Members of the Audit Committee of the Anthony International 401(k) Savings Plan

We completed our audit of the financial statements of the Anthony International 401(k) Savings Plan (the Plan) for the year ended December 31, 2012 and expect to issue our report thereon dated September 30, 2013. The following comments summarize the results of our 2012 audit.

Our audit report defines responsibilities and indicates, among other matters, that our audit was conducted in accordance with auditing standards generally accepted in the United States of America and was designed to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatement.

At year-end, management reviewed its investment portfolio for declines in market value below cost which were considered to be other-than-temporary. There were no impairments losses noted during 2012. We concur with management's conclusion. No other material subjective accounting estimates are included in the financial statements.

Proposed audit adjustments are detailed in the attached document.

There were no disagreements with management about auditing, accounting, or disclosure matters.

Management has advised us there were no consultations by management with other accountants regarding accounting, auditing or reporting matters.

Everyone within the Company cooperated fully with us; the account schedules and analyses provided were appropriately prepared and timely.

There were no significant changes from our Audit Plan dated January 15, 2012, which was previously provided to you. We focused our audit effort on related party transactions, significant plan transactions, possible unrecorded accruals, and Statement on Auditing Standards No. 99, *Consideration of Fraud in a Financial Statement Audit.*

We noted no material misstatements, fraud or possible illegal acts (all as defined under current auditing standards) which have a direct effect on the financial statements.

There were no relationships between any of our representatives and the Company that in our professional judgment may reasonably be thought to bear on independence.

We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the Custodian is complete and accurate.

Notes to Financial Statements
For the Year Ended December 31, 2012

1. Plan Description

The following description of the Anthony International 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, as effective January 1, 2010, is a defined contribution plan covering all employees of Anthony International, Inc., and affiliated companies (the Company) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan document and allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches 100 percent of participants' contributions up to 4 percent of compensation under a safe harbor provision, as defined in the plan document. During 2012, the Company contributed $903,699 to the Plan.

c. Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, if applicable, and the Plan's earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into various investment options offered by the Plan.

d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Due to the safe harbor provision in the plan document, participants are immediately 100 percent vested in the Company's matching contribution portion of their accounts plus actual earnings thereon.

e. Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in a lump-sum distribution. Participants may also take a financial hardship withdrawal under certain circumstances.

f. Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $5,581 and $4,972, respectively. These accounts will be used to reduce future Company contributions.

g. Notes Receivable from Participants

Participants may borrow the lesser of $50,000 (reduced by the participant's highest outstanding loan balance during the 12-month period ending on the date of the loan) or 50 percent of their vested account balance with a minimum loan amount of $1,000. Loan terms range up to five years, but may be extended if the proceeds are to be used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25 to 8.5 percent. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Plan Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the fair value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

e. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

f. Payment of Benefits

Benefits are recorded when paid.

g. Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

h. Subsequent Events

The Plan has evaluated the subsequent events through September 30, 2013, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

4. Investments

The following presents investments that represent five percent or more of the Plan's net assets at December 31, 2012 and 2011.

	2012	2011
ING Fixed Account	$ 7,654,692	$ 6,630,749
ING BlackRock Sci & Tech Opp I	1,770,706	1,701,435
American Funds Growth Fund of Amer R4	1,583,056	1,236,528

During 2012, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,505,934.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the net asset value of units held by the Plan at year end, which is considered by plan management to be the best approximation of fair value.

Funds held in pooled separate accounts may be redeemed daily without restriction.

The Plan has identified the following classes of investment for its pooled separate accounts based on the nature and risks of the underlying investments. The fair values for each major class of investment are disclosed in the tables below. The following describes the significant investment strategies of each major class of investment.

- U.S. equity: Funds are invested directly and/or indirectly in a diversified portfolio of domestic stocks to achieve a variety of investment goals including capital appreciation, current income, specific industry exposure, and/or domestic equity index replication (e.g., the S&P 500 Index).

- Balanced: Funds are invested in actively managed portfolios of stocks, bonds, other debt securities, money market instruments, and/or other investments, both domestically and internationally, with the goal of achieving a targeted balance of capital preservation, capital appreciation, and current income.

- Fixed income: Some funds in this category are primarily invested in money market instruments and other short-term securities with the goal of maintaining liquidity, investment quality and stability of capital. Other funds in this category invest in debt securities such as bonds, U.S. government and agency securities, mortgage-backed securities, and zero coupon securities with the goal of current income, capital preservation, and, to a lesser extent, capital appreciation.

- International equity: Funds are invested directly and/or indirectly in a diversified portfolio of stocks of companies internationally to achieve a variety of investment goals including capital appreciation, and current income.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows by a risk-adjusted discount rate of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 2a).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

5. Fair Value Measurements (Continued)

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as level 3 in the FASB ASC 820 fair value hierarchy at December 31, 2012.

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed investment contract	$7,654,692	Discounted cash flow	Risk-adjusted discount rate (1)	1.12%
			Standard credited rate for contract (2)	3.00%
			Mean expected term	5.25 years
			Surrender value percentage (3)	80%

(1) The rate for a 7-year Treasury Bond derived by interpolating between 5-year and 10-year Treasury Bond rates for the week prior to the reporting date.

(2) The median declared interest rate communicated monthly for the class of contract (with a floor equal to the contract minimum crediting rate of 2%).

(3) The percentage of the investment's value that would be paid out using the contract's market value formula upon surrender. The remainder would be paid out at contract value. The percentage is determined by the number of contract years completed by the Plan based on a five-year graded schedule. The percentage impacts the amount realizable by the Plan upon surrender of the contract and, therefore, the exit price.

The Custodian develops an estimate of fair value for the level 3 investments and provides information on the assumptions underlying the estimate as well as information regarding the unobservable inputs used in the valuation process. The plan administrator reviews information provided by the Custodian on an annual basis and considers whether any additional adjustments are necessary. For the year ending December 31, 2012, the plan administrator used the Custodian's fair value estimates without adjustment.

6. Plan Termination

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

7. Summary of Unaudited Information

The Custodian of the Plan certified certain information, which was not audited in accordance with the plan administrator's instructions and as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information certified by the Custodian consists of the following:

- Fair value of investments as reflected in the Statements of Net Assets Available for Plan Benefits as of December 31, 2012 and 2011.
- Investment income and interest income on notes receivable from participants as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the Year Ended December 31, 2012.
- Investment information as reflected in Notes 4 and 5 to these financial statements.
- Investment information reflected in the Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012.

The Plan's independent public accountants did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

8. Tax Exempt Status

The Plan was subject to a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008. Although the plan has been amended, the plan administrator believes the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System. Accordingly, the plan administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally recognized in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years ending on December 31, 2008, or prior.

9. Investment Contract with Insurance Company

The Plan holds a benefit-responsive investment contract with ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company maintains the contributions in a general account. The account is credited with earnings in accordance with the contract and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING Life Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

	2012	2011
Average yield	2.92%	2.91%
Crediting interest rate, as of December 31	3.00%	3.00%

10. Related Party Transactions

ING Life Insurance and Annuity Company is the Custodian of the Plan that holds and manages investments. Transactions with ING Life Insurance and Annuity Company are party-in-interest transactions, as defined by ERISA.
