We were engaged to audit the accompanying financial statements of the Allied Philadelphia Union Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2012 and 2011 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 64.

(A) Retirement age	(B) Retirement Percent	(C) Number of employees expected to retire per 1000 retirements	(D) (A) x (C)
55	2.03%	20.30	1,116.50
56	2.05%	20.08	1,124.48
57	2.07%	19.86	1,132.02
58	2.14%	20.11	1,166.38
59	2.19%	20.14	1,188.26

64	3.07%	24.93	1,595.52
65	100.0%	787.19	51,167.35
Total		1,000.00	63,870.13
Average			63.87

For employees eligible for unreduced early retirement, the rates beginning at age 60 are different than the rates shown above. However for weighted average purposes, only the rates above are used.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Assumptions for January 1, 2012 Funding Valuation

Discount rate sponsor elections	
• Segment rates or full yield curve	Segment
• Look-back months	0
• Use Stabilized rates – funding	No
• Use Stabilized rates – Section 436 benefit restrictions	No
	Nonstabilized rates
• First 5 years	1.98%
• Next 15 years	5.07%
• Over 20 years	6.19%
Mortality sponsor elections	
	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
Other economic assumptions	
• Salary increases	N/A
• Flat-dollar benefit increases	The 2012 funding target and target normal cost both reflect the $40 multiplier for all active participants.
• Social Security wage base	N/A
• Inflation	N/A
• Expected investment return	7.00% per year for years 2010 through 2012
• Expected expenses	$100,000 added to current year normal cost.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:** Participants over normal retirement age are valued including the late retirement actuarial increase.
- **IRC Section 436 benefit restrictions:** N/A
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Summary of Major Plan Provisions

Plan name	Allied Philadelphia Union Pension Plan
Employer identification number	90-0631477

• Eligibility	5 years of continuous service and one hour on or after 3/1/1989.
• Benefit	Accrued benefit at termination, payable at normal retirement date. Benefits can commence first day of month following normal retirement date or a reduced benefit at 55 with 15 years of continuous service.
Disability	Same as deferred vested benefit.
Death	
• Eligibility	Married and eligible for a pension benefit.
• Benefit	Annuity based on accrued benefit at death. Payable at normal retirement date in the normal form for married participants as if participant died on that date. Reduced benefit is available, subject to the same factors as early retirement.
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	50% Joint & Survivor

Schedule SB, Part V — Summary of Plan Provisions

• Optional forms of retirement benefits	Life Annuity 50% Joint & Survivor 66 2/3% Joint & Survivor 75% Joint & Survivor 100% Joint & Survivor 5-Year Certain & Life 10-Year Certain & Life If total value of benefits is under $1,000, the benefit will be paid as a lump sum.
• Actuarial equivalence basis of optional form	Amount of an alternative form of benefit (other than a lump sum cash out) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 7.50% compound annual interest rate and the UP-1984 mortality table.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2012, the limit is $200,000.
• Funding medium	Master trust administered by Northern Trust.
• Prior Plan Provisions	Certain inactive participants may be covered under provisions of a prior plan.

Plan Provision Changes Since Prior Valuation

Maximum benefit amounts under IRS rules were updated from 2011 to 2012.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial Assumption Changes Since Prior Valuation

Funding

- The expense component of normal cost decreased from $210,000 to $100,000 to reflect our expectations for the current plan year.
- The expected investment return decreased from 8.00% to 7.00% to reflect updated capital market assumptions.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Allied Philadelphia Union Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2012 and 2011 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Allied Philadelphia Union Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering substantially all eligible union employees of Philadelphia Plant of Allied Tube and Conduit Corporation (the "Company") who have met certain requirements as to length of service and age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective on and after June 1, 2012, no new Participants shall be admitted to the Plan.

Atkore International Inc. ("Atkore") became the plan sponsor effective December 22, 2010 when Tyco International Ltd. ("TIL") sold a majority interest in Atkore. As part of this transaction, the assets and liabilities relating to the Allied Harvey Union Pension Plan, the Allied Philadelphia Union Pension Plan, the T.J. Cope Pension Plan and the Unistrut Pension Plan were also sold. Prior to this transaction, Tyco International Management Company, LLC ("TIMCO LLC" or "Tyco") was the Plan Sponsor. On April 1, 2011, $59,741,070 of assets relating to Atkore participants was transferred to a master trust established by Atkore ("Atkore Master Trust"). Prior to this date, the assets were held in a master trust sponsored by Tyco ("Tyco Master Trust").

Pension Benefits: Employees who are members of the United Steel Workers of America Local Union 404-38 formerly 7737-18, are 21 years of age and have completed the later of age 65 or five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to the amount of their monthly benefits (based on their retirement date) multiplied by their credited service to their normal retirement date. The Plan permits early retirement at ages 55 through 64 for participants who have completed 15 years of service. Upon retirement, participants will receive their pension benefits in the form of a life annuity for single participants or a joint and survivor annuity for married participants. Participants may elect to receive a life annuity with a 5 or 10-year certain payment annuity.

Death and Disability Benefits: Participants who terminate employment due to total and permanent disability or spouses of vested participants who die may be entitled to receive benefits under this Plan.

Administrative and Investment Management Expenses: The Plan's trustee fees, insurance premiums, audit fees, and certain administrative and actuarial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Plan Administration: The Atkore International Retirement Plans Committee (the "Committee") acts as the plan administrator and named fiduciary for administration and investments for the Plan. The Committee members are designated in the plan documents for the Plan. The Investment Committee appoints and monitors any investment managers to manage the assets of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's interest in the Atkore Master Trust is reported at fair value. The Plan's allocated share of the Atkore Master Trust's net assets is reflected in the statements of net assets available for benefits. Investment income (loss) from the Tyco Master Trust and the Atkore Master Trust (collectively, the "Master Trusts") reflected in the statement of changes in net assets available for benefits represents the Plan's allocated share of the Master Trusts' interest and dividend income, net appreciation (depreciation), in the fair value of the investments, and expenses.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in the Atkore Master Trust.

Risks and Uncertainties: The Plan invested solely in the Atkore Master Trust which invested in various investments. The underlying investments of the Atkore Master Trust are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain underlying investments of the Atkore Master Trust, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain underlying investments of the Atkore Master Trust will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments: Benefits are recorded when paid.

NOTE 3 – INVESTMENTS – UNAUDITED INFORMATION

The Northern Trust Company, the trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

	2012	2011
Investments at fair value		
Interest in the Atkore Master Trust	$ 14,287,113	$ 11,749,285

(Continued)

NOTE 3 – INVESTMENTS – UNAUDITED INFORMATION (Continued)

During 2012 and 2011, the Plan's net investment gain (loss) in the Atkore Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was $1,329,988 and $(255,333), respectively. During 2011, the Plan's net investment gain in the Tyco Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was $412,623.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trusts.

Plan interest in Atkore Master Trust: The fair value of the Plan's interest in the Atkore Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Atkore Master Trust.

Collective trusts: Fair values of shares of collective trusts are based upon the net asset values of the funds reported by the fund managers as of the Plan's financial statement dates and recent transaction prices (Level 2 inputs). The investment strategies of the collective trusts held in the Master Trusts vary, with some holding money market funds, some holding diversified portfolios of domestic stocks and/or international stocks, and some holding short-term and/or medium-term corporate, government and government agency bonds. The various collective trusts seek to track or exceed various indices including the Barclays Aggregate Bond Index, Barclays U.S. Aggregate Government/Credit Long Index, Russell 1000 U.S. Equity Index, and the broad non-U.S. equity market. Each collective trust provides for daily or bi-monthly redemptions by the Plan with 1 to 2 day advance notice requirements, and has redemption prices that are determined by the fund's net asset value per share or per unit, as applicable. Included in the collective trusts are money market funds which are valued at the net asset value per share as quoted by such companies or funds as of the valuation date.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following investments were held within the Tyco Master Trust through March 31, 2011:

Collective trusts: In addition to those described above (Level 2) there are also money market funds which are valued at the net asset value per share as quoted by such companies or funds as of the valuation date. The money market funds are institutional commingled funds. Although not traded on active markets the net asset value per share is observable. Cash is valued at the amounts deposited in the fund plus accrued interest (Level 1 inputs).

Cash and cash equivalents: Cash and cash equivalents primarily consists of a money market mutual fund. The fair value of the money market mutual fund is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Common stocks: The fair values of common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Registered investment companies: The fair values of registered investment company investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). Some registered investment companies have private open-ended mutual funds which are valued based on their net asset values, as reported by custodians of the registered investment companies and as supported by actual redemption prices (Level 2 inputs).

Corporate bonds: Corporate bonds represent corporate investment grade and high yield credit bonds ("Corporate credits"), as well as Asset Backed Securities ("ABS"). The Corporate credits are generally priced using the most recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs). ABS are generally valued using matrix pricing through recognized financial models such as a single cash flow model, that incorporate data on interest rate movements, pass-thru securities markets, bid evaluations, and other pertinent data (Level 2 inputs).

U.S. Government securities: U.S. Government securities represent direct obligations of the U.S. government or its agencies. These securities are generally priced using recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs). This category also includes mortgage backed securities ("MBS") issued by U.S. government agencies that are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

Partnerships/joint ventures: Partnership/joint venture interests are valued by the custodian based on the underlying assets which includes publicly traded common stock, commercial paper, futures, foreign exchange forwards and money market funds. Redemption value is based on current ownership percentage at the end of the calendar month. Redemption frequency is on a monthly basis, upon 15 days advance notice (Level 2 inputs).

Other investments: Includes swaps, municipal bond, and non-U.S government bonds, and sundry assets which are valued either by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or by third-party pricing sources obtained by the custodian which may utilize models that incorporate pertinent data to determine pricing and non-U.S. sovereign debt securities, where the custodian will utilize available broker/dealer quotes (Level 2 inputs).

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – MASTER TRUST (UNAUDITED)

As of December 31, 2012 and for the period April 1, 2011 through December 31, 2011, the Plan's sole investment was in the Atkore Master Trust, which was established for the investment of assets of the Plan and several other Atkore International, Inc. and affiliated companies' sponsored retirement plans. Each participating retirement plan has an undivided interest in the Atkore Master Trust. The assets of the Atkore Master Trust are held by Northern Trust Company ("Trustee") in one master trust investment account. At December 31, 2012 and 2011, the Plan's interest in the net assets of the Atkore Master Trust was approximately 21% and 20%, respectively. Investment income and losses and administrative expenses relating to the Atkore Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

For the period January 1, 2011 through March 31, 2011, the Plan's sole investment was in the Tyco Master Trust, which was established for the investment of assets of the Plan and several other TIMCO LLC and affiliated companies' sponsored retirement plans. Each participating retirement plan had an undivided interest in the Tyco Master Trust. The assets of the Tyco Master Trust were held by Northern Trust Company ("Trustee") in one master trust investment account. Investment income and losses and administrative expenses relating to the Tyco Master Trust were allocated to the individual plans based upon average monthly balances invested by each plan.

The following table presents the net assets of the Atkore Master Trust as of December 31:

	2012	2011

NOTE 6 – FUNDING POLICY

The Company's funding policy is to make all required contributions to the Plan in accordance with applicable pension laws and regulations. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. Additional voluntary contributions (in excess of required minimum amounts) are periodically considered based on their individual merits. The Company's contributions to the Plan for the years ended December 31, 2012 and 2011 satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Mercer and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2011 were as follows:

Mortality: IRC Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables

Retirement age: Graded from age 55 to 65

Benefit settlement interest rate: 5.56% effective interest rate based on funding segment rates: 1.98% for first 5 years, 5.07% for next 15 years, and 6.19% for years after 20 years

(Continued)

NOTE 8 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of December 31, 2011 was as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	$ 2,989,856
Other participants	12,051,008
	15,040,864
Nonvested benefits	1,228,203
Total actuarial present value of accumulated plan benefits	$ 16,269,067

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2011, is as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2011	$ 14,173,963
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	1,290,989
Benefits accumulated and actuarial gains/losses	229,413
Increase for interest due to the decrease in the discount period	851,266
Benefits paid	(276,564)
Net increase	2,095,104
Actuarial present value of accumulated plan benefits as of December 31, 2011	$ 16,269,067

The changes in actuarial assumptions for the year ended December 31, 2011 are due to the use of the updated funding segment rates and IRS Prescribed Mortality table for 2012.

The actuarial valuation as of December 31, 2012 has not yet been completed.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management and actuarial services. Certain professional fees for the administration and audit of the Plan were paid by the Trust. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan holds a portion of its investments in collective trusts managed by the trustee of the Plan and Master Trust.

(Continued)

NOTE 10 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 12, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. During 2010, plan management applied for a new determination letter. The Internal Revenue Service has not completed its review of the application.

NOTE 11 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 7, 2013, which is the date the financial statements were available to be issued.
