INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust

Report on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust as of December 31, 2012 and 2011, the related statements of changes in net assets available for benefits and the related notes to the financial statements for the years then ended.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the plan's management, as well as evaluating the overall presentation of the financial statements.

The supplemental schedule of Schedule H, line 4i-schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTE A - DESCRIPTION OF PLAN

The following description of the Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have completed three months of eligible service and are age twenty-one or older. Participants must complete one year of eligible service to qualify for employer matching and non-elective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions. Each year, participants may contribute up to the annual maximum determined by the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into their own self-directed brokerage account. The Company makes matching contributions equal to 50% of each eligible participant's salary reduction contribution that does not exceed 6% of the eligible participant's compensation for the Plan year. Contributions are subject to certain limitations. The Company has made matching contributions of $188,962 and $173,805 for the years ended December 31, 2012 and 2011, respectively. The Company may also make discretionary profit sharing contributions.

Participant Accounts. Each participant's account is a self-directed brokerage account that is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may elect to have a portion of the employer contribution used to purchase life insurance policies on their life. The amount of insurance will vary with the participant's age, type of insurance purchased, and premium selected. If ordinary universal life insurance policies are purchased, the total premiums may not exceed 50% of the employer contribution and forfeiture allocated to the participants account. If term insurance policies are purchased, the total premiums paid may not exceed 25% of the total employer contribution and forfeiture allocated to the participants account.

The Plan Custodian was changed from Morgan Stanley, Smith Barney to Merrill Lynch, Wealth Management effective January 1, 2012. In anticipation of that transfer, a black out period was declared for the plan from December 23, 2011 through January 10, 2012. During the black out period, the participants could not make any investment changes, borrow from or receive any distributions from the Plan. During the black out period, most of the participant investments were liquidated to accommodate the transfer.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested 20% per year and is 100% vested after five years of credited service.

NOTE A - DESCRIPTION OF PLAN (CONT'D)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate that ranges between 3.25% and 6.0% which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions over a term not to exceed five years.

Payment of Benefits. On termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts. At December 31, 2012 and 2011 forfeited non-vested accounts totaled $409 and $1,447, respectively. These accounts will first be used to pay the administrative expenses of the Plan. Any remaining amounts will then be added to the employer contributions for the Plan year in which the forfeitures occur. For the Plan years ended December 31, 2012 and 2011, there were no forfeiture contributions added to participant accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Common stocks are valued at fair value based on the closing market share price at year end and mutual funds are valued at fair value based on the net asset value of the shares held at year end. Certificates of Deposit, Bonds and Promissory Notes are valued at their outstanding balances, which approximate fair value.

Income Recognition. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating Expenses. The expenses of maintaining the Plan are paid through the Plan when funds are available in the forfeiture account. When funds are not available, the Company pays the expenses of maintaining the Plan.

Subsequent Events. The Plan has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Recent Accounting Pronouncements.

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measures and Disclosure Requirements in U.S. GAAP and IFRSs". ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in accounting principles generally accepted in the United States of America (GAAP) and International Financial Reporting Standards (IFRSs). The amendment requires additional disclosures about fair value measurements categorized within Level 3 of the fair value hierarchy. The additional disclosures include quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, the valuation processes used by the Plan, and the Plan's policy for determining when transfers into or out of Level 3 are deemed to have occurred. The guidance is to be applied prospectively and is effective for periods beginning after December 15, 2011. Adopting this ASU during the year ended December 31, 2012, did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06. "Improving Disclosure about Fair Values Measurements." The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosure about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disaggregation of the Level 3 activity, which is effective for interim and annual periods beginning after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements.

NOTE C - INVESTMENTS

At December 31, 2012 and 2011 investments that represent 5% or more of the Plan's net assets were participant self-directed brokerage accounts of $6,678,904 and $5,932,655, respectively. All participants have their own self-directed individual brokerage accounts.

The Plan's investments in the participants self-directed brokerage accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $515,903 for the year ended December 31, 2012, and depreciated in value by $137,757 for the year ended December 31, 2011.

All contributions to a participant's account shall be held by the trustee of the Plan. The decision as to the investment of a participant's account shall be made at the sole discretion of the participant. Participants may choose to invest in allocated life insurance contracts. For the years ended December 31, 2012 and 2011, allocated contract premiums of $16,489 and $21,199 were paid on these policies.

Guaranteed Investment Contracts: Fully benefit-responsive investment contracts held by participants in the defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Certain participants of the Plan invest in investment contracts in Nationwide Destination EV New York 2.0 Flexible Premium Deferred Variable Annuity and Prudential Premier Retirement Variable Annuity X Series. The Statement of Net Assets Available for Benefits presents the fair value of the Participant's investments as the contract value for the guaranteed investment contracts, as the contract value approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

NOTE C - INVESTMENTS - (CONT'D)

Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise.

NOTE D - FAIR VALUE MEASUREMENT

The Plan adopted the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" which provides a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common Stocks, Bonds and Real Estate Investment Trusts: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed Investment Contracts with Insurance Companies: Valued based on insurance company contract values which approximate fair value.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Money Market Funds and Certificates of Deposit: Valued based on the short-term cash component as of the measurement date which approximates fair value.

NOTE D - FAIR VALUE MEASUREMENT (CONT'D)

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE E - RELATED PARTY TRANSACTIONS

Fees associated with the administrative and professional services of the Plan amounted to $7,000 and $6,900 for the years ended December 31, 2012 and 2011, respectively. The fees of $7,000 for professional services paid in the year ended December 31, 2012 were paid by Morgan Fuel & Heating Company, Inc and the Plan reimbursed Morgan Fuel & Heating Company, Inc for $3,000. Fees of $6,900 for professional services for the year ending December 31, 2011 were paid by the Plan. Promissory Notes Receivable from Participants are considered to be party-in-interest transactions.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 18, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken any uncertain position that more likely than not would not be sustained upon examination by its taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust

Report on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust as of December 31, 2012 and 2011, the related statements of changes in net assets available for benefits and the related notes to the financial statements for the years then ended.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the plan's management, as well as evaluating the overall presentation of the financial statements.

The supplemental schedule of Schedule H, line 4i-schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

MORGAN FUEL & HEATING COMPANY, INC., 401(K) PROFIT SHARING AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the Morgan Fuel & Heating Company, Inc., 401(k) Profit Sharing Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have completed three months of eligible service and are age twenty-one or older. Participants must complete one year of eligible service to qualify for employer matching and non-elective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions. Each year, participants may contribute up to the annual maximum determined by the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into their own self-directed brokerage account. The Company makes matching contributions equal to 50% of each eligible participant's salary reduction contribution that does not exceed 6% of the eligible participant's compensation for the Plan year. Contributions are subject to certain limitations. The Company has made matching contributions of $188,962 and $173,805 for the years ended December 31, 2012 and 2011, respectively. The Company may also make discretionary profit sharing contributions.

Participant Accounts. Each participant's account is a self-directed brokerage account that is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may elect to have a portion of the employer contribution used to purchase life insurance policies on their life. The amount of insurance will vary with the participant's age, type of insurance purchased, and premium selected. If ordinary universal life insurance policies are purchased, the total premiums may not exceed 50% of the employer contribution and forfeiture allocated to the participants account. If term insurance policies are purchased, the total premiums paid may not exceed 25% of the total employer contribution and forfeiture allocated to the participants account.

The Plan Custodian was changed from Morgan Stanley, Smith Barney to Merrill Lynch, Wealth Management effective January 1, 2012. In anticipation of that transfer, a black out period was declared for the plan from December 23, 2011 through January 10, 2012. During the black out period, the participants could not make any investment changes, borrow from or receive any distributions from the Plan. During the black out period, most of the participant investments were liquidated to accommodate the transfer.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested 20% per year and is 100% vested after five years of credited service.

NOTE A - DESCRIPTION OF PLAN (CONT'D)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate that ranges between 3.25% and 6.0% which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions over a term not to exceed five years.

Payment of Benefits. On termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts. At December 31, 2012 and 2011 forfeited non-vested accounts totaled $409 and $1,447, respectively. These accounts will first be used to pay the administrative expenses of the Plan. Any remaining amounts will then be added to the employer contributions for the Plan year in which the forfeitures occur. For the Plan years ended December 31, 2012 and 2011, there were no forfeiture contributions added to participant accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Common stocks are valued at fair value based on the closing market share price at year end and mutual funds are valued at fair value based on the net asset value of the shares held at year end. Certificates of Deposit, Bonds and Promissory Notes are valued at their outstanding balances, which approximate fair value.

Income Recognition. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating Expenses. The expenses of maintaining the Plan are paid through the Plan when funds are available in the forfeiture account. When funds are not available, the Company pays the expenses of maintaining the Plan.

Subsequent Events. The Plan has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Recent Accounting Pronouncements.

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measures and Disclosure Requirements in U.S. GAAP and IFRSs". ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in accounting principles generally accepted in the United States of America (GAAP) and International Financial Reporting Standards (IFRSs). The amendment requires additional disclosures about fair value measurements categorized within Level 3 of the fair value hierarchy. The additional disclosures include quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, the valuation processes used by the Plan, and the Plan's policy for determining when transfers into or out of Level 3 are deemed to have occurred. The guidance is to be applied prospectively and is effective for periods beginning after December 15, 2011. Adopting this ASU during the year ended December 31, 2012, did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06. "Improving Disclosure about Fair Values Measurements." The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosure about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disaggregation of the Level 3 activity, which is effective for interim and annual periods beginning after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements.

NOTE C - INVESTMENTS

At December 31, 2012 and 2011 investments that represent 5% or more of the Plan's net assets were participant self-directed brokerage accounts of $6,678,904 and $5,932,655, respectively. All participants have their own self-directed individual brokerage accounts.

The Plan's investments in the participants self-directed brokerage accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $515,903 for the year ended December 31, 2012, and depreciated in value by $137,757 for the year ended December 31, 2011.

All contributions to a participant's account shall be held by the trustee of the Plan. The decision as to the investment of a participant's account shall be made at the sole discretion of the participant. Participants may choose to invest in allocated life insurance contracts. For the years ended December 31, 2012 and 2011, allocated contract premiums of $16,489 and $21,199 were paid on these policies.

Guaranteed Investment Contracts: Fully benefit-responsive investment contracts held by participants in the defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Certain participants of the Plan invest in investment contracts in Nationwide Destination EV New York 2.0 Flexible Premium Deferred Variable Annuity and Prudential Premier Retirement Variable Annuity X Series. The Statement of Net Assets Available for Benefits presents the fair value of the Participant's investments as the contract value for the guaranteed investment contracts, as the contract value approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

NOTE C - INVESTMENTS - (CONT'D)

Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise.

NOTE D - FAIR VALUE MEASUREMENT

The Plan adopted the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" which provides a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common Stocks, Bonds and Real Estate Investment Trusts: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed Investment Contracts with Insurance Companies: Valued based on insurance company contract values which approximate fair value.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Money Market Funds and Certificates of Deposit: Valued based on the short-term cash component as of the measurement date which approximates fair value.

NOTE D - FAIR VALUE MEASUREMENT (CONT'D)

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE E - RELATED PARTY TRANSACTIONS

Fees associated with the administrative and professional services of the Plan amounted to $7,000 and $6,900 for the years ended December 31, 2012 and 2011, respectively. The fees of $7,000 for professional services paid in the year ended December 31, 2012 were paid by Morgan Fuel & Heating Company, Inc and the Plan reimbursed Morgan Fuel & Heating Company, Inc for $3,000. Fees of $6,900 for professional services for the year ending December 31, 2011 were paid by the Plan. Promissory Notes Receivable from Participants are considered to be party-in-interest transactions.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 18, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken any uncertain position that more likely than not would not be sustained upon examination by its taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - RECLASSIFICATION

Certain items in the financial statements for the year ended December 31, 2011 have been reclassified to conform with the financial statements dated December 31, 2012
