Independent Auditor's Report

To the Trustee
Hollywood Woodwork, Inc.
Employee Stock Ownership Plan
Hollywood, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of Hollywood Woodwork Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter – Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Description of Plan

The following description of the Hollywood Woodwork, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: Hollywood Woodwork, Inc. (the "Company") established the Plan effective January 1, 1999. The Plan operates, in relevant part, as a non-leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a Committee comprised of one or more persons appointed by the Company's Board of Directors. As of January 1, 2012, the Plan was amended and restated to comply with certain changes in laws and regulations.

The Plan purchased Company common shares using the proceeds of a borrowing from the Company, and holds the stock in a trust established under the Plan. The loan was repaid during 2005 and the Plan is no longer leveraged.

If the Plan were to borrow money to purchase additional stock from the Company at a future date, such borrowings would generally be collateralized by the unallocated shares of stock. As the Plan makes each payment of principal, an appropriate percentage of stock would be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan would present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company and its participating subsidiary are generally eligible to participate in the Plan after completing one year of service providing they worked at least 1,000 hours during the consecutive 12-month period. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Payments of benefits: Distributions from the Plan are made once a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), terminates employment with the Company and its participating subsidiary or otherwise has been a participant of the Plan for at least ten years and has attained the age of 55. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Distribution because of death, disability or retirement are required to begin no later than one year after the end of the plan year in which the triggering event occurred. Payment of a participant's account balance that is less $25,000 is paid in a lump sum to the participant or, in the event of the participant's death, to the participant's beneficiary. Account balances over $25,000 are paid over five years with a minimum payment of $10,000. Distribution for other terminations (such as resignation or dismissal) must begin no later than the end of the sixth plan year following the year in which termination occurred and may be made in installments over five years. Distributions for other terminations with account balances that have never exceeded $5,000 will begin no later than the end of the sixth plan year following the year in which termination occurred and will be made in a lump sum.

Note 1. Description of Plan (Continued)

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries. There were no unallocated shares as of December 31, 2012 or 2011.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of employer contributions not used for debt retirement and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total compensation of all eligible participants for the Plan year.

Forfeitures: Forfeitures of terminated participants' nonvested account balances allocated to remaining participants for the year ended December 31, 2012 were $9,432. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's end of the year account balance to all participants' end of the year account balances.

Vesting: Participants become fully vested in their accounts upon reaching normal retirement age, permanent disability or death. If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company.

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants whose employment terminates due to retirement, permanent disability or death will be fully vested in their account.

Put option: Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any share of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1. Description of Plan (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Distributions attributable to diversification were $10,620 for the year ended December 31, 2012.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment valuation and income recognition: The shares of Company common stock are valued at estimated fair value. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties: Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Operating expenses: Substantially all expenses of maintaining the Plan are paid by the Company.

Note 2. Significant Accounting Policies (Continued)

Accounting pronouncements adopted: In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended ASC 820, *Fair Value Measurement*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 3 for impact of adoption.

In July 2013, the FASB issued ASU 2013-09, *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04.* The amendments in this Update defer indefinitely the effective date of certain quantitative disclosures contained in ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this Update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. The amendments are effective immediately upon issuance. See Note 3 for impact of adoption.

Accounting pronouncements not yet effective: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The effect of adopting ASU 2012-04 on subsequent periods is not expected to have a significant impact on the financial statements or notes thereto.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 10, 2013, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under that framework are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3. Fair Value Measurements (Continued)

- Level 2 – Inputs to the valuation methodology include

    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The fair value of Hollywood Woodwork, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal is based upon a combination of market and income valuation techniques, taking into account historical and projected cash flow, net income, return on assets, return on equity, market comparables and estimated fair value of the Company's assets and liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2012 and 2011, the Plan's sole asset measured at fair value was its investment in Company common stock, which was considered a Level 3 investment within the fair value hierarchy.

Changes in fair value levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 1, 2 or 3.

Note 3. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Hollywood Woodwork, Inc. Common Stock
Balance, beginning of year	$ 1,334,400
Realized gains/(losses)	-
Unrealized gains/(losses) relating to assets still held at the reporting date	74,880
Shares distributed to participants	-
Balance, end of year	$ 1,409,280

Unrealized gains or losses related to assets held at the reporting date are included in net unrealized depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Rate Applied
Sponsor Company Common Stock	$ 1,409,280	Discounted cash flow	Estimated stock price	$ 29.36
			Risk free rates	4.00%
			Expected holding period	10 years
			Equity risk premium	6.11%
			Risk premium for size	11.28%
		Market comparables	Publicly traded guideline company EBITDA multiple	8.10

Note 4. Investments

The Plan's investment in the Company's allocated common shares at December 31, 2012 and 2011 are as follows:

	2012	2011
Number of shares	**48,000**	48,000
Cost	**$ 3,000,000**	$ 3,000,000
Fair value	**$ 1,409,280**	$ 1,334,400

Note 5. Administration of Plan Assets

The Plan's assets, which consist principally of Hollywood Woodwork, Inc. common shares, are held by Bensym, Inc. ("Bensym"), the Trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiary. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Note 6. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Committee shall direct the trustee to pay all liabilities and expenses of the trust fund.

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 8, 2001, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 8. Related Party Transactions

Bensym is the Trustee of the Plan and therefore, transactions with the Trustee qualify as party-in-interest transactions. There were no fees paid by the Plan to the trustee for the year ended December 31, 2012. The Plan Sponsor paid all administrative expenses on behalf of the Plan for the year ended December 31, 2012.
