Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Kelley Williamson Company Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1. Plan Description

The following description of Kelley Williamson Company (the Company) Profit Sharing Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: All employees of the Company who are 21 years of age or older and have completed one year of service with over 1,000 hours for the year, as defined, are eligible to participate in the Plan.

Contributions: Each year, participants may contribute pretax contributions up to the maximum amount allowed by the Internal Revenue Code. If participant contributions cause the Plan to exceed the 401(k) discrimination limits, excess contributions will be refunded to participants. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides for matching and profit sharing contributions by the Company at the discretion of the board of directors. For the year ended December 31, 2012, the Company made a $130,000 matching contribution. Contributions are subject to certain IRS limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) forfeitures of terminated participants' nonvested accounts, if any, and (c) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment options: Upon enrollment in the Plan, a participant directs their account balance into selected funds as made available and determined by the Plan Administrator. Participants are able to change their investment options daily.

Payment of benefits: Upon termination of service for any reason a participant may elect to receive their vested account balance as a lump-sum amount or in installments equal to the value of the participant's vested interest in their account.

Forfeited accounts: Forfeited nonvested accounts totaled approximately $5,000 and $3,700 as of December 31, 2012 and 2011, respectively. These accounts will be allocated to each participant who is eligible to receive a Company contribution for the plan year in the proportion the individual matching contribution for the plan year bears to the total matching contribution for the plan year for all eligible participants. During 2012, none of the forfeitures were reallocated to participant accounts.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Notes may not exceed five years unless the purpose of the note is to acquire a primary residence. Interest rates on outstanding notes at December 31, 2012 ranged from 4.25% up to 9.25%. Principal and interest are paid ratably through payroll deductions. Participants may have up to two notes outstanding at a time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan Management determines the Plan's valuation policies utilizing information provided by the plan custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan has evaluated subsequent events through June 26, 2013, the date on which the financial statements were available to be issued.

Note 2. Significant Accounting Policies (Continued)

Accounting pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2012, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Note 3. Information Certified and Provided by the Transamerica Life Insurance Company, the Plan Custodian

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2012	2011
Pooled separate accounts, at fair value	$ 3,757,948	$ 3,455,240
Insurance company general account, at contract value	708,567	509,637

Transamerica Life Insurance Company also certified to the completeness and accuracy of $473,328 of net appreciation in fair value of investments related to the aforementioned assets for the year ended December 31, 2012.

Note 4. Investments

The following table presents investments representing 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
Investments as reported by the insurance company:		
Insurance company general account:		
Transamerica Life Insurance Company Stable Value Compass Fund, at fair value	$ 700,822	$ 500,310
Transamerica Life Insurance Company Stable Value Compass Fund, at contract value	708,567	509,637

Wells Fargo Advisor Small-Cap Value Fund	-	299,752

During 2012, the Plan's investments (including gains and losses on investments bought and sold, and held during the year) appreciated in value by $473,328 as follows:

Insurance company general account	$ 2,789
Pooled separate accounts	470,539
	$ 473,328

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under the Fair Value Measurements and Disclosures Topic of the FASB ASC are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Insurance company general account: Investments in the insurance company general account are valued based upon a discounted cash flow based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Pooled separate accounts: The Plan's investments in the insurance company's pooled separate accounts are reported at the net asset value (NAV) per share as determined by the insurance company, which represents the fair value of the underlying investments held in the pooled separate accounts. The NAV is used as a practical expedient to estimating fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. To assess the appropriate classifications of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. There were no transfers into or out of Level 3 during 2012.

Note 5. Fair Value Measurements (Continued)

The following tables present the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2012 and 2011:

(a) Large-cap blend – seeks to invest primarily in large-cap companies and secondarily in other areas such as investment-grade debt securities, U.S. government securities, and high-quality money markets.

(b) Target date retirement – is a special category of balanced, or asset-allocation, mutual funds in which the proportional representation on an asset class in a fund's portfolio is automatically adjusted during the course of the fund's time horizon. The automatic portfolio runs from a position of higher risk to one of lower risk as the investor ages and/or nears retirement.

(c) International equity – seeks to provide long-term growth of capital by investing in Europe and the Pacific Basin that the investment adviser believes has the potential for growth.

(d) High yield bond – primarily seeks a high level of current income and secondarily invests in loans and unfunded commitments.

(e) Balanced – is a fund that combines a stock component, a bond component, and sometimes a money market component in a single portfolio.

(f) Mid-cap value – seeks to invest a majority of its assets in U.S. mid-cap companies.

Note 5. Fair Value Measurements (Continued)

(g) Mid-cap blend – invests primarily in U.S. mid-cap companies and secondarily in other areas such as investment-grade debt securities, U.S. government securities, and high-quality money markets.

(h) Mid-cap growth – seeks to produce long-term capital appreciation with current income as secondary consideration. Assets are invested in a diversified portfolio of common stocks that are considered to be strategically positioned for long-term growth.

(i) Large-cap value – invests primarily in a portfolio of equity securities. It normally invests at least 80% of assets in equity securities and at least 80% of assets in dividend paying securities.

(j) Large-cap growth - invests primarily in common stocks and secondarily in other areas such as securities of issuers domiciled outside of the U.S. or money market instruments.

(k) Small-cap blend – replicates the returns and characteristics of a certain small-cap index. Provides exposure to the equity market by holding futures contracts in lieu of cash.

(l) Small-cap value - invests primarily in small-cap companies and secondarily in equity of foreign issuers, futures, and options.

(m) Small-cap growth - replicates the returns and characteristics of a certain small-cap index. This fund invests in smaller U.S. companies.

(n) Global equity – invests in stocks of companies located around the world to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships.

(o) Intermediate-term bond – invests primarily in investment-grade debt securities and can invest in derivative investments, such as options futures contracts, or swap agreements.

Note 5. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Insurance Company General Account
Balance, beginning of year	$ 500,310
Purchases	339,607
Sales	(143,466)
Unrealized gain	4,371
Balance, end of year	$ 700,822
The amount of total gains for the period attributable to the change in unrealized gains relating to assets still held at the reporting date	$ 4,371

Unrealized gains/(losses) from the insurance company general account are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Insurance company general account - Stable value fund	$ 700,822	Discounted Cash Flow	Discount rate Duration Credit risk	1.60% 5 year maturity A rated insurer	1.60%

Note 6. Insurance Contract

The Plan entered into a fully benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 6. Insurance Contract (Continued)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $700,822 and $500,310, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0.50%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: *(a)* amendments to the plan documents (including complete or partial plan termination or merger with another plan), *(b)* changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, *(c)* bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or *(d)* the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	0.50%	0.95%
Based on interest rate credited to participants	0.50%	0.95%

Note 7. Related Party Transactions

Certain plan investments are managed by Transamerica. Transamerica is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid to Transamerica for investment management and administrative expenses were approximately $7,000 for the year ended December 31, 2012.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 9. Income Tax Status

The Plan is operating under the Transamerica Financial Life Insurance Company volume submitter plan document. The volume submitter document has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The volume submitter document opinion letter has been relied upon by this Plan. The Plan has been amended since the volume submitter document received the opinion letter. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Note 10. Reconciliation of Financial Statements to Form 5500
