The following description of The Caddell Dry Dock & Repair Co., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering employees of The Caddell Dry Dock & Repair Co., Inc. (the "Company") who have at least one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The automatic deferral contribution percentage increases by 1% per year for each additional year of service, up to 10% after 8 years of service. Employees may elect to discontinue participation, or to change their deferral amount. The Company is not required to make mandatory matching contributions, but may elect to make discretionary contributions.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Participants' accounts are charged a fee for loan disbursements of $100 and a fee for distributions of $50. Investment related expenses are included in net appreciation of fair value of investments.

1. **Description of Plan (continued):**

Participant accounts

Each participant's account is credited with the participant's contribution and Plan earnings. Benefits to which a participant is entitled are funded exclusively from the individual participant's account.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. Vesting in Company discretionary matching contributions is based on years of continuous service. Such contributions vest in increases for each year between 2 and 6 years, whereupon a participant is 100% vested after six years of credited service.

Forfeited accounts

Forfeitures result from a participant's termination of service prior to achieving full vesting in the Company's contributions. Such forfeitures are transferred out of the participant's account and are held in a separate account. Forfeitures may be applied to pay Plan expenses for the year in which the forfeiture arises, or may be used to reduce future employer contributions. The total forfeitures for the year ended December 31, 2012 were $361.

Investment options

The assets of the Plan are allocated to the various investment funds at the direction of the participant. Upon enrollment, a participant may direct his or her 401(k) contributions in any of the various investment options which are offered under a group annuity contract issued by the TD Bank Wealth Management Group.

Participant notes receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

1. **Description of Plan (continued):**

Payment of benefits

On termination of service due to death or disability, a participant may elect to receive either a lump sum amount of the value of the participant's vested interest in his or her account, or annual installments over a 10 year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Parties-in-interest

ERISA Section 3(14) defines a party-in-interest, to include, among others, fiduciaries or employees of the Plan, any person providing services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, participant loans and the management of investments by the Trustee are considered party-in-interest transactions.

2. **Summary of significant accounting policies:**

Accounting method

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

2. **Summary of significant accounting policies (continued):**

Income taxes

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Use of estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Summary of information certified by Plan trustee:

The statement of net assets available for benefits as of December 31, 2012 and 2011, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2012, and the accompanying notes to the financial statements and the supplemental schedule of assets held for investment as of December 31, 2012 were prepared in part from information certified by the trustee, TD Bank, N.A., in accordance with 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $4,679,129 and $3,882,752 at December 31, 2012 and 2011, and related investment gains of $417,397 for the year ended December 31, 2012.

4. Investments:

The Plan investments are held in a trustee administered trust account and the following investment funds represent 5% or more of the Plan's net assets available for benefits:

	2012	2011
Manning & Napier New World Opportunities Class A	$ N/A	$ 198,208
Vanguard Wellington Fund #21 Investor Class	952,371	687,543
Vanguard 500 Index Trust Fund #40	N/A	194,240
Fidelity High Income Fund #455	256,244	222,861
Pimco Total Return Institutional Fund #35	719,398	670,596
Federated Capital Preservation Fund #40	1,035,929	705,959
Vanguard Short-Term Treasury Fund #32	268,555	254,798
Other funds	1,446,631	948,547
Total	$ 4,679,128	$ 3,882,752

During the year ended December 31, 2012, the Plan's investments, including investments bought, sold and held during the year, appreciated in value as follows:

Unrealized gains	$ 235,170
Net realized gains	85,945
	$ 321,115

5. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

5. Fair value measurements (continued):

Mutual funds: Valued at the daily closing price, as reported by the fund, mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at fair value and includes a variety of investment contracts such as traditional and separate account guaranteed investment contracts (GICs) issued by insurance companies and other investment products (synthetic GICs) with similar characteristics.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2012 and 2011:

		Assets at fair value as of December 31, 2012

The stable value contracts have been classified as Level 2 by the Fund Trustee in its financial statements.

6. Guaranteed investment contract with Federated Capital Preservation Fund:

In 2012, the Plan entered into a fully benefit-responsive guaranteed investment contract with Federated Capital Preservation Fund (Federated). Federated maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Federated, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

6. Guaranteed investment contract with Federated Capital Preservation Fund (continued):

The fair value of the investment contract at December 31, 2012 and 2011 was $1,035,929 and $705,959, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to quality for exemption from federal incomes taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2012	2011
Based on actual earnings	1.16%	1.74%
Based on interest rate credited to participants	2.33%	3.17%

7. Plan termination:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. Upon Plan termination, participants become fully vested in their accounts

8. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various financial risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

9. Distributions payable:

At December 31, 2012, net assets available for plan benefits included $396,988 of participant balances who have separated or withdrawn from the Plan prior to the end of the Plan year.

10. Reconciliation of financial statements to IRS Form 5500:
