Feldco 401(k) Plan

Notes to the Financial Statements
As of December 31, 2012 and 2011, and for the Year Ended December 31, 2012

NOTE 1 – PLAN DESCRIPTION

The following description of the Feldco 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or the summary plan description for a more complete description of the Plan's provisions.

A. GENERAL

The Plan is a profit sharing and 401(k) defined contribution plan covering employees of Feldco Factory Direct, LLC (the "Company") who meet the eligibility requirements of three months of service and twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On December 28, 2012, certain Plan assets and corresponding participant accounts were spun-off into a separate plan, the Feldco Factory Direct National, LLC 401(k) Plan (the "Affiliate Plan"). Feldco Factory National, LLC (the "Affiliate Company") is an affiliate of the Company and is the plan sponsor of the Affiliate Plan. The Affiliate Plan is subject to the provisions of ERISA. Also during 2012, plan assets were transferred to John Hancock Life Insurance Company, the new trustee and custodian for the Plan, see Note 3.

B. CONTRIBUTIONS

Under the Plan, participants are allowed to defer a portion of their compensation under a salary reduction agreement. Compensation that is subject to deferral is based on W-2 wages, including compensation due to SEP deferrals, cafeteria deferrals, deemed section 125 compensation, and transportation compensation deferrals. Elective deferrals may be made in any amount within the restrictions of ERISA. Such deferrals are limited by ERISA to a maximum of $17,000, ($22,500 for those employees over age 50) for the year ended December 31, 2012. Employee contributions are made through authorized payroll deductions. Employee contributions can be made using pre-tax or after-tax "Roth" deferrals.

Each year, the employer may make discretionary matching contributions equal to a percentage of the participant's 401(k) deferrals. These contributions are subject to certain Internal Revenue Code (IRC) limits. In addition to a discretionary matching contribution, the Plan allows for a discretionary profit sharing contribution by the employer. This contribution is made at the sole discretion of the company. There was no discretionary profit sharing contribution for the year ended December 31, 2012.

C. PARTICIPANTS' ACCOUNTS

Each participant's account is credited with the participant's elective deferral contribution and an allocation of (a) the Company's employer matching contribution, (b) the Company's discretionary profit sharing contribution, and (c) plan earnings based upon the investment elections chosen. Allocations are based on participant earnings or account balances, as defined, and directed by participants. Forfeited amounts are used to offset the employer contribution or administrative expenses of the Plan.

NOTE 1 – PLAN DESCRIPTION – (CONTINUED) –

D. VESTING

Employees are 100% vested in their voluntary contributions. In the case of the employer's discretionary profit-sharing and discretionary matching contributions, the Plan uses a graduated scale for vesting:

Full Years of	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

E. NOTES RECEIVABLE FROM PARTICIPANTS

The Plan includes a provision allowing eligible participants to borrow from their accounts at a minimum of $1,000, and up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Loan terms range from one to five years. The loans are repaid, with interest, through equal payroll deductions. The interest rate charged on loans is based on the Prime rate as published in the Wall Street Journal on the day of the loan. Participants may not have more than one loan outstanding at any time.

F. PAYMENT OF BENEFITS

On termination of service due to death, disability, retirement, or other reasons, a participant can choose to have a distribution of his/her account balance equal to the value of his/her vested interest. In the case of early distribution at age 59 ½, the participant may elect to withdraw all or some of his/her vested amounts (including any earnings thereon). Upon financial hardship, as defined by the Plan agreement, distributions are permitted prior to termination of service.

G. ADMINISTRATIVE EXPENSES

Administrative expenses of the plan and trust must be paid by the plan to the extent not paid by the employer. Administrative expenses attributable to active participants shall be allocated among the active participants by dividing total administrative expenses by the number of active participants and then charging the same amount to the account of each active participant. Administrative expenses attributable to terminated participants shall be allocated among the terminated participants by dividing total administrative expenses by the number of terminated participants and then charging the same amount to the account of each terminated participants.

H. FORFEITURES

The non-vested portion of a participant's account balance that is forfeited on or after his termination of employment may be used to reduce administrative expenses of the Plan, or used to reduce employer contributions.

I. PLAN TERMINATION

The Company reserves the right to alter, amend, or terminate the Plan. In the event of Plan termination, each participant will become 100 percent vested in their account balance, and participants will be entitled to a full distribution of their account balance. Presently, there is no intention on the part of the Company to terminate the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. FINANCIAL REPORTING FRAMEWORK

The accompanying financial statements are prepared according to accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Financial Accounting Standards Board (FASB) in the Accounting Standards Codification (ASC).

B. BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. As described in ASC 946-210, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by ASC 946-210, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

C. ESTIMATES

The preparation of financial statements in conformity GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D. INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. The Plan invests in units of pooled separate accounts that are invested in shares of mutual funds. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements.

Investment income is recorded when earned, on the accrual basis, and allocated to each participant's account daily, based on the number of shares held in each participant's account. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

E. NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are recorded in the accompanying financial statements at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

F. PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED) –

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. SUBSEQUENT EVENTS

The Plan evaluated subsequent events through October 1, 2013, which is the financial statement issuance date. All items which are required for disclosure have been included in the accompanying financial statements and notes thereto.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan's investments are held in a trust fund administered by John Hancock Life Insurance Company ("John Hancock") (2012) and ING Life Insurance and Annuity Company ("ING") (2011). Investments that represent five percent or more of the Plan's net assets available for benefits are separately identified. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan follows ASC 946-210, Reporting of Fully Benefit Responsive Investment Contracts Held by Certain Investment Companies. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the ASC, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts.

On December 28, 2012, Plan assets were transferred from ING to John Hancock. Prior to the transfer, the Plan had a benefit-responsive investment contract ("Fixed Fund") with ING. The Fixed Fund had a balance as of December 31, 2011, which is presented in the accompanying financial statements.

ING maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract was based on the contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contract value as of December 31, 2011 is materially the same as fair value. Participants were ordinarily able to direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield and crediting interest rate was 3% for both of the years ended December 31, 2012 and 2011. The crediting interest rate is based on the various factors including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains or losses realized on the sale of invested assets. Under this option, ING assumed the risk of investment gain or loss by guaranteeing the principal amount contributed by participants and promising a minimum interest rate during the accumulation period and also throughout the annuity payout period, if applicable. As of December 31, 2011, the contractually guaranteed minimum interest rate is 3%, through the year ended December 31, 2012. The crediting interest rate was determined at least monthly, and the guaranteed minimum rate was reset on a calendar year basis.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would have limited the Plan's ability to transact at contract value with ING. The Plan administrator did not note the occurrence of such events.

NOTE 5 – TAX STATUS

The Plan obtained its latest determination letter, dated March 16, 2010 in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2012, Plan investments consisted primarily of mutual funds managed by John Hancock, the trustee and record-keeper of the Plan. As of December 31, 2011, Plan investments included some mutual funds and a fixed income fund managed by ING, the former trustee and record-keeper of the Plan. These transactions qualify as party-in-interest transactions. Also, the Plan has notes receivable from participants that qualify as party-in-interest transactions. The total of these investments and receivables were approximately $1,286,000 and $982,000, as of December 31, 2012 and 2011, respectively.

NOTE 7 – FORFEITED ACCOUNTS

As of December 31, 2012, there were no forfeited, non-vested accounts. As of December 31, 2011, forfeited, non-vested accounts totaled $541. Approximately, $1,600 of forfeitures was used to pay certain administrative expenses in the plan year ended December 31, 2012.

NOTE 8 – EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan failed its non-discrimination testing for the years ended December 31, 2012 and 2011. Refunds of excess contributions amounting to $2,206 and $5,435, are recorded as liabilities in the accompanying financial statements as a reduction of participant-directed contributions as of December 31, 2012 and 2011, respectively. Subsequent to the date of the accompanying financial statements, the excess contribution of $2,206 was distributed from plan assets.

NOTE 10 – FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted market prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data and which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques noted in ASC 820:

A. Market Approach: Process and other relevant information obtained from market transactions involving identical or comparable assets and liabilities.
B. Cost Approach: Amount that would be required to replace the service capacity of an asset (replacement cost).
C. Income Approach - Techniques to convert future amounts to a single present amount based on market expectation (including present value techniques, option-pricing, and excess earnings models.)

Investment Valuation — The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

NOTE 10 – FAIR VALUE MEASUREMENTS – (CONTINUED) –

- *Fixed Fund* — The Fixed Fund was valued on a unit value basis either on a monthly or quarterly basis by the fund manager or general partner and reviewed by the Plan's fiduciaries for reasonableness. The fair values of these investments were determined by reference to the respective fund's underlying assets. In the event that a fund manager's or general partner's valuation is not deemed reasonable, fair value was determined by the fair valuation policies prescribed by the Plan agreement which consisted of a combination of the market approach and cost approach valuation techniques.
- Mutual Funds — Mutual Funds are investment vehicles stated at fair value based on quoted market prices reported by the Trustee.

The following table classifies the investments measured at fair value on a recurring basis by level within the fair value hierarchy as of December 31, 2012:

	Total	Level 1	Level 2	Level 3
