SNYDER VILLAGE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Snyder Village (“Home”) 401(k) Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of the Home who have attained age 21 and completed three months of service to participate in elective deferrals and one year of service to participate in matching contributions and employer profit sharing contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Third Party Administrator

Ascensus, Inc. is the third party administrator of the Plan. As third party administrator, Ascensus, Inc. administers and performs accounting for the Plan.

Trustee

OFI Trust Company (“Oppenheimer”) is the trustee of the Plan.

Contributions

Elective deferrals are permitted under the Plan. A discretionary profit sharing contribution and discretionary matching contribution by the Home are determined annually. To participate in the discretionary contributions, employees must be actively employed at Plan year end and complete at least 1,000 hours of service during the Plan year. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s elective deferrals, an allocation of the Home’s contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Vesting in the Home’s contributions plus earnings thereon is based on covered years of service. A covered year of service is any twelve month period ending on the Plan year end during which the participant worked at least 1,000 hours. A participant is always 100 percent vested in the deferral portion of their account. A participant is 100 percent vested in the match and profit sharing portions of their account after three years of covered service. A participant is 100 percent vested in the former money purchase plan portion of their account after five years of covered service. Additionally, participants become 100 percent vested upon retirement (age 65), death or disability.

Payment of Benefits

Benefits commence upon death, disability, retirement or other termination of service. Participant accounts may be taken in a lump sum amount, in installments, or in an annuity contract. Minimum distributions must be taken once a participant reaches age 70 ½.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts amounted to \$2,660 and \$0, respectively. These accounts may be used to reduce future employer contributions. Employer contributions were reduced by \$0 and \$755 from forfeited nonvested accounts in 2012 and 2011, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Home has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their account.

Tax Status

The Plan obtained its latest determination letter on December 27, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. No amendments have been made to the Plan since its latest determination letter.

The Plan files a Federal informational return annually. Management believes the returns are no longer subject to examination for years prior to 2009.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation

The Plan has entered into a trustee arrangement with OFI Trust Company. As directed by the participants, the funds are invested in various Oppenheimer and other mutual funds. The mutual funds are stated at fair value as determined by the trustee of the Plan based on quoted market prices.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2013, the date which the financial statements were available to be issued.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the financial statements was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

NOTE 7. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012, from prior year.

Shares of registered investment companies: Valued daily at unit values based on the price from each fund house after the close of the stock market. The unit values include the net asset value and any dividends or capital gains declared.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Target retirement funds	\$ 76,615	\$ 76,615	\$ -	\$ -
Fixed income funds	691,072	691,072	-	-

	<u>\$ 2,421,067</u>	<u>\$ 2,421,067</u>	<u>\$ -</u>	<u>\$ -</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
