Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Currie/Curfin Motors 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2012, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Currie/Curfin Motors 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan, as most recently amended effective October 5, 2010, is a contributory, defined contribution plan maintained for the benefit of eligible employees of Currie/Curfin Motors, Inc. (the Sponsor). The Sponsor is the Plan Administrator. Under the provisions of the Plan, employees become eligible to participate in the Plan upon reaching 21 years of age and completing one year of service. The Plan provides for entry dates the earlier of January 1st or the date six months thereafter, coincident with or next following satisfaction of the eligibility requirements. The Plan's investments are 100 percent participant-directed.

Transamerica Life Insurance Company (Transamerica) is the custodian and recordkeeper of the Plan.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

Employee-directed contributions: The Plan provides that participants may elect to contribute from 1 to 15 percent, on a pretax basis, of their eligible compensation, for the portion of the plan year in which the employee is eligible to participate in the Plan and subject to Internal Revenue Code Section 402(g)(5) limitations of $17,000 in 2012.

The Plan allows "catch-up contributions" for participants who are age 50 and older for an additional $5,500 (as adjusted from time to time by the Internal Revenue Code Section 414(c)).

Employer matching contributions: The Sponsor contributes to each eligible participant account a matching percentage of amounts contributed by the participant. The employer match is at a rate of 25 percent of the first 5 percent of elective contributions, limited to 1.25 percent of the employee's compensation.

Discretionary employer matching contributions: At the end of any year, the Sponsor may contribute an additional amount on a discretionary basis. Each employee will receive a pro rata share equal to the ratio of his or her elective contributions to all elective contributions multiplied by the amount of the discretionary contribution. No discretionary employer matching contributions were made in 2012.

Qualified discretionary contributions: The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2012.

Rollover contributions: To be made by the employee from amounts distributed or transferred from another qualified deferred compensation plan. No rollover contributions were made in 2012.

Participants' accounts: Investment income and fair value appreciation are allocated to the accounts of participants and terminated participants (who have undistributed account balances in their accounts). Investment income is allocated daily. Discretionary contributions are allocated based upon participant compensation, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances.

Note 1. Description of Plan (Continued)

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt.

The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting: Participants are immediately vested in their employee-directed, qualified discretionary and rollover contribution accounts and earnings thereon. Participants vest in their employer matching and discretionary employer matching contribution accounts as follows:

Number of Years of Service at Date of Termination	Vested Percentage
Less than 2 years	None
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Investment options: Upon enrollment in the Plan, a participant may direct investment contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lessor of 50 percent of the vested portion of their account balance, or $50,000, reduced by the highest outstanding balance during the prior 12-month period. Participants may have one outstanding note receivable at any given time. Terms range from one to five years, unless the loan is for the purchase of a primary residence. They are secured by the balance in the participant's account and bear interest at a rate of 1 percent above the prime interest rate. Principal and interest is paid ratably through payroll deductions. Interest rates outstanding at December 31, 2012 were 4.25 percent per annum.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or termination of employment. Benefits are paid in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account upon reaching the age of 65 or by determination that a financial hardship, as defined, has been incurred.

At December 31, 2012, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Administrative expenses: Substantially all administrative costs of the Plan are paid for by the Sponsor.

Forfeited accounts: Forfeited nonvested accounts are used to reduce employer contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $33,468 and $31,590, respectively. During 2012, $3,848 of forfeited nonvested accounts were used to pay employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as this approximates contract value of the fully benefit-responsive investment contract. The statement of changes in net assets available for benefits is prepared on a fair value basis which approximates contract value basis for fully benefit-responsive investment contracts.

Use of estimates: In preparing the financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements.* This update changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 5 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements.* The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: The Plan Administrator has evaluated subsequent events through October 8, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Transamerica Life Insurance Company

The following is a summary of the Plan's asset and income information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian is complete and accurate related to the following assets and income. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2012	2011
Shares of pooled separate accounts	$ 4,913,276	$ 4,622,129
Guaranteed investment contract	2,094,765	1,517,981

Transamerica also certified to the completeness and accuracy of $659,887 of net appreciation in fair value of investments and $31,658 of interest related to the aforementioned investments for the year ended December 31, 2012.

Note 4. Investments

The following table presents the fair value of the investments as of December 31, 2012 and 2011 that represent 5 percent or more of the Plan's net assets.

	2012	2011
Investments at fair value as determined by the insurance company, Transamerica Life Insurance Company:		
Pooled separate accounts:		
WMC Quality Growth Equity	$ 910,940	$ 1,091,342
Oppenheimer Global Retirement	582,463	527,968
Neuberger Berman Genesis	384,780	625,296
Guaranteed investment contract:		
Transamerica Stable Value Fund	2,094,765	1,517,981

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts are valued based on the information reported by the investment advisor.

Guaranteed investment contract: Valued at fair value based on its beginning balance plus any deposit and credit interest, less any withdrawals, charges or expenses. Contract value approximates fair value. See Note 6.

Note 5. Fair Value Measurements (Continued)

(i) This category invests mainly in securities of issuers from countries outside of the United States and seeks long-term growth of capital. Investments in this category may be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed investment contract	$ 2,094,765	See Note 6	See Note 6	See Note 6	See Note 6

Note 5. Fair Value Measurements (Continued)

In estimating fair value of the investments in Level 3, the Investment Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings. The effective credit rating for TFLIC is A1 as of the valuation date.

Change in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 3.

Note 6. Investment Contracts with Insurance Company

In 2002, the Plan entered into a benefit-responsive investment contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the stable value fund contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a monthly basis for purpose of resetting.

The investment policy of the stable value fund is to invest the money with money market funds and one year treasury bills. That policy may change over time based on prevailing market conditions.

Amounts may be transferred from the participant's account balance in the stable value fund at any time. The value of the stable value fund in respect of the Participant will be determined as the value of the sum of the participant's stable value fund contributions plus interest and transfers minus the sum of any amounts distributed, transfers and premium tax.

Note 6. Investment Contracts with Insurance Company (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The stable value fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

	2012	2011
Based on actual earnings	1.75 %	2.45 %
Based on interest rate credited to participants	1.75	2.45

Note 7. Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies managed by the trustee. Transamerica is the custodian as defined by the Plan. Total fees paid by the Plan for the investment management services were $12,469 during 2012.

Certain employees of the Sponsor provide trustee and administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. Also, certain administrative expenses were paid by the Sponsor on behalf of the Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to the participant accounts and distributed in such a manner as the Sponsor may determine.

Note 9. Tax Status

The Internal Revenue Service has determined and informed the Sponsor by a letter dated April 7, 2009, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
