelective contributions may be contributed by the Employer at the discretion of the Company's Board of Directors to participants who work at least 1,000 hours during the Plan year and who are employed on the last day of the Plan year. Allocations of such nonelective contributions are based on the proportion of each participant's compensation to the total of all participants' compensation. No discretionary nonelective contributions were made in 2012.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's contributions and Plan earnings, and charged with an allocation of administrative expenses and Plan losses. Allocations are based on specific participant transactions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions is based upon years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than two years	0%
Two, but less than three	20%
Three, but less than four	40%
Four, but less than five	60%
Five, but less than six	80%
Six years or more	100%

Participants automatically become 100% vested upon: 1) normal retirement (attainment of age 65); 2) disability; or 3) death. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Notes receivable from participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance during the preceding 12-month period, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which is based on prime rate plus 1% on the date of origination. Only one loan may be outstanding at any given time. Principal and interest is paid ratably through payroll deductions.

Payments of benefits

Upon retirement, termination, disability or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Additionally, participants may take an in-service distribution upon reaching the age of 59½. Upon termination, automatic distributions are required for balances of less than \$1,000. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are used first to reduce Employer matching contributions and then to pay administrative expenses. For the year ended December 31, 2012, forfeitures in the amount of \$2,899 were used to pay

Plan administrative expenses. The Plan had \$1,450 and \$2,438 in unallocated forfeitures at December 31, 2012 and 2011, respectively.

Administrative expenses

The Plan allows administrative expenses to be paid from the Plan's assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

New accounting pronouncement

In May 2011, the Financial Accounting Standards Board issued guidance to achieve fair value measurement and disclosure requirements in accordance with accounting principles generally accepted in the United States of America and International Financial Reporting Standards. The guidance also clarifies the application of existing fair value measurements and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about

fair value measurements. The guidance is effective for periods beginning after December 15, 2011. The adoption of this guidance did not materially affect the Plan's financial statements.

Subsequent events

Effective January 1, 2013, the Plan was amended to change the eligibility service requirement from 1,000 hours during the Plan year to 90 days of service. Participants may enroll in the Plan on the first day of the first month after satisfying eligibility requirements.

On March 15, 2013, due to the sale of the assets of the Plan Sponsor, the Board of Directors of the Company, voted to terminate the Plan effective May 31, 2013. The participants employed by the purchasing company are allowed to enroll in the new company's plan. Upon Plan termination, participants became 100% vested in the Employer contribution portion of their account. As of September 6, 2013, the Plan asset balance is \$0.

Effective March 2013, the Loan Provision of the Plan was frozen and participants were no longer allowed to request new loans. If the participant elected a direct rollover of their account balance to the new company's plan on or before March 15, 2013, the rollover amount shall include the participant's outstanding loan balance. Elections to initiate a direct rollover after March 15, 2013, will not include the participant's outstanding loan balance.

The Plan Administrator has evaluated subsequent events through October 2, 2013, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2012 and 2011;
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012;
- Investment information included in the footnotes and supplemental schedule of assets (held at end of year) as of December 31, 2012.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

Investment	2012	2011
Russell LifePoints 2030 Strategy	\$ 3,001,885	\$ 2,671,883

For the year ended December 31, 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,796,996.

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2012 and 2011. During the years ended December 31, 2012 and 2011, there were no transfers of financial instruments between Level 1 and Level 2 or transfers into or out of Level 3. Following is a description of the valuation methodology used for assets measured at fair value:

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

Note 6 – Party-in-Interest Transactions

Certain administrative expenses, totaling approximately \$61,000, were paid by the Company on behalf of the Plan for the year ended December 31, 2012. The Company does not expect reimbursement from the

Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Note 7 – Tax Status

The Company adopted a nonstandardized prototype plan (the Prototype Plan) sponsored by INTRUST Bank, N.A. The Internal Revenue Service (IRS) has determined and informed the Trustee by a favorable opinion letter dated March 31, 2008, that the Prototype Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The Prototype Plan's opinion letter is being relied on by the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan's management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
