## Notes to Financial Statements

December 31, 2012 and 2011

### Note 1: Description of the Plan

The following description of Susquehanna Health System Retirement Income Plan (Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

#### General

The Plan is a defined contribution plan sponsored by Susquehanna Health System (System) for the benefit of its employees. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). State Street Bank and Trust Company serves as trustee of the Plan and Transamerica Retirement Solutions Corporation (Transamerica) serves as the record keeper.

#### Contributions

The System will make a discretionary contribution of no less than 3% of each participant's compensation for the plan year, provided the participant worked at least 1,000 hours and was employed on the last day of the plan year. For 2012 and 2011, the System made a discretionary contribution of 3% of participant's compensation. For 2011 only, they also made an additional contribution of 1% of participant's compensation for the period from January 1, 2011, to June 30, 2011, provided the participants met the eligibility requirements above. Moreover, if a participant was employed as of June 22, 1994, and attained at least age 30 as of January 1, 1996, an additional contribution is made to the Plan. This additional contribution is calculated using a percentage of the participant's compensation based upon a sliding scale determined by the age of the participant as of January 1, 1996.

In addition, the System makes matching contributions provided that a participant of the Plan enters into a salary reduction agreement in the System's 401(k) Plan or the System's 403(b) Plan. The System will make matching contributions of 100% of the participant's deferrals up to the lesser of \$1,500 or 3% of the participant's compensation, for participants who have worked at least 1,000 hours and were employed on the last day of the plan year. Effective January 1, 2012, the matching contribution limit of \$1,500 was increased to \$2,000. Contributions are subject to certain limitations.

## **Notes to Financial Statements**

**December 31, 2012 and 2011**

### ***Participant Investment Account Options***

Investment account options available include various funds. As of July 2, 2010, each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily. Prior to that date, contributions were directed by the System.

### ***Participant Accounts***

Each participant's account is credited with the System's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### ***Vesting***

Vesting is based on years of credited service. A participant is fully vested after 3 years of credited service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce System contributions.

### ***Payment of Benefits***

Prior to April 1, 2011, upon termination of service, a participant could elect to receive either a lump-sum amount equal to the vested value of his account or installment payments over a period not to exceed the life expectancy of the participant or their designated beneficiary.

Effective April 1, 2011, upon termination of service, vested participants with account balances that do not exceed \$1,000 will receive a lump-sum distribution. Vested participants with account balances exceeding \$1,000 but less than \$5,000 will have their balance directly rolled over to an individual retirement account as designated by the plan administrator, unless the participant elects a direct distribution or other eligible direct rollover. Participants with account balances exceeding \$5,000 may elect to either receive a lump-sum distribution equal to their vested value or to rollover the value of their account to another retirement plan.

### ***Forfeited Accounts***

At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$127,064 and \$366,893, respectively. This account will be used to reduce future employer contributions. Also for 2012 and 2011, employer contributions were reduced by \$137,843 and \$371,041, respectively, from forfeited nonvested accounts.

## **Notes to Financial Statements**

**December 31, 2012 and 2011**

### ***Plan Termination***

Although it has not expressed an intention to do so, the System has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

## **Note 2: Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract and the guaranteed pooled fund, as well as the adjustment of the fully benefit-responsive pooled fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

### ***Valuation of Investments and Income Recognition***

Quoted market prices, if available, are used to value investments. The mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The Plan's interest in the guaranteed pooled fund is valued based on information reported by the insurance company using the audited financial statements of the guaranteed pooled fund at year end.

# **Susquehanna Health System Retirement Income Plan**

## **Notes to Financial Statements**

**December 31, 2012 and 2011**

The fair value of the guaranteed investment contract is calculated by the sum of the deposits made plus interest, less any withdrawals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### ***Plan Tax Status***

The Plan obtained its latest determination letter on August 17, 2010, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

### ***Payment of Benefits***

Benefit payments to participants are recorded upon distribution.

### ***Administrative Expenses***

Administrative expenses may be paid by the System or the Plan, at the System's discretion.

The Plan has a nonallocated expense budget account held in a noninterest-bearing cash account. The purpose of this account is to pay necessary and reasonable Plan related expenses in accordance with the Department of Labor's guidance. The System is responsible for determining what expenses the third-party administrator will reimburse from the account. All funds utilized from this account are treated as administrative expenses on the statement of changes in net assets available for benefits. Additions to the expense budget account were \$127,080 and \$105,659 for 2012 and 2011, respectively. Expense budget account funds utilized amounted to \$114,313 and \$144,211 during 2012 and 2011, respectively. The account's balance at December 31, 2012 and 2011, was \$19,896 and \$7,130.

### ***Subsequent Events***

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

### Note 3: Investments

### Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

### Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

### Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. Level 2 securities include the guaranteed pooled fund and guaranteed investment contracts. The Plan's investment in the guaranteed pooled fund is valued based on information reported by the insurance company using the audited financial statements of the guaranteed pooled fund at year end. The Plan's interest in the guaranteed investment contract is the sum of the deposits made plus interest, less any withdrawals. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

## Notes to Financial Statements

### Note 7: Investment Contract with Insurance Company

#### ***Guaranteed Investment Contract***

In 2010, the Plan entered into an investment contract with Transamerica Financial Life Insurance Company (TFLIC), in which employer contributions to the Plan and forfeitures from participant accounts are credited to an unallocated fund established under a group annuity contract. Funds deposited into this account will earn interest from the date they are deposited until the date they are allocated to the participants' accounts at a rate predetermined by TFLIC.

As described in *Note 2*, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TFLIC, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) contributions do not comply with the requirements of Section 401(a) or 403(a) of the Code; (2) contributions required by the contract have not been received by TFLIC; (3) plan assets no longer with TFLIC; (4) Diversified Investment Advisors, Inc. will no longer be providing record keeping and administrative services to the Plan; (5) TFLIC determines that it can no longer continue to provide benefits under the contract due to changes to the Plan and (6) a violation of any provision of the contract. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

### Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially adversely affect the participants' account balances and the amounts reported in the statements of net assets available for benefits. The financial statements have been prepared using values and information currently available to the Plan.
