BIG LEAGUE DREAMS 401(K) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Big League Dreams 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information of the Plan's provisions. The Plan is a defined contribution plan and was adopted on July 27, 2007.

Eligibility

The Plan covers substantially all employees of Big League Dreams USA, LLC and its subsidiaries and affiliates (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The employee must have completed six months of service and be at least 21 years of age to be eligible to participate in the Plan and receive employer discretionary matching and non-elective contributions.

Contributions

Each participant may contribute up to 90% of eligible compensation deferred and designated as an employee savings contribution, subject to IRS regulation limitations. The participants may designate all or part of their deferred compensation as Roth contributions. The Plan allows rollover contributions from other qualified retirement plans and catch-up contributions for participants over 50 years old.

The Company may make a discretionary matching contributions each plan year in an amount to be determined by the Company. The participant must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to be eligible to receive matching contributions for the year, if any. The Company may also make non-elective contributions to the Plan. For the year ended December 31, 2012, the Company did not make any discretionary matching or non-elective contributions.

Participant Accounts

Separate accounts are maintained for each participant which are adjusted for employee deferrals, rollover contributions, employer discretionary matching contributions and allocations of forfeitures, administrative expenses and investment earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from a participant's vested account. Participants direct all investment transactions within their accounts.

NOTE 1 - DESCRIPTION OF PLAN – CONTINUED

Vesting

Participants are 100% vested in their deferrals and rollover contributions plus the actual earnings thereon. The Company's discretionary matching contributions and non-elective contributions and the related earnings thereon vest at 20% per year, after the first year of service.

Funding Policy

The Company is required to make all employee savings and employer discretionary matching and non-elective contributions under the Plan for each taxable year. In no event shall the amount contributed by the employer in any year exceed the maximum deductible by the employer under Section 404(a)(3) of the Internal Revenue Code.

Forfeitures

Forfeitures may be used to reduce the Company's discretionary matching and non-elective contributions to the Plan. During the year ended December 31, 2012, the Plan had no forfeitures.

Payment of Benefits

On termination of service due to death, disability, retirement or any other reason, the participants may elect to receive either a lump-sum distribution equal to the value of the participant’s vested interest in his or her account. The Plan also allows in-service withdrawals and contains minimum distribution requirements for participants who attain the age of seventy and a half (70.5).

Participant Loans

The Plan's does not allow participant loans.

Administrative Expenses

Most of the Plan's administrative expenses that include investment fees and recordkeeping costs are paid by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Plan's Fiscal Year

The Plan's fiscal year is from January 1 to December 31.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are stated at fair value determined based on the quoted market price as of the last day of the Plan's year. Sales and purchases of investments are accounted for on a trade day basis, interest income is recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefit payments to participants are recorded when paid.

Concentration of Credit Risk

Financial instruments which potentially subject the Plan to concentration of credit risk consist of investments, which are placed with high credit quality financial institutions.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events were evaluated through the date of issuance of these financial statements on October 4, 2013.

NOTE 4 - PARTY-IN-INTEREST

Certain Plan investments are units of mutual funds managed by subsidiaries or affiliates of Fidelity Management Trust Company, the trustee of the Plan. Therefore, transactions involving such funds qualify as party-in-interest, as defined by the applicable ERISA rules and regulations.

NOTE 5 - TAX STATUS

The Plan was adopted as a version of a prototype plan. In its opinion letter, the IRS has stated that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter for the prototype plan, the Plan administrator and the Plan's trustee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other then quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6 - FAIR VALUE MEASUREMENTS - CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011.

Mutual Funds and Money Market Funds: Valued based on the closing net asset value per share of the shares of a fund times the number of shares of that fund held. The assets values are based on publicly quoted prices, the net asset value of the funds are publicly quoted.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

2012	Level 1	Level 2	Level 3	Total
Money market funds	$ 5,245	$ -	$ -	$ 5,245

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
