APFS 401(k) Plan (formerly known as Addison Search 401(k) Plan)

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the APFS 401(k) Plan (formerly known as Addison Search 401(k) Plan) (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Addison Professional Financial Search, Inc., HireSynergy, Addison Group, Strategic Corporate Solutions, Titan Technology Group LLC, Solas Staffing LLC, Perspective Solutions Group and APFS LLC (collectively, the Company), as defined by the Plan. Employees are eligible to participate in the Plan on the first day of the month subsequent to reaching age 21 and after completing one year of service, as defined by the Plan. These employees are eligible to receive a matching contribution, a safe harbor matching contribution and any discretionary contribution made by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows participants to contribute an amount equal to a dollar amount or percentage of the contributing participant's compensation, as defined in the Plan, but not to exceed statutory limits of the Internal Revenue Code. Effective July 1, 2012, eligible participants are auto-enrolled in the plan at 3 percent of eligible compensation with an annual automatic increase feature up to 8 percent. Participants age 50 and older may contribute catch-up contributions as allowed per IRS limitations. The Company provides a safe harbor matching contribution for all participants equal to 100 percent of each participant's contribution up to the first 3 percent of the participants' compensation plus 50 percent of the next 2 percent of the participants' compensation, as defined by the Plan. The Company may also make separate discretionary contributions to the Plan. During 2012 plan year, the Company did not make separate discretionary contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, Company safe harbor matching contribution, matching contribution, and allocations of the Company's discretionary contribution, if any, plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, the Company's safe harbor matching 401(k) contributions and earnings thereon. Company matching contribution and discretionary contributions are vested 20 percent after two years of service, and 20 percent per year thereafter, being fully vested after six years of credited service.

Notes receivable from participants: Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding balance of notes receivable during the one-year period prior to the date of the current loan or 50 percent of their vested account balance. Notes receivable terms range from one to five years, or longer if used to purchase a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at reasonable interest rate, as defined. Interest rates on current notes receivable range from 3.25 percent to 5.25 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make financial hardship withdrawals.

Note 1. Plan Description (Continued)

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Administrator.

Forfeitures: At December 31, 2012 and 2011, forfeited nonvested accounts amounted to $13,589 and $13,145, respectively. Forfeitures related to Company matching and discretionary contributions are used to offset administrative expenses and future Company contributions. The Plan's matching contributions and expenses were not reduced in 2012 from forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are classified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 4 for impact of adoption.

Note 2. Significant Accounting Policies (Continued)

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 3. Information Certified and Provided by Ascensus, Inc., as Agent for Frontier Trust Company, and Transamerica Life Insurance Company

The following is a summary of the Plan's asset and income information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Ascensus, Inc., as agent for the trustee, Frontier Trust Company, the current trustee, and Transamerica life Insurance Company, the former custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the agent on behalf of the current trustee and the former custodian that information provided to the Plan Administrator by the agent on behalf of the current trustee and the former custodian related to the following assets and income is accurate and complete. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

The following information has been certified by Acensus, Inc., as agent for Frontier Trust Company.

	2012
Shares of registered investment companies	$ 6,873,038
Notes receivable from participants	47,251
Net appreciation in fair value of registered investment companies	366,224
Interest and dividends, registered investment companies	97,675

The following information has been certified by Transamerica Life Insurance Company.

	2012	2011
Shares of pooled separate accounts	$ -	$ 5,786,359
Net appreciation in fair value of pooled separate accounts	356,637	-

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Shares of pooled separate accounts: Primarily valued at net asset value per share based on quoted market prices of underlying investments, except as otherwise noted below.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of the market date is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Note 4. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no such transfers in or out of Level 3.

Note 5. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2012 and 2011.

	2012	2011
Shares of registered investment companies:		
GM JP Morgan Large Cap Growth Fund A	$ 569,004	$ -
GM Oppenheimer Equity Income Fund A	745,492	-
GM Oppenheimer Intl Diversified A	761,954	-
GM Oppenheimer Limited Term Govt A	1,124,507	-

AEGON Cash Management	-	384,031
Morgan Stanley Growth	-	892,358
Morgan Stanley Growth Opportunity	-	609,117

During 2012, the Plan's investments in shares of pooled separate accounts (including investments bought, sold and held during the year) appreciated in value by $356,637. During 2012, the Plan's investments in shares of registered investment companies (including investments bought, sold, and held during the year) appreciated in value by $366,224.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments were held and managed by Transamerica Life Insurance Company, the custodian, through June 30, 2012 until they were transferred to Frontier Trust Company. Also, Southeastern Employee Benefit Services, Inc. provided plan administrative services to the Plan through June 30, 2012. Ascensus, Inc. started providing administrative services to the Plan July 1, 2012. In addition, Merrill Lynch Wealth Management provides advisory services to the Plan. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $8,716 for the year ended December 31, 2012.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

Effective July 1, 2012, the Plan adopted a volume submitter plan sponsored by Ascensus, Inc. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2012 and 2011:
