WOLVERINE SALARIED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

Note 1—Description of the plan

The following description of the Wolverine Salaried 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Effective April 1, 2011 the Plan was created from a spin-off of the EP Salaried 401(k) Plan. The Plan is a defined contribution plan, sponsored by Wolverine Advanced Materials Global, LLC (the Company), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Substantially all salaried employees of the Company are eligible to participate in the Plan upon hire.

Contributions

Participants may elect to contribute up to 100% of their base compensation, or the maximum dollar amount allowed by law, as a pre-tax deferral. The Company makes a matching contribution equal to 50% of the first 6% of participant pre-tax deferral contributions. The discretionary profit sharing contribution was allocated to the participant on a pro-rata basis of eligible compensation. The Company made a discretionary profit sharing contribution of \$50,495 to the Plan in 2012.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contributions.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions, (b) Company discretionary contributions and (c) Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in pre-tax deferral and rollover contributions plus actual earnings (losses) thereon. Participants become vested in the Company's contributions plus actual earnings (losses) thereon upon being credited with three years of vested service.

Notes receivable from participants

Participants may borrow against their vested account balance a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the vested balance in the participant's account, and bear interest at rates commensurate with current interest rates charged for loans made under similar circumstances by lending institutions. The term of any loan shall not exceed five years, except in the case of a loan used to acquire any dwelling to be used as a primary residence.

WOLVERINE SALARIED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2012 and 2011

Note 1—Description of the plan—continued

Payment of benefits

On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments over a fifteen year period. Distributions must commence by March 31 of the calendar year following the calendar year the participant reaches age 70½ and has separated from service.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the Company's contributions or pay Plan expenses for the year. At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$541 and \$816, respectively. These accounts will be used to reduce future employer contributions.

Administrative expenses

Administrative expenses are paid by the Plan unless the Company elects to make payment.

Note 2—Significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investment transactions are accounted for on a trade-date basis, and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned.

The Plan has investments in the JP Morgan Commingled Pension Trust Fund (Stable Asset Income) at December 31, 2012 and 2011. These funds are comprised of highly diversified fixed income investments which may include U.S treasury and agency securities, mortgage backed securities, asset-backed securities, commercial mortgage-backed securities, private mortgages, corporate debt and short-term investments. The Fund also enters into investment contracts to provide benefit responsive wraps. The investments are recorded and valued at fair value and adjusted to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The JP Morgan Commingled Pension Trust Fund has separately audited financial statements which provide additional information on the fully benefit-responsive investment at December 31, 2012 and 2011.

WOLVERINE SALARIED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2012 and 2011

Note 2—Significant accounting policies—continued

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the plan document.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds, common/collective trust funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Payment of benefits

Benefits are recorded when paid.

New accounting pronouncements

In May 2011, FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04). ASU 2011-04 amended FASB Accounting Standards Codification Topic 820 (ASC 820), Fair Value Measurement, to converge the fair value measurement guidance in accordance with accounting principles generally accepted in the United States of America and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for nonpublic entities as defined in ASC 820. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 7, 2013, the date the financial statements were available to be issued.

WOLVERINE SALARIED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2012 and 2011

Note 3—Investments

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, JPMorgan Chase Bank, (the Trustee) has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments.

- Investments
- Net appreciation (depreciation) in fair value of investments
- Interest and other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value, establishes a framework on measuring fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan accounts for certain financial assets at fair value under various accounting literature.

In accordance with the standard, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into the three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within the different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2012 and 2011

Note 3—Investments—continued

Financial assets and liabilities recorded on the Statement of Net Assets Available for Benefits are categorized based on the inputs to the valuation techniques as follows:

- Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.
- Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
- a. Quoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c. Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
 - d. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation of other means for substantially the full term of the asset or liability.
- Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2012.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trust Fund – valued based on the NAV of the shares determined by the underlying securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6—Tax status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter dated March 31, 2008, from the Internal Revenue Service (IRS), that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
