Professional Packaging Systems, Inc. 401(k) Profit Sharing Plan
Notes To Financial Statements
For The Years Ended December 31, 2012 and 2011

Note 1: Description of Plan

The following description of the Professional Packaging Systems, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. For more complete description of the Plan's provisions, refer to the Plan agreement.

General

The Plan is a defined contribution plan established by Professional Packaging Systems, LLC (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees of the Company who have completed six months of service and are age 21 or older are eligible to participate. Enrollment into the Plan occurs on January 1st and July 1st. The Plan is subject to the provisions of Employment Retirement Income Security Act of 1974, as amended (ERISA).

All investments in the Plan are participant-directed. The Plan allows participants to invest in a selection of mutual funds.

Contributions

Each year, participants may elect to defer a portion of their pretax annual compensation, as defined in the Plan, up to the maximum amount allowed by the Internal Revenue Code. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the years ended December 31, 2012 and 2011, the Plan offered twenty-six and twenty-five investment options for participants, respectively. The Company may contribute to the Plan, on behalf of each participant, a discretionary matching contribution which is divided among Plan participants in proportion to their compensation. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the vested balance within the participant's account.

Vesting

Participants are vested immediately in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Note 1: Description of Plan (Continued)

Forfeited accounts

The majority of the forfeited account will be used to pay all reasonable plan expense first and then reduce future employer contributions. Once a forfeiture occurs, the timing of the forfeiture allocation occurs in the Plan year following the Plan year in which the designated forfeiture occurs. During the years ended December 31, 2012 and 2011, the forfeiture credits available for future use were approximately $340 and $2,000, respectively.

Participant loans

Participants may borrow up to 50% of their vested account balance subject to minimum and maximum amounts of $1,000 and $50,000, respectively. Loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.00 percent. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits

Participants are eligible for distribution of their entire account balance upon death, disability, or termination of employment. Participants may elect to receive their distribution as either a lump-sum payment or as installments in certain circumstances, as defined in the Plan. Participants may also elect to transfer their account balance into an individual retirement account or another qualified plan.

Participants who have attained the age of 59 1/2 have the right to receive a partial or full distribution of their vested account balance. Withdrawals in cases of hardship or other withdrawals of after-tax contributions are also permitted, as defined in the Plan.

Administrative expenses

The Plan pays administrative expenses, which include recordkeeping and custodian fees as well as expenses in administering the Plan. Participants pay loan origination and servicing fees.

Plan termination

The Plan is voluntary on the part of the Company. The Company may terminate the Plan in whole or in part subject to the provisions of ERISA. Currently, the Company has no intention to terminate the Plan.

Note 2: Summary of Significant Accounting Policies

Basis of presentation

The financial statements of the Plan are presented for the years ended December 31, 2012 and 2011, and were prepared using the accrual method of accounting.

Note 2: Summary of Significant Accounting Policies (Continued)

Used of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of investments
The Plan's investments are stated at fair value. Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date.

Payments of benefits
Benefit distributions are recorded when paid.

Risks and uncertainties
The Plan provides investment options in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Fair value measurements
Authoritative accounting guidance establishes a three-level fair value hierarchy that categorizes asset and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. These levels include:

Level 1 - Inputs are quoted prices in active markets for the identical assets or liabilities;

Level 2 - Inputs other than quoted prices included in Level 1 that are directly or indirectly observable through market-corroborate inputs; and

Level 3 - Inputs are unobservable, or observable but cannot by market-corroborated, requiring the Plan Sponsor to make assumptions about pricing by market participants.

A financial instrument's level within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Note 2: Summary of Significant Accounting Policies (Continued)

Fair value measurements (continued)
Following is a description of the valuation methodology used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy.

> Mutual Funds - Shares of mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund minus its liabilities, divided by the number of shares outstanding. The NAV for these investments is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3: Investments

Investments representing 5% or more of the fair value of the Plan's net assets were as follows:

	2012	2011

Note 4: Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements is complete and accurate:

	2012
Investments, at fair value:	
Mutual funds	**$ 2,720,653**
Forfeitures	**341**
Participant loans	**63,982**
Total	**$ 2,784,976**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 5: Parties-in-Interest

Certain investments of the Plan are managed by Great-West Retirement Services, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transaction rules.

Note 6: Income Tax Status

The Plan has adopted a prototype non-standardized profit sharing plan which received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype was designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself. However, the Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan continues to qualify under Section 401(a), and the related trust continues to be tax-exempt as of December 31, 2012.

Note 6: Income Tax Status (Continued)

Accounting principles generally accepted in the United States require the Company to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merits, to be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2009.
