INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Robbins Geller Rudman & Dowd LLP
401(k) Profit Sharing Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Robbins Geller Rudman & Dowd LLP 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Robbins Geller Rudman & Dowd LLP 401(k) Profit Sharing Plan as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule on page 16 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of the Robbins Geller Rudman & Dowd LLP 401(k) Profit Sharing Plan (formerly the Coughlin Stoia Geller Rudman and Robbins LLP 401(k) Profit Sharing Plan) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan established on May 1, 2004, by Robbins Geller Rudman and Dowd LLP (the "Partnership"), which allows participants to defer part of their compensation, and requires certain matching contributions to be made to the Plan by the Partnership. These benefits are available to all employees who meet specific eligibility requirements as to age and years of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation, as defined in the Plan, subject to maximums established by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Partnership makes annual matching contributions to the Plan equal to 25% of employee deferrals up to a maximum match of 1% of employee compensation, plus an additional discretionary amount determined annually. An employee becomes eligible for matching contributions and discretionary contributions on January 1 or July 1, whichever occurs first, immediately following one year of service. The participant contributions for each plan year are limited to 100% (in 2012) of the participant's annual compensation, or the maximum amount allowable under law.

Note 1 - Plan Description (Continued)

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Partnership's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is provided from the participant's vested account. Participants may elect to have a self-directed brokerage account. Participants so electing are charged an annual administrative fee to offset the incremental cost of self-directed brokerage accounts.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Partnership's contribution portion of their account is based on years of continuous service according to the following schedule:

Years of Service	Percent Vested
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.47% at December 31, 2012, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Note 1 - Plan Description (Continued)

Payment of Benefits

An active participant may receive withdrawal benefits subject to various limitations.

An active participant, who is a 5% owner of the Partnership, must begin receiving benefits by April 1st of the year following the year in which he/she attains age 70 1/2.

An active participant, who is not a 5% owner, must begin receiving benefits by the later of April 1st of the year in which the participant reaches age 70 1/2 or the calendar year in which the participant actually retires.

A terminated participant with a vested balance of $5,000 or less is paid a single sum.

A terminated participant with a vested balance exceeding $5,000 has the option of a single sum, a monthly income with various time limitations, including a joint and survivor annuity and flexible income payments.

Unless the participant elects otherwise, benefits under the Plan shall commence no later than the sixtieth day after the latest of the close of the plan year in which:

(a) The participant attained the earlier of age sixty-five (65) or normal retirement age; or

(b) The participant terminates employment with the employer.

Forfeited Accounts

Forfeitures are used to reduce future employer contributions or plan expenses. In 2012, employer contributions were reduced by $72,494 from forfeited nonvested accounts. In 2011, the participants' allocated shares of administrative expenses were reduced by $30,264, from forfeited nonvested accounts. As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $-0- and $-0-, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's (losses) gains on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 4, 2013, the date that the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits:

	December 31,	
	2012	2011
Mutual funds:		
Dreyfus Mid Cap Index Fund	$ 7,039,432	$ *
Spartan U.S. Equity Index Investor Fund	4,397,782	3,457,497
Short-term investment funds:		
Fidelity Retirement Money Market Fund	*	3,171,627

* Represents less than 5% of Plan's net assets available for benefits.

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $6,314,805 and $(2,783,961), as follows:

	2012	2011
Mutual funds	$ 4,725,260	$ (2,822,791)
Self directed accounts	1,589,545	38,830
	$ 6,314,805	$ (2,783,961)

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

Note 4 - Fair Value Measurements (Continued)

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 4 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds:

Mutual funds are valued at the closing price every business day. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts:

Self-directed brokerage accounts include investments in corporate stocks and bonds, mutual funds, U.S. government securities and short-term investment funds.

Corporate stocks and corporate bonds:

Corporate stocks and corporate bonds are valued using quoted market prices in active markets.

U.S. government agencies:

U.S. government securities are carried at fair value as determined by quoted market prices in active markets. Government agencies include agency-issued debt which is valued by benchmarking model-derived prices to quoted market prices and trade data for incidental or comparable securities.

Short-term investment funds:

Short-term investment funds are stated at cost which approximates fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (Continued)

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2012:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

Note 4 - Fair Value Measurements (Continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Party-in-interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is the custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions. The net assets of the Plan will be distributed to each participant according to the value of his or her account.

Note 7 - Risks and Uncertainties

Based upon participant investment elections and directives, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated June 11, 2012, that the Plan is designed in accordance with Section 401(a) of the Internal Revenue Code. The Partnership believes that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Reconciliation of Financial Statements to Form 5500 Annual Return/Report of Employee Benefit Plan
