LUCKY EAGLE CASINO
401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

Note 1: Description of the Plan

The following description of the Lucky Eagle Casino 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering employees of the Lucky Eagle Casino (the "Casino"), who have attained an age of 18 and completed one year of service. The Plan has two features: a salary deferral feature and an employer match feature. The Plan became effective on January 1, 1999 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute a percentage of their annual compensation, up to established Internal Revenue Service limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan allows for the Casino to make employer matching contributions up to 3% of participant compensation. Participants direct the investment of their contributions and associated employer matching contributions into various investment options offered by the Plan. The Plan offers several investment choices through investments held with Standard Insurance Company.

Participant Accounts – Each participant's account is credited with their salary deferral contribution, the Casino's matching contribution, and the allocation of plan earnings. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Vesting – Participants are immediately vested in their voluntary contributions and earnings thereon. Employer matching contributions and actual earnings thereon become vested as follows:

Service Period	Vested Percentage
Less than 2	0%
2 years of service	20%
3 years of service	40%
4 years of service	60%
5 years of service	80%
6 years of service	100%

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at the prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – Upon disability, retirement, death, or termination of employment, a Plan participant or beneficiary may elect to receive either a lump-sum amount equal to the value of the account, equal installments over a period of time, or a different form of commercial annuity. Benefits are recorded when paid.

Forfeited Accounts – At December 31, 2012 and 2011, forfeited non-vested accounts totaled $8,774 and $10,828, respectively. All forfeitures will be used to offset Plan expenses.

Note 2: Summary of Significant Accounting Policies

The following significant accounting policies were used to prepare the financial statements in accordance with generally accepted accounting principles.

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting. Generally accepted accounting principles include statements from the Governmental Accounting Standards Board ("GASB"), as well as other guidance provided by the American Institute of Certified Public Accountants' Guide entitled, *Audits of Employee Benefit Plans.* The Plan has implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This Statement requires deferred outflows resources and deferred inflows resources to be reported in the statements of net position in a separate section following assets and liabilities, respectively, and the statements of net position to report the residual amount as net position, rather than net assets. Adoption of this statement did not have a significant impact on the Plan's financial statements.

Notes Receivable from Participants
Loans to participants are reported at their unpaid principal balances. Interest income is recorded when received and credited to the participants' accounts.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value as certified by the Plan's custodian, Standard Insurance Company. If available, quoted market prices are used to determine investment fair value as required by GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools.*

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits
The Plan recognizes benefit payments in the period the benefits are paid.

Administrative Expenses
All administrative expenses of the Plan may be paid out of the Plan assets.

Date of Management's Review
Subsequent events were evaluated through October 4, 2013, which is the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies (Continued)

Reporting Benefit-Responsive Investment Contracts

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962-325-50-3, *Fully Benefit-Responsive Investment Contracts*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net position available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As of December 31, 2012, the Plan was invested in investment contracts through Standard Insurance Company's Stable Asset Fund. Contract value for this investment is based on the net asset value of the fund as reported by the investment advisor. The statement of net position available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net position available for benefits is prepared on a contract value basis.

Note 3: Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net position available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan uses Level 2 inputs only when Level 1 inputs are not available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market inputs.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contracts is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 3: Fair Value Measurements (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

For the years ended December 31, 2012 and 2011, the appreciation or (depreciation) of the Plan investments (including gains and losses on investments bought and sold, as well as held during the year) of $440,212 and ($74,369), respectively, was due to the mutual funds held by the Plan.

Note 5: Guaranteed Investment Contract with Insurance Company

The Plan invests in a benefit-responsive investment contract with Standard Insurance Company ("Standard"). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value. An adjustment is made in the financial statements to adjust to contract value as reported to the Plan by Standard. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net position available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $1,674,937 and $1,613,541, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on interest rate credited to participants	1.63%	1.80%

Except for noted above and rounding differences, amounts reported in the Form 5500 agree to the financial statements.

Note 9: Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (the "IRC") and, accordingly, the trust's net investment income is exempt from income tax. The Plan has obtained a favorable tax determination letter dated, March 31, 2008, from the Internal Revenue Service, covering the plan offered by the trustees. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan sponsor believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Note 10: Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Standard, the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $49,370 and $48,955 for the years ended December 31, 2012 and 2011, respectively, and are included in net appreciation or depreciation in fair value of investments.

Note 11: Plan Termination

Although it has not expressed any intention to do so, the Casino has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 12: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect participants' account balances and the amounts reported in the statement of net position available for benefits.

Note 13: Delinquent Participant Remittances

During the year ended December 31, 2012, the Casino erroneously failed to remit certain participant salary deferrals aggregating approximately $376,600 to the Plan in a timely manner, as defined by ERISA. These contributions were considered non-exempt party-in-interest transactions that may result in the imposition of a 15 percent excise tax on the amount of the transactions. The Casino has paid all deficiencies and intends to pay any fines imposed including the excise tax resulting from these late remittances. The Casino compensated participants for lost income resulting from delay in remitting the contributions. The Casino believes that these non-exempt transactions did not affect the tax status determination of the Plan.
