Independent Auditors' Report

The Plan Administrator
Veolia Transportation on Demand 401(k) Plan
Scottsdale, Arizona

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Veolia Transportation on Demand 401(k) Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wilmington Trust and John Hancock Life Insurance Company (U.S.A.), the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Wilmington Trust held the Plan's investment assets and executed investment transactions from December 1, 2012 to December 31, 2012, and that John Hancock Life Insurance Company (U.S.A.) held the Plan's investment assets and executed investment transactions for the period January 1, 2011, to November 30, 2012. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2012, and 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Veolia Transportation on Demand 401(k) Plan (Plan) (formerly SuperShuttle International, Inc. 401(k) Plan) provides only general information. Participants and others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established on August 1, 1997, is a defined contribution plan covering all full-time employees of Veolia Transportation on Demand (referred to hereafter as the Company or Plan Sponsor) who have six months of service and are 21 years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2012, the Plan Sponsor acquired three subsidiaries and transferred assets into the Plan. Yellow Cab Company of Colorado Springs 401(k) Plan and Unified Dispatch, LLC 401(k) Plan merged with this Plan effective January 1, 2012, where $133,113 and $167,284 was wire transferred into the Plan on April 3, 2012, and August 16, 2013, respectively. YC Holdings, Inc. 401(k) Plan merged with this Plan effective December 3, 2012, at which time $1,261,463 was wire transferred into the Plan.

Contributions

Plan contributions consist of two components: (1) employee deferral contributions based on a participant's monthly pretax compensation not to exceed Internal Revenue Service annual limitations, (2) rollover contributions representing qualifying lump-sum distributions received by a participant from a Plan sponsored by another employer or carrier. The Plan does not allow for employer contributions.

Eligibility and Vesting

The Plan is available to all eligible employees of the Company. Employees are eligible for participation in the Plan at 21 years of age and on the first day of the Plan year quarter after completion of six months of service. Effective December 1, 2012, participants are eligible on the first day of the month after completion of ninety days of service. Participants are immediately 100 percent vested in their voluntary contributions and rollover contributions plus actual earnings thereon.

Participant Benefits and Distributions

On termination of service due to death, disability, retirement or financial hardship, a participant may receive the value of the participant's vested interest in his or her account as a lump-sum distribution.

Participant Accounts

For each participant, various accounts are maintained to record participant contributions, rollover deposits transferred to the Plan, and allocation of plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50 percent of their vested account balance up to a maximum of $50,000. The minimum note amount is $1,000, and the maximum number of notes per participant is one. The notes are secured by the vested balance in the participant's account and bear a reasonable interest rate. Principal and interest (ranging from 4.25% to 8.00%) are paid ratably through monthly payroll deductions.

Participants' Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in one percent increments in any of several investment options.

Administrative Expenses

The expenses necessary to administer the Plan are paid from Plan assets. Administrative expenses are comprised of broker's fees and other general administrative fees, which are assessed by both the Plan's Trustees and Third Party Administrator.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2013, the date the financial statements were available to be issued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Also see Note 5.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

NOTE 3 – INVESTMENTS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

a. Participant-directed investments as shown in the accompanying statements of net assets available for benefits of $7,194,133 and $5,001,080 as of December 31, 2012 and 2011, respectively.

b. Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of $225,957 and $265,304 as of December 31, 2012 and 2011, respectively.

c. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $602,876 and $(120,206) for the years ended December 31, 2012 and 2011, respectively.

d. Interest income from notes receivable from participants as shown in the accompanying statements of changes in net assets available for benefits of $12,492 and $15,078 for the years ended December 31, 2012 and 2011, respectively.

NOTE 3 – INVESTMENTS (CONTINUED)

The fair value of individual investments that represented 5 percent or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2012	2011
John Hancock Life Insurance Company:		
Retirement Choices at 2050	$ *	$ 380,804
Retirement Choices at 2045	*	376,309

Riversource Stable Capital F	1,042,369	*

* Investment does not meet the 5 percent of the Plan's net assets available for benefits threshold at year-end.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the Plan based on the New York Stock Exchange at the close of each day.

Stable value fund: Valued based on the contractual terms of the underlying assets; provides a daily mil-rate for income accretion.

Pooled separate accounts: The value of an accumulation unit is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by the custodian and the daily equivalent of any fee charged by the custodian pursuant to the contract.

Amounts for investments above, valued at the net asset value (NAV), present the fair market value at the date of valuation. These investments may be redeemed for less than the value stated below.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature and risks of the categories of assets by major security type.

International funds: These primarily invest in securities of issuers outside the United States that the advisor believes has potential for growth. Most funds divide their assets among a dozen or more developed markets, and the remainder in emerging markets.

Large cap funds: Includes investments that seek to provide long-term growth of capital and income through primarily investing in common stocks. Blend funds contain investments representative of the overall stock market in size, growth rates, and price. Value funds focus on investing in big companies that are less expensive or growing more slowly than other stocks. Growth funds invest in big companies that are projected to grow faster than other large cap stocks.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Mid cap funds: These investments seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. Value funds focus on investing in stocks that are less expensive or growing more slowly than other stocks. Growth funds invest in stocks that are projected to grow faster than other mid cap stocks.

Small cap funds: This category includes investments in stocks of small companies and seeks long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index.

Sector funds: A mutual fund that invests entirely or predominately in a single sector. Sector funds tend to be riskier and more volatile than the broad market because they are less diversified, although the risk level depends on the specific sector.

Intermediate government funds: The fund normally invests at least 80% of its assets in a diversified portfiolio of securities of varying maturities issued by the Government National Mortgage Association ("GNMA"), which may be represented by forwards or derivatives such as options, futures contracts or swap agreements.

Balanced funds: Provides both capital appreciation and income by investing among a diversified mix of debt and equity securities. Moderate allocation balanced funds have a higher concentration in stocks, and conservative allocation balanced funds have higher concentration in bonds and cash.

Bond funds: Generates a high level of current income consistent with prudent investment risk by normally investing at least 80% of its assets in diversified bonds.

Cash/stable value funds: Include investments that deliver safety and stability by preserving principal and accumulated earnings. They are similar to money market funds but offer considerably higher returns. Their returns make them comparable to intermediate bonds minus the volatility.

Fixed income funds: This is an interest earning investment option, secured by the custodian's general account assets. The fund is guaranteed to earn interest at the fund's stated rate. Participants may transfer any amount from the fixed account, but may only transfer funds into the fixed account every 90 days.

Target date funds: Provide diversified exposure to stocks, bonds, and cash for those investors who have a specific retirement date in mind. These portfolios aim to provide investors with an optional level of return and risk, based solely on the target date. These portfolios get more conservative as the goal date approaches by investing more in bonds and cash.

NOTE 4– FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE 4– FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31.

	Fixed Income Funds	
	2012	**2011**
Balance, beginning of year	$ -	$ 156,910
Contributions	-	10,025
Unrealized gains	-	776
Distributions	-	(167,046)
Administrative charges	-	(665)
Balance, end of year	$ -	$ -

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2011, the Plan entered into a fully benefit-responsive investment contract with John Hancock Collective Investment Trust. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in the summary of significant accounting policies, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields	**2011**
Based on interest rate credited to participants	1.97%

Management has determined that the difference between contract value and fair value was immaterial as of December 31, 2011.

The stable value fund in which the Plan holds assets as of December 31, 2012, is not considered to be a guaranteed investment contract.

NOTE 6 – RELATED PARTY TRANSACTIONS

Wilmington Trust became the trustee effective December 1, 2012. John Hancock Life Insurance Company (U.S.A.) acted as the Plan's trustee and Boyce & Associates, Inc. acted as recordkeeper for the Plan for the period January 1, 2011 through November 30, 2012.

Some of the Plan's investments were mutual funds or money market funds managed by John Hancock Life Insurance Company (U.S.A.) who was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions.

NOTE 7 – NONEXEMPT PROHIBITED TRANSACTIONS

For the year ended December 31, 2011, it was determined that there was a delay by the Plan Sponsor in submitting one contribution to the Trustee in the amount of $2,034. The Plan Sponsor made the contribution approximately thirty days after the pay date.

NOTE 8 – PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE 9 – EXCESS CONTRIBUTIONS

To satisfy the relevant nondiscrimination provisions for the Plan for the years ended December 31, 2012 and 2011, the Plan distributed $28,707 and $8,071, respectively, of excess deferral contributions to certain active participants. These excess deferral contributions were made in 2013 and 2012, respectively.

NOTE 10 – TAX STATUS

An Internal Revenue Service determination letter, dated December 31, 2006, states that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and operating in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 11 – RISK AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 12 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
