Note 1. DESCRIPTION OF THE PLAN

The following description of the Abatti Companies 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all non-union, non-leased, and resident alien employees of All Star Seed, La Valle Sabbia, Inc. and Truck Lease (the Companies) who have completed three months of service and are age twenty-one or older. The Plan was originally adopted effective January 1, 2007 as a defined contribution plan and is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan was amended and restated January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All Star Seed acts as the administrator and discretionary trustee of the Plan, National Retirement Services, Inc. (NRS) serves as the Plan's third party administrator (TPA) and Transamerica Life Insurance Company (Transamerica) serves as the Plan's custodian and record keeper.

Contributions: Eligible employees may elect to make Pre-Tax 401(k) Contributions as defined in the Plan. The Companies make matching contributions equal to 100% of the employees contributions that do not exceed 3% of the employees compensation plus another contribution equal to 50% of the employees contributions between 3% and 5% of the employees compensation. For the plan years 2012 and 2011 the Companies matching contribution was $29,963 and $26,757, respectively, allocated to all participants who were actively employed on December 31, 2012 and 2011. The maximum employee deferral permitted by the Internal Revenue Service for the years ended December 31, 2012 and 2011 was $17,000 and $16,500, respectively. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions up to $5,500 for the years ended December 31, 2012 and 2011. Each year, the Companies may make a discretionary profit sharing contribution to the Plan. For the plan years 2012 and 2011, there were no profit sharing contributions made by the Companies.

Participant contributions are recorded and remitted to the Custodian each bi-weekly payroll period and recorded in the year withheld from a participant's check.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. DESCRIPTION OF THE PLAN (Continued)

Vesting: Participants are immediately vested 100% in their voluntary contributions plus actual earnings thereon. Participants are also immediately vested 100% in the Companies matching contribution plus actual earnings. The following vesting schedule applies to the Companies' nonelective profit sharing contributions, if any:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Companies' profit sharing contribution amounts become 100% vested without regard to years of service.

Investment Options: Participants direct the investment of their contributions into various investment options offered by the Plan. All investment options are offered by Transamerica under a group annuity contract. The group annuity contract offers investments choices in various separate accounts that invest in mutual funds and one investment option that invests in the general account of Transamerica, called the Stable Value Advantage Option fund.

Payment of Benefits: On termination of employment due to reasons other than death, disability or normal retirement, the participant’s vested account balance is distributed in a lump sum if the vested account balance does not exceed $5,000, regardless of whether the participant consented to the distribution. If the participant's vested account balance exceeds $5,000, the participant may elect to receive a lump sum payment or defer the receipt of payment according to Plan provisions.

Upon termination of employment due to death, 100% of the participant's vested account balance will be used to provide a death benefit to the designated participant beneficiary.

Distributions prior to termination of employment are allowed upon either attaining age 59 1/2, incurring a disability or experiencing a financial hardship as defined by the Internal Revenue Code. Such withdrawals are subject to applicable excise and income taxes, and may only be made with the approval of the Plan Administrator.

Participant Loans: The Plan does not allow Participant loans.

Note 1. DESCRIPTION OF THE PLAN (Continued)

Forfeitures: Participants who are not 100% vested will forfeit the non-vested portion of the Companies discretionary profit sharing contribution upon termination of employment. Forfeitures may be used to pay plan expenses then offset the Companies' matching contribution obligation. There were no forfeitures included in the net assets available for benefits at December 31, 2012 and 2011.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results may differ from those estimates.

Accounting for Fully Benefit-Responsive Investments: As described in The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-325-35, fully benefit responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB ASC 962-205-45, the Statements of Net Assets Available for Benefits presents the fair value of the investments as well as the adjustment of the investment from fair value to contract value (if necessary) relating to investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis and were not affected by the adoption of the FSP. There was no difference between fair value and contract value at December 31, 2012 and 2011.

Risks and Uncertainties: The Plan provides for various investment options in various mutual funds and other investment securities. Investment securities are exposed to various risks factors including, but not limited to, interest rates, market conditions, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value.

The Plan presents in the statements of changes in net assets the net appreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation of those investments.

Purchases and sales of securities are recorded on a trade basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Subsequent Events Review: Management has evaluated its December 31, 2012 and 2011 financial statements for subsequent events through October 8, 2013, the date of issuance of the financial statements. The Company is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Except for Plan audit fees, payments for administrative expenses are made from the Plan's assets. Plan audit fees are paid by the Companies. Administrative expenses are generally allocated among the accounts of all participants in the Plan. These expenses are allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. There are certain other expenses that may be paid just from individual participant accounts. These are expenses that are specifically incurred by or attributable to individual participants.

Note 3. CERTIFIED FINANCIAL INFORMATION

The financial information included in the Plan’s financial statements as it relates to investment assets, investment transactions, investment income and the schedule of assets held at end of year have been derived from information certified as complete and accurate by Transamerica, the Custodian of the Plan. This information was not audited in accordance with the Plan Administrator's instructions and as permitted by Section 29 CFR 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 4. INVESTMENTS

The individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows:

	2012	2011
Loomis Sayles Investment Grade Bond Ret. Opt.	**$ 163,589**	$ 112,572
Transamerica Partners High Yield Bond Ret. Opt.	**19,283**	--
Transamerica Stable Value Option	**62,972**	100,217
	$ 245,844	$ 212,789

During the years ended December 31, 2012 and 2011, the Plans investments in pooled separate accounts that invest in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $35,004 and $2,064, respectively.

Note 5. FAIR VALUE MEASUREMENTS

The fair value measurement topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 5. FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Separate accounts - Separate accounts with Transamerica are stated at fair value as reported to the Plan by Transamerica, based on the quoted market prices of the underlying mutual funds. The unit value of the separate account is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets, defined as Level 1 input. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities, defined as Level 2 input.

Stable Value Advantage Option - Stable Value Advantage Option investment choice is invested in the general account of the Transamerica. All assets in the Stable Value Advantage Option investment choice are credited with interest using a declared monthly rate determined by Transamerica and stated in advance. There is no specific portfolio of assets in which the Stable Value Advantage Option investment choice invests. The credited interest rate is backed by the income received from assets held in the general account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

Note 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in an unallocated insurance contract with Transamerica in the Group Annuity Contract. As discussed in Note 1, the Group Annuity Contract is included in the statements of net assets available for benefits at contract value which equals fair value.

Because the Stable Value Advantage Option investment choice available under the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for those funds invested in the Stable Value Advantage Option investment choice. The Stable Value Advantage Option investment choice has no stated maturity. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. For deposit liabilities with no defined maturities, the fair value to be disclosed is the amount payable on demand at the reporting date. Accordingly, the contract value is also the fair market value to be disclosed. Contract value, as reported to the Plan by Transamerica, represents contributions, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Since the Stable Value Advantage Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value with Transamerica and participants holding the investment is not probable.

In the event that the Plan terminates its contract with Transamerica, the Plan has the option of (a) liquidating Plan assets by making benefit payments under any form of payment available or (b) transferring all plan assets to other funding vehicles. Plan assets held in the group annuity contract and mutual funds held within pooled separate accounts will be transferred ninety and ten days, respectively, following Transamerica's receipt of the notice of termination.

The average yield on the Stable Value Advantage Option fund was:

Years ended December 31,	**2012**	2011
Based on actual earnings	**1.75%**	2.45%
Based on interest rate credited to participants	**1.75%**	2.45%

Note 7. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments at December 31, 2012 and 2011 are in funds managed by Transamerica, the Plan's custodian, and therefore, these transactions qualify as party-in-interest transactions under ERISA. For the years ended December 31, 2012 and 2011, $71,908 and $77,342 was contributed and $61,274 and $49,518 was withdrawn from these funds, respectively.

Note 8. FEDERAL INCOME TAX-EXEMPT STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and is not subject to tax. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes is required to be included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 10. PARTICIPANT WITHDRAWALS AND DISTRIBUTIONS

Net assets available for benefits at December 31, 2012 and 2011 include $0 and $4,288, respectively, allocated to the account(s) of an individual(s) who as of December 31, 2012 had withdrawn from participating in the earnings and operations of the Plan. The $4,288 was rolled over to the individual's new plan in January 2012.

Note 11. LATE CONTRIBUTIONS

During 2012, the Plan administrator inadvertently failed to deposit participant deferrals within a reasonable time frame as required by the Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan administrator calculated lost earnings on the 2012 participant deferrals that were not deposited within a reasonable timeframe and contributed the lost earnings to the Plan in 2013.

Note 12. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits as reported on the financial statements and Form 5500 as of December 31, 2012 and 2011:

	2012	2011
Net assets per financial statements	**$ 365,402**	$ 313,191
Participant contributions receivable	**(6,381)**	--
Employer contributions receivable	**(5,043)**	(161)
Per Form 5500	**$ 353,978**	$ 313,030
