REPORT OF INDEPENDENT AUDITORS

To the Investment Committee and Benefits Committee
Morrison & Foerster LLP Retirement Plan Part I

Report on Financial Statements

We have audited the accompanying financial statements of Morrison & Foerster LLP Retirement Plan Part I (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years ended December 31, 2012 and 2011, in accordance with accounting principles generally accepted in the United States of America.

Praxity MEMBER GLOBAL ALLIANCE OF INDEPENDENT FIRMS

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule H, line 4(i) - schedule of assets (held at end of year) as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Morrison & Foerster Retirement Plan Part I (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a defined contribution and profit sharing plan covering substantially all eligible employees of Morrison & Foerster LLP, and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Morrison & Foerster LLP (the Firm) is the Plan's sponsor and serves as plan administrator.

Effective January 1, 2010, the Firm resolved to divide the Morrison & Foerster LLP Retirement Plan into two separate plans. As a result of the division the Morrison & Foerster LLP Retirement Plan was contemporaneously renamed the Morrison & Foerster LLP Retirement Plan Part I (the Plan) and the Morrison & Foerster LLP Retirement Plan Part II was established. The Plan was also amended and restated effective January 1, 2010 and assets of approximately $84,296,000 were transferred in-kind to the Morrison & Foerster LLP Retirement Plan Part II.

The Morrison & Foerster Retirement Plan Master Trust (the Master Trust) was established effective January 1, 2010, to hold the investment of assets of both the Plan and Morrison & Foerster LLP Retirement Plan Part II. In context of retirement plans, a master trust is a trust which invests together some or all of the assets of the "participating plans." The assets are commingled for investment purposes only at the direction of the participants, and are commingled to pay Plan benefits. The Firm continues to sponsor and maintain the separate qualified retirement plans.

During 2012, approximately $16,000 of assets held outside of the Master Trust was transferred from the Morrison & Foerster LLP Retirement Plan II into the Plan assets held by the Master Trust.

The Plan covers salary deferral contributions for all eligible employees, and the related profit sharing account balances for all eligible employees and non-partner associates whose Social Security numbers end in an odd number. The Morrison & Foerster Retirement Plan Part II covers the profit sharing account balances for all eligible employees and non-partner associates whose Social Security numbers end in an even number. Partners of the Firm are covered by both of the Plans.

Administration – The Firm has appointed the Investment Committee and Benefits Committee (the Committees) to manage the operation and administration of the Plan and Master Trust. The Committees designated Charles Schwab Trust Company (Charles Schwab or Trustee) to serve as the primary trustee, and several partners to serve individually as the trustee of self-directed brokerage accounts held by other custodians. Fees charged by the Trustee were paid by the Plan and the Firm paid all other costs of administering the Plan.

Eligibility – Employees of the Firm (staff employees, non-partner attorneys, and partners) are eligible to participate in the Plan after completing one hour of service. Employees of the Firm with odd Social Security numbers must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer paid profit sharing contributions. Non-Partner attorneys are not eligible to receive employer paid profit sharing contributions.

Contributions – Each year, participants may contribute 1-100% of either eligible pretax annual compensation or after-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. An employee who meets Plan eligibility requirements will be automatically enrolled in the Plan at a rate of 3% of eligible compensation, with an automatic deferral increase of 1% each year, up to a maximum of 7%, unless the employee opts out on or after the 30th day following the employee date of hire. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trust funds, unit investment trusts, and self-directed brokerage trust accounts as investment options for participants.

Effective October 1, 2011, participants may elect to contribute Roth contributions.

The Firm may elect to make discretionary matching contributions to the Plan. No such contributions have been made for the years ended December 31, 2012 and 2011. The Firm makes profit sharing contributions and partner contributions to the Plan annually equal to the sum of 5% of each eligible staff's compensation up to the amount of the taxable wage base in effect at the beginning of the year and 5% of compensation in excess of such base, up to the maximum compensation limit for the year. Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Firm's contribution, if any and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Firm's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Notes receivable from participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years unless the loan was for the purpose of a primary residence. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Trustee. As of December 31, 2012, the rates of interest on outstanding loans ranged from 5.25% to 8.00% with various maturities through January 2018.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan allows for the automatic distribution of participant vested account balances that less than $5,000. Accounts valued at greater than $1,000 but less than $5,000 may be paid as an eligible rollover distribution to an individual retirement arrangement designated by the Plan unless the participant elects to receive a lump sum distribution. Accounts valued at less than $1,000 only have the benefit payment option of a lump sum distribution.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to correct misallocations due to administrative error, with any remaining amount used to reduce future Firm contributions. As of December 31, 2012 and 2011, forfeited non-vested accounts totaled approximately $137,000 and $100,000, respectively. For the year ended December 31, 2012, Firm profit sharing contributions were funded in 2013 and were reduced by approximately $275,000 from forfeited non-vested accounts. For the year ended December 31, 2011, Firm profit sharing contributions were funded in 2012 and were reduced by approximately $116,000 from forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncements – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy.

Investment valuation – Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date (see Note 5).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the plan document.

Payment of benefits – Benefits are recorded when paid.

Expenses – All expenses of maintaining the Plan are paid by the Firm. Certain transaction and trustee fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through October 8, 2013, which is the date the financial statements were issued.

Reclassification – Certain amounts from the prior year table of investment assets in the Master Trust at fair value in Note 5 have been reclassified, in order to conform to the current year presentation.

NOTE 3 – INTEREST IN MASTER TRUST

Effective January 1, 2010, the Master Trust was established for the investment of assets of the Plan and the Morrison & Foerster LLP Retirement Plan Part II. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Charles Schwab. At December 31, 2012 and 2011, the Plan's interest in the net assets of the Master Trust was approximately 82% and 83%, respectively. Net earnings or losses of the individual investment funds were allocated among the participants in the proportion that each participant's account balance bears to the aggregate balances of all participants' accounts invested in each investment fund.

The following table presents the net assets of the Master Trust as of December 31, 2012 and 2011:

	2012	2011
Assets		
Interest bearing cash	$ 19,670,013	$ 20,320,088

Total investments in Master Trust at fair value	$ 567,980,673	$ 490,840,903

The net investment gain (loss) on the investments of the Master Trust for the years ended December 31, 2012 and 2011, were as follows:

	2012	2011
Net realized and unrealized appreciation (depreciation)		
Registered investment companies	$ 39,679,010	$ (17,788,506)
Common/collective trusts	11,156,372	(435,890)

	10,322,451	9,642,869
Net investment gain (loss) in the Master Trust at fair value	$ 65,117,840	$ (10,708,574)

NOTE 4 – INVESTMENTS

Investments representing 5% or more of the Master Trust net assets available for benefits consisted of the following as of December 31:

	2012	2011
Morley Stable Value Fund	$ 76,389,545	$ 75,773,449
Schwab Institutional Fixed Income Fund	54,702,834	42,907,082
Schwab S&P 500 Index Fund	52,998,626	44,498,363
Schwab Institutional Large Cap Fund	34,648,565	29,778,785
Dodge & Cox International Stock Fund	Less than 5%	21,844,856

The Plan also includes self-directed brokerage accounts, which were individually established and maintained by other custodians to hold assets that Charles Schwab would not hold in the trust for certain participants. Commingled Plan assets that were not held by Charles Schwab at December 31, 2012 and 2011, totaled approximately $22 million and are owned 50/50 by the Plan and the Morrison & Foerster LLP Retirement Plan Part II. Regarding these Plan assets held outside of the Master Trust, there were no single investments that individually exceeded 5% of the Plan's net assets as of December 31, 2012.

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds and U.S. government securities – Valued at the closing price reported on the major market on which the individual securities are traded or have reported broker trades which may be considered indicative of an active market. Where quoted prices are available in an active market, the investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available for the specific security, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, discounted cash flows and other observable inputs. Such securities are classified within Level 2 of the valuation hierarchy.

Registered investment companies (mutual funds) – Valued at the net asset value (NAV) of shares held by the Plan at year end using prices quoted by the relevant pricing agent. It is not probable that these funds will be sold at amounts that differ materially from the NAV of shares held.

Certificates of deposit – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Preferred stocks – Valued at the closing price reported on the major market on which the individual securities are traded. Common and preferred stock are generally classified within Level 1 of the valuation hierarchy.

Unit investment trusts – Valued at the closing price reported on the active market on which the individual securities are traded. Unit investment trusts are generally classified within Level 1 of the valuation hierarchy.

Common/collective trust – Units held in common/collective trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a common/collective investment is calculated based on a compilation of primarily observable market information. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the trust. Accordingly, the unit value for a common/collective investment is classified within Level 2 of the valuation hierarchy.

The Master Trust has investments in the Schwab Institutional Fixed Income Fund which is a common/collective investment trust fund that invests mainly in high quality, investment grade bonds. Additionally, the fund may contain allocations to higher yielding instruments such as global and emerging market debt and high yield corporate bonds. The fund utilizes multiple sub-advisors whose recommendations are based on complementary investment strategies, providing clients with a more diversified portfolio, although there is no guarantee against loss of principal. The fund has no liquidity issues or redemption restrictions.

The Master Trust has investments in the Schwab Institutional Large Cap Fund which is a common/collective investment trust fund that invests mainly in a diversified portfolio of common stocks, which appear to be temporarily undervalued by the stock market, but have a favorable outlook for long-term growth. The fund seeks to provide long-term growth of principal and income, although there is no guarantee against loss of principal. The fund has no liquidity issues or redemption restrictions.

Stable value fund – The Morley Stable Value Fund is a collective trust that seeks to provide a stable rate of return with preservation of principal and liquidity. The fund is highly diversified and invests primarily in high-quality financial instruments. The fund utilized multiple fixed income sub-advised strategies and wrap contract. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive). The fund has no liquidity issues or redemption restrictions.

The valuation methods used by the Master Trust may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Firm by a letter dated January 31, 2013, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management evaluated the Plan's tax position and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax position that requires adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of registered investment company funds managed by Charles Schwab Trust Company, the trustee of the Plan. Transactions with this entity qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Firm has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 10 – RECONCILIATION TO FORM 5500

The following are reconciliations of net assets available for benefits between the financial statements and the Form 5500 as of December 31:
