DIVERSITECH CORPORATION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN

The following is a brief description of the DiversiTech Corporation 401(k) Profit sharing Plan (the "Plan"). It is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan of DiversiTech Corporation (the "Plan Sponsor"), covering all employees who are 21 years of age. Employees are eligible to participate on the first day of the quarter following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Each year, participants may contribute from one to ninety percent of eligible compensation, as defined in the Plan, subject to certain limitations of the Internal Revenue Code ("IRC"). In addition, the Plan Sponsor determines the percentages, if any, of participant contributions that the Plan Sponsor will match each Plan year. For the year ended December 31, 2012, the amount of the Plan Sponsor's match was equal to 35% of each participant's contributions, limited to 6% of total eligible compensation.

(c) Participant Accounts

Each participant's account is credited with the participant's elective deferral, any Employer matching contribution, and the earnings or losses of the respective investment options selected by individual participants.

(d) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable from participants are subject to specific rules provided in the Plan agreement. The notes receivable are collateralized by the vested account balance of the participant receiving the note and bear interest at rates determined by the administrator. Interest rates range from 7.25% to 9.25%. Principal and interest payments occur ratably through regular payroll deductions over a period not to exceed five years, unless the notes were used to purchase a primary residence in which case the note terms may not exceed thirty years.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN (Continued)

(e) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service.

<u>Years of Credited Service</u>	<u>Percent Vested</u>
Less than 1	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

(f) Payment of Benefits

Participants are entitled to their entire account balance at the normal retirement age of 65. If a participant continues to work after the age of 65, he or she may defer the distribution. After termination of employment, a participant with a vested account balance may request a rollover into another qualified plan or IRA, or a lump sum distribution equal to the value of his or her vested account balance.

(g) Forfeitures

Forfeitures are used to reduce future Employer contributions. During the year ended December 31, 2012, \$7,570 was used to reduce matching contributions. The balance of forfeited accounts was \$9,546 and \$5,663 at December 31, 2012 and 2011, respectively.

(h) Plan Expenses

All plan expenses, with the exception of participant notes receivable fees, are paid by the Plan Sponsor, unless the Plan elects to pay them.

(i) Investment Options

Participants may direct the investment of their accounts into various investment funds provided by the Plan. Plan participants are allowed to change their investment options daily.

DIVERSITECH CORPORATION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board ("FASB"). The FASB sets accounting principles generally accepted in the United States of America ("GAAP").

(b) Use of Accounting Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of investments are recorded on the trade date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. New appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits payments to participants are recorded upon distribution.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

(g) Subsequent Events

Management has reviewed subsequent events through the date of this report, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENTS (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the trustee, has provided certification that the financial information included in the financial statements and supplemental schedule as of December 31, 2012 and 2011 and for the year ended December 31, 2012 provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2012 and 2011 and the year ended December 31, 2012 is covered by such certifications and has not been audited by independent auditors.

Individual investments that represent 5% or more of the Plan's net assets are as follows at December 31:

Mutual Funds:

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE C - INVESTMENTS (Unaudited) (Continued)

The net appreciation in the fair value of investments (including gains and losses on investments bought and sold, as well as held during the period) and interest and dividends for the year ended December 31, 2012 are as follows:

	Net Appreciation	Interest and Dividends
Money market fund	\$ -	\$ 65
Mutual funds	472,633	220,563
	<u>\$ 472,633</u>	<u>\$ 220,628</u>

NOTE D - FAIR VALUE MEASUREMENTS

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Mutual Funds

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value ("NAV") as of December 31, 2012 and 2011. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Money Market Fund

The money market mutual fund is valued using the amortized cost or penny rounding method as permitted by Rule 2a-7 under the Investment Company Act of 1940, which approximates their fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2012 and 2011.

DIVERSITECH CORPORATION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE E - INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Corporation by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the trust's net investment income is exempt from income taxes.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize tax liability if the corporation has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE F - RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

Investments in certain funds managed by Fidelity, the trustee, are party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions.

NOTE G - PLAN TERMINATION

While it is the Employer's intention to continue the Plan indefinitely, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Plan agreement. In the event of Plan termination, no contributions would be made to the Plan and the participants would become 100% vested in their accounts.
