1. Description of Plan

The following brief description of the Infigen Management Services 401k and Profit Sharing Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

A. General

The Plan commenced on January 1, 2010. The Plan is a defined contribution plan covering all non-union employees of Infigen Management Services, LLC (the Company), who are age eighteen or older. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute from 1% to 100% of pretax annual compensation up to the maximum amount allowed by the Internal Revenue Code, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans, subject to the rules of the Plan. The Plan has an automatic enrollment feature whereby participants will automatically be enrolled into the Plan unless they opt out. The Company has the option of making matching contributions and discretionary profit sharing contributions. The Company is not required to make these contributions. Contributions are subject to certain limitations. During the year ended December 31, 2012, the Company matched 50% of the first 6% of compensation deferred.

C. Participants' Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based upon a three year cliff vesting schedule whereby a participant is 100% vested after three years of service and 0% vested prior to the three years of service; however, all participants employed prior to January 1, 2012 are immediately vested in the Company's matching and discretionary contribution portion of their accounts.

E. Forfeited Accounts

There were forfeitures of non-vested accounts for the years ended December 31, 2012 and 2011, of $296 and $0, respectively. The balance in the forfeiture account at December 31, 2012 and 2011, was $296 and $0, respectively. There was no use of forfeitures to pay Plan expenses or reduce employer contributions for the years ended December 31, 2012 and 2011.

F. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000, or fifty (50) percent of their vested interest. Loan terms range to a maximum of five (5) years (the term may be extended for acquisition of a principal residence); however, the term of any loan may not extend beyond the participant's normal retirement date, as defined in the Plan. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deduction. Interest rates for these loans are generally fixed at 1% above the prime rate.

G. Payment of Benefits

Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution, or installments over a specific number of

years, as defined in the Plan. In service withdrawals may be permitted after attaining age 59 1/2, or in the event of an immediate financial hardship, as defined in the Plan. Hardship withdrawals are subject to certain restrictions.

2. Summary of Significant Accounting Principles

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net Appreciation (Depreciation) on Investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Company.

3. Funding Policy

This Plan is funded by participating employees who make elective contributions to the Plan, pursuant to the Internal Revenue Code Section 401(k). The Plan may also be funded through discretionary employer contributions. Employer contributions for the year ended December 31, 2012 were $269,743.

4. Information Prepared by Certified Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's rules and regulations for reporting and disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified as complete and accurate by Transamerica Retirement Solutions Corporation and was not subjected to any auditing procedures by the independent public accountants:

	12/31/12	12/31/11
Investments, at Fair Value:		
Pooled Separate Accounts	$ 2,856,192	$ 1,647,619
Insurance Company General Account	194,031	12,661
Investment Income:		
Appreciation in Fair Value of Investments	269,142	
Interest	646	

5. Investments

The Plan's investments are administered by an insurance carrier and held in both a trust fund and the insurance company's general account.

During 2012, the Plan's investment (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $269,142 as follows.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820 establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlations or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts with Transamerica: Valued daily based on the quoted market prices of the underlying investments.

Insurance Company General Account: Valued at contract value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

A separate account is an account segregated from the insurance company's general account that holds assets allocated to that account. It is an accounting entity rather than a legal entity.

Separate accounts are credited with the income, gains, or losses resulting from the assets allocated to the account but are not credited with income, gains, or losses resulting from the insurance company's general account or any other separate account.

Assets allocated to the separate accounts can include, but are not limited to, stocks (both domestic and foreign), bonds, mortgages, real estate, mutual funds, other separate accounts, and cash or cash equivalents as specified in the separate account's investment policy. Transamerica Life Insurance Company owns the underlying investments in the separate accounts.

The value of a separate account is its market value less operating expenses accrued but not deducted, if any. If there is no readily available market, its value is the fair value of the underlying investments held in such separate account as determined by Transamerica Life Insurance Company using generally accepted accounting practices and applicable law.

7. Investment Contracts with Insurance Company

In 2010, the Plan entered into a benefit-responsive investment contract with Transamerica Life Insurance Company (TLIC). Transamerica maintains a portion of the Plan's contributions in a stable value fund (general account). The stable value fund is a non-tradable obligation of Transamerica Retirement Services and consists of deposits and credited interest. Interest rates for the stable value fund are set prior to the beginning of each month. There is no minimum guaranteed rate and no maturity date.

The stable value fund is fully benefit responsive, and thus the contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Transamerica, approximates fair market value. Since there is no difference between fair value and contract value, no adjustment is required to arrive at Net Assets Available for Benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value with no conditions, limits or restrictions.

There are no reserves against contract value for credit risk of the contract issuer, or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting. The crediting interest rates at December 31, 2012 and 2011 were 1.9% and 2.45%, respectively. The average yield based on earnings for December 31, 2012 and 2011 were 2% and 2.7%, respectively.

Certain events may limit the ability of the Plan to transact at full contract value with the issuer, including a significant decline in creditworthiness of Transamerica Life Insurance Company, Plan termination or contract discontinuance. Plans may only be terminated by the sponsor. Contracts may be discontinued in whole or in part by the contract holder or the issuer. The issuer may only discontinue a contract under certain conditions. If such an event should ever occur, the stable value fund may no longer be considered fully benefit responsive. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

8. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts and a general account managed by Transamerica Retirement Solutions Corporation. Transamerica Retirement Solutions Corporation is the Custodian of the Plan assets and, therefore, these transactions qualify as party in interest as identified on Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. The Company also pays quarterly record keeping charges for the Plan.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts.

10. Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing 401(k) Plan with a cash or deferral arrangement that received a favorable opinion letter from the Internal Revenue Service (IRS) on May 30, 2008. The favorable opinion letter stated that the Plan is designed in accordance with applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events

The Company evaluated subsequent events through the date of the Accountant's Report, which is the date the financial statements were issued.
