The following description of K & F Industries (the Company) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution 401(k) plan covering all full-time employees of Meggitt Aircraft Braking Systems Corporation and Meggitt Polymer & Composites (collectively referred to as the Plan Sponsor). Prior to April 1, 2009, all employees were eligible as of their date of hire. Effective April 1, 2009, new salary employees are no longer eligible to enroll in the Plan. Effective February 1, 2010, the Plan was amended to exclude from participation, temporary employees, cooperative education students, and salaried employees who are reemployed on or after February 1, 2010 and after the fifth anniversary of their severance from employment. Effective July 1, 2010, new employees hired by Meggitt Aircraft Braking Systems Corporation, which are subject to a collective bargaining agreement, are no longer eligible to enroll in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may voluntarily defer a percentage of gross salary, up to the statutory maximum amounts. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company contributes 60% of the first 6% of base compensation that a participant contributes to the Plan. Certain union employees hired after March 1, 2007 will also receive a non-elective employer contribution of 4% of gross wages up to \$900 if certain criteria are met.

Participant Accounts

Each participant's account is credited with the participant's contributions, related matching contributions, non-elective employer contributions, plan expenses, and allocations of the Plan's earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their employee contributions plus actual earnings thereon. Participants vest in all contributions made by the Company and the earnings thereon upon the completion of three years of service with the Company, reaching the normal retirement date while actively employed, or termination of employment as a result of total disability or death.

Note 1. Description of the Plan (Continued)

Participants' Investment Options

Upon enrollment in the Plan, a participant must direct employer contributions and employee deferrals to selected investments, as made available and determined by the plan administrator. Participants may change their investment options at their discretion.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 8.25%, which are commensurate with local prevailing rates as determined by an oversight committee. The terms of the loans are 1 to 5 years or up to 10 years for the purchase of a primary residence. Principal and interest are paid monthly through payroll deductions.

Payment of Benefits

Upon the retirement, termination, disability or death of a participant, all vested amounts attributable to the participant's account (elective salary deferrals, contributions by the Company and income allocable to such amounts) become payable to the participant or beneficiary. The participant or beneficiary may elect to be paid in a lump-sum or in installments over a period of years, not to extend beyond the joint and last survivor expectancy of the participant and a designated beneficiary, in an amount equal to the vested value of his or her account. Hardship withdrawals are also permitted by the Plan.

Forfeited Accounts

Any forfeitures are used to restore previously forfeited amounts for individuals who return to the employment of the Company within a 60-month period. Any additional forfeitures are used to pay Plan expenses. The forfeiture balance at December 31, 2012 and 2011 was \$128,272 and \$172,260, respectively. In 2012, employer contributions were reduced by \$62,521 from forfeited nonvested accounts.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2. Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

As provided in the Plan document, costs of administering the Plan are paid by the Plan. Certain administrative and clerical functions are performed by the Company's employees at no charge to the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" (ASU 2011-04). ASU 2011-04 amended the FASB *Fair Value Measurements and Disclosures* topic to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in the *Fair Value Measurements and Disclosures* topic. In addition, ASU 2011-04 requires additional fair value disclosures. This amendment was adopted for the year ended December 31, 2012. The adoption resulted in additional fair value disclosures (see Note 4). There was no impact to the net assets as of December 31, 2012 and 2011, as a result of the adoption.

Pending Accounting Pronouncement

In October 2012, the FASB issued ASU 2012-04, "Technical Corrections and Improvements." The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013 for the Plan, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events

The Plan has evaluated subsequent events through July 29, 2013, the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held and notes receivable from participants as of December 31, 2012 and 2011, dividend income, net appreciation in fair value of investments, and interest income on notes receivable for the year ended December 31, 2012, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by T. Rowe Price Trust Company, the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information.

Investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

	2012	2011
Mutual funds		
Fidelity Contra Fund	\$ 19,060,229	\$ 17,508,002
* T. Rowe Price Retirement 2020 Fund	8,648,052	7,054,892

NOTES TO FINANCIAL STATEMENTS

K & F INDUSTRIES SAVINGS PLAN

Note 3. Investments (Continued)

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value during the year ended December 31, 2012 as follows:

Mutual funds	\$ 8,009,331
Common collective trusts	96,759
	<u>\$ 8,106,090</u>

Note 4. Fair Value Measurements

The FASB topic *Fair Value Measurements and Disclosures* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trusts: Valued at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

K & F INDUSTRIES SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

- (A) This class includes a stable value collective fund whose objectives are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. The funds invest in fixed-income assets such as guaranteed investment contracts (GICs) issued by insurance companies; investment contracts issued by banks (BICs); structured or synthetic investment contracts (SICs) issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts (SACs); and other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events (collectively, investment contracts). The fair value of investment(s) in this class has been estimated using the net asset value per share of the underlying investment(s).
- (B) This class includes a collective fund whose objective is to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States as represented by Standard & Poor's 500 Composite Stock Index. The trust will invest substantially all of its assets in the common stocks of companies that compose the S&P Index. The trust offers four classes of units: Class A, Class B, Class C, and Class Z. Each class differs from the other classes only in the rate of trustee fees borne by the class. In all other respects, each class has the same rights and obligations as the other classes. The fair value of investment(s) in this class has been estimated using the net asset value per share of the underlying investment(s).

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated October 31, 2011, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Service Code (IRC) and, therefore, the related trust is not subject to the tax under present income tax law. The Plan has been amended since filing for the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. In 2011, a Plan restatement was drafted to reflect all Plan amendments issued since the most recent IRS determination letter was received. Upon notification of the restated Plan's compliance with the IRC, the Plan restatement will become effective.

NOTES TO FINANCIAL STATEMENTS

K & F INDUSTRIES SAVINGS PLAN

Note 5. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 6. Plan Amendment and Termination

The Board of Directors has the right to amend the Plan if it determines that it is necessary and desirable to do so. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7. Transactions With Parties-in-Interest

Certain Plan investments are shares of mutual funds managed by affiliates of T. Rowe Price Trust Company, trustee of the Plan (see Note 3). Therefore, these transactions qualify as party-in-interest transactions. Management fees for these funds are paid by the respective funds and reduce the return earned on the funds. Trustee fees for administering the Plan are paid by the Company.

Certain legal, accounting, and administrative expenses related to the maintenance of participant eligibility records are paid by the Company. Fees paid during the year for other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.
