The Absinthe Group, Inc. 401(k) Plan

Notes to Financial Statements

Note 1 - Plan Description:

The following description of The Absinthe Group, Inc. 401(k) Plan (the Plan), formerly Mad Will's Food Company 401(k) Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan, a non-standardized 401(k) profit sharing plan, was established January 1, 1999 by The Absinthe Group, Inc. (the Company or the Plan Administrator). The Plan was designed to provide participants with a means to defer a portion of their compensation for retirement funds and to provide benefits in the event of disability, death, or financial hardship.

Most recently, the Plan was amended and restated effective July 1, 2012. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Eligibility

All employees who have completed a year of service (1,000 hours) with a minimum age of 21, except those covered by a collective bargaining agreement and nonresident aliens, are eligible to enroll in the Plan on the first day of the 1st and 7th month of the Plan year after they have met the eligibility service requirement and minimum age requirement.

c. Contributions

Employees may make contributions to the Plan on a pre-tax basis not to exceed the amount allowable under current income tax regulations. Employees who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified plans.

Employer matching and nonelective profit sharing contributions are discretionary. For the year ended December 31, 2012, employer matching contributions are calculated at 100% of each participant’s contribution up to 3% of compensation. There were no nonelective profit sharing contributions made in 2012.

Employees are eligible to share in the employer nonelective profit sharing contribution if employed on the last day of the Plan year and completed at least 1,000 hours of service during the Plan year. Each eligible participant will be allocated a percentage of the employer profit sharing contribution based on their compensation as compared to the total compensation of all participants eligible to share in the employer profit sharing contribution.

d. Payment of Benefits

Upon termination of employment due to retirement, disability, or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account. The Plan allows for automatic distributions of the terminated participants' entire vested account balances not exceeding $1,000.

In addition, the Plan allows for in-service distributions. A participant is eligible for an in-service distribution once they have reached the age of 59 ½ or qualify for a hardship withdrawal as outlined in the Plan document.

e. Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, the participant's qualified rollover contributions, the Company's discretionary contributions, if any, Plan earnings or losses thereon, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant balance is entitled is the benefit that can be provided from the participant's vested account.

f. Participant Investment Options

Upon enrollment in the Plan, a participant must direct employee and the Company's contributions in any of the selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year (subject to specific limitations placed by certain investment funds) via the T. Rowe Price Retirement Plan Services' telephone system or Internet website.

g. Vesting

Participants are vested immediately in their employee contributions, including rollovers of funds from other qualified retirement plans and earnings thereon. The portion of the participants' accounts attributable to the Company's contributions has a six-year graded vesting schedule.

h. Forfeitures

Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay plan administrative expenses, with any remaining amounts used to reduce future Company contributions. As of December 31, 2012 and 2011, forfeited non-vested accounts totaled $2,563 and $995, respectively.

i. Notes Receivable from Participants

The Plan allows participants to borrow not less than $1,000 and up to a maximum of the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the participant's vested balance. Participants may have no more than two notes outstanding at any given time. Under the terms of the Plan, all loans shall bear a commercially reasonable rate of interest. As of December 31, 2012, the rates of interest on outstanding notes ranged from 4.25% to 5.42%.

Note 2 - Summary of Significant Accounting Policies:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

b. Investment Valuation and Income Recognition

Investments of the Plan are managed by State Street Bank and Trust Company (the Trustee) and invested based solely upon instructions received from participants. The Plan's investments are valued at fair value as of the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

The market volatility of equity-based investments could substantially impact the value of such investments at any given time.

It is likely that the value of the Plan’s investments, both in total and in individual participant accounts, has fluctuated since December 31, 2012.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

d. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

e. Benefits to Participants

Benefits to participants are recorded when paid.

f. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption of this guidance did not have a material effect on the Plan's financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements.* The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to the fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

g. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued, and there were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 3 - Information Certified or Provided by State Street Bank and Trust Company:

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company (the Trustee) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets as of December 31:

	2012	2011
Investments, at fair value:		
Registered investment companies – mutual funds	$ 1,779,211	$ 1,468,050
Notes receivable from participants	$ 73,886	$ 77,879

State Street Bank and Trust Company also certified to the completeness and accuracy of $193,766 of net appreciation in fair value of investments, $40,324 of interest and dividends and $2,850 of interest income on notes receivable from participants, related to the aforementioned Plan assets for the year ended December 31, 2012.

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies – mutual funds: Valued based on the net asset value (NAV) of shares of stock held by the Plan at year end.

These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts.

The calculation of the NAV for funds composed of other funds (e.g., retirement target date funds) is essentially the same as the calculation of the NAV for any other fund: the total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

Note 6 - Administrative Expenses:

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 7 - Plan Termination:

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax Status:

The Plan adopted a non-standardized 401(k) profit sharing plan sponsored by State Street Bank and Trust Company that has received a favorable opinion letter dated June 7, 2004 from the Internal Revenue Service stating that the form of the Plan qualifies under applicable provisions of the Internal Revenue Code. The Plan has been subsequently amended/ restated, however, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and related state statutes, and the trust, which forms a part of the Plan, is tax exempt. Therefore, no provision for income taxes has been included in these financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that is more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the nature of risks associated with investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 10 - Related Party Transactions:

Certain Plan investments are managed by an affiliate of State Street Bank and Trust Company. Any purchases and sales of these funds are open market transactions at fair market value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

As disclosed in Note 6, certain employees of the Company are performing services for the Plan and are not compensated by the Plan.
