Bi-RITE RESTAURANT SUPPLY CO., INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Bi-Rite Restaurant Supply Co., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General – The Plan was adopted on August 1, 1989 to provide retirement benefits for employees of Bi-Rite Restaurant Supply Co., Inc. (the "Company"). The Plan is a defined contribution plan covering all employees completing 1,000 hours of service per year of employment, who are at least twenty-one years of age and not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records of the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Each year, participants may contribute up to 25% of pretax annual compensation, limited to a maximum of $17,000 and $16,500 for the years ended December 31, 2012 and 2011, respectively. Participants who are 50 years of age or older by the end of the calendar year and who are making contributions to the Plan may also make a catch-up contribution of up to $5,500 in 2012. In addition, the Plan has a Roth feature which permits participants to make annual after-tax contributions up to $5,000. Additionally, participants who have attained fifty years of age before the end of the Plan year are eligible to make a Roth catch-up contribution up to $1,000. Participants may make either or both types of contributions; however, the total amount of the combined pre-tax and Roth 401(k) contributions are subject to the maximum limitations discussed above. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective January 1, 2008, the Plan was amended to incorporate a 2% automatic enrollment provision to occur on the first day of the month that coincides with or next follows the date that a participant has reached 21 years of age and completed six months of service and to increase 1% annually (not to exceed 5%) unless the participant elects otherwise.

Employer Contributions – The Company matches participant contributions by contributing an amount equal to 100% of each participant's contribution up to a maximum of $2,000. The Company may also make an annual discretionary profit sharing contribution at the option of the Company's board of directors, subject to limitations imposed by applicable provisions of the Internal Revenue Code.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of (a) the Company's discretionary contribution and, (b) investment earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions and related earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service, as follows:

Years of Service	Vesting Percentage
1	10%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance among the funds available through Charles Schwab Bank ("Charles Schwab"), the trustee of the Plan.

Payment of Benefits – On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. A participant may also elect to receive payments in the form of a life annuity. If the participant's vested account balance is between $1,000 and $5,000, and no distribution instructions have been received from such participant, the plan administrator will establish an IRA for the participant at Charles Schwab and pay that amount as an automatic rollover to that IRA. A balance of $1,000 or less will be distributed to the participant.

Forfeited Accounts – Any portion of a terminated employee's account that is not vested is forfeited, subject to the possibility of reinstatement. Forfeitures are applied to reduce employer contributions. As of December 31, 2012 and 2011, forfeited non-vested accounts totaled $26,276 and $46,980, respectively. The employer contributions for the years ended December 31, 2012 and 2011 and the related employer contributions receivable as of December 31, 2012 and 2011 have been reduced by $36,113 and $26,359, respectively, to reflect the application of the forfeiture balance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

As described in the *Plan Accounting – Defined Contribution Pension Plans* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive guaranteed investment contract through a stable value fund. As required by the standard, the Statements of Net Assets Available for Benefits present the fair value of the investment in the stable value fund, as well as the adjustment of the investment in the stable value fund from fair value to contract value relating to the investment contract. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net unrealized appreciation or depreciation in the fair value of investments for each year is reflected in the Statements of Net Assets Available for Benefits and in the Statements of Changes in Net Assets Available for Benefits.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Administrative expenses will be paid by the Plan if not paid by the Company. Certain administrative expenses are charged directly to participants' accounts; those expenses include costs associated with certain participant directed transactions, such as participant loan fees. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements – In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. Generally Accepted Accounting Principles* ("GAAP") *and International Financial Reporting Standards* ("IFRSs"). Accounting Standards Codification ("ASC") ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle or requirement for measuring fair value. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for nonpublic entities. The Plan adopted this standard prospectively as of January 1, 2012. The adoption of this standard did not have an effect on the Plan's net assets available for benefits or changes in net assets available for benefits and related disclosures.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Fund: Valued at the NAV of the units held by the Plan at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probably that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (issuances and redemptions) may occur daily. The common collective trust funds can be redeemed on a daily basis and none of the funds, except for Morley Stable Value Fund, are subject to withdrawals limitations. See Note 5 for withdrawal limitations for Morley Stable Value Fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN (Continued)

The following is a summary of investment income certified by Charles Schwab for the year ended December 31, 2012:

Net Appreciation in Fair Value of Investments:	
Mutual Funds	$ 1,804,288
Common Collective Trust Funds	317,307

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

Union Bond & Trust Company Morley Stable Value Fund – Effective March 24, 2012, the Plan holds a beneficial ownership of the Union Bond & Trust Company Morley Stable Value Fund (the "Morley Fund") which invests in conventional guaranteed investment contracts ("GICs") issued by insurance companies and synthetic investment contracts or wrap contracts issued by insurance companies or banks.

Except in the case of unusual market conditions, as defined below, withdrawals from the Morley Fund will be settled on a next business day to satisfy benefit payments including participant loans and to permit investment elections by participants. In the case of unusual market conditions, withdrawals for the purposes described above will be paid not later than 30 days following Union Bond & Trust Company's ("UBT") receipt of notice of the withdrawal. Withdrawals for all other purposes will be paid within one year of UBT's receipt of notice of such withdrawal. As used herein, unusual market conditions mean periods during which the Morley Fund experiences an extraordinary amount of withdrawal activity exceeding its immediately available liquid assets or periods during which volatile conditions in financial markets make it necessary, in UBT's judgment, to delay payments in order to ensure, to the extent possible, equitable treatment for all unit holders in the Morley Fund.

As described in Note 2, because investments in the Morley Fund are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5 – GUARANTEED INVESTMENT CONTRACT (Continued)

Charles Schwab Stable Value Fund – The Plan held a beneficial ownership of the Charles Schwab Stable Value Fund (the "Charles Schwab Fund") through March 23, 2012, which invested in a guaranteed investment contract issued by a bank. The guaranteed investment contract consisted of investments in underlying securities with wrap contracts under which a third party guarantees benefit-responsive withdrawals by plan participants at contract value. In a wrap contract, the underlying investments were owned by the Charles Schwab Fund and held in trust for plan participants.

The Charles Schwab Fund was terminated effective as of April 30, 2012. The Plan's investment in the Schwab Fund was terminated on March 23, 2012. The Morley Stable Value Fund was offered to participants as a replacement fund.

NOTE 6 – EXCESS CONTRIBUTIONS

During the years ended December 31, 2012 and 2011, the Plan failed certain nondiscrimination criteria stipulated by the Department of Labor ("DOL"). In order to comply with the DOL's regulations, the Plan is required to refund excess contributions made by certain participants. These excess contributions are recorded as excess contributions payable to participants and amounted to $15,390 and $7,333 as of December 31, 2012 and 2011, respectively. These refunds were remitted to the participants subsequent to December 31, 2012 and 2011, respectively.

NOTE 7 – TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the Internal Revenue Code ("IRC"). A favorable opinion letter from the Internal Revenue Service was received on May 23, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan are based. The Plan has not filed for a determination letter; however, the plan administrator believes that the Plan is designed and is currently being operating in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and collective trust funds managed by Charles Schwab. Charles Schwab is the Plan trustee, as defined by the Plan and; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan to the trustee for certain investment management fees were netted against net appreciation in fair value of investments held by the Plan. Therefore these transactions qualify as party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination among the funds sponsored by Charles Schwab. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect the participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the financial statements to Form 5500 as of December 31, 2012 and 2011, and for the year ended December 31, 2012:
