REPORT ON THE FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of AAA Washington 401(k) Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Notes to Financial Statements For the Year Ended December 31, 2012

Note 1 - Description of the Plan

The following description of the AAA Washington 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan under provisions of Section 401(a) of the Internal Revenue Code (IRC) covering all employees 18 years of age and older of AAA Washington and participating affiliates (the Employer). Employees that are members of a collective bargaining agreement, nonresident aliens or are temporary and seasonal employees are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Eligible employees may participate in the deferral portion of the Plan upon date of hire and may elect to defer up to 50% of their compensation as pre-tax contributions to the Plan. The Plan has adopted an automatic enrollment feature under which new employees are set up with a 3% pre-tax deferral, increasing by 1% per year up to a maximum of 10%, unless they formally waive participation or elect a different participation level. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Eligible employees who have completed one year of service with at least 1,000 hours of service during that year are eligible to receive employer contributions in the Plan. The Employer makes nondiscretionary employer matching contributions to eligible participants equal to 50% of each employee's contributions up to 6% of eligible compensation. At its sole discretion, the Employer may also make additional matching contributions to eligible participants. Participants must be employed by the Employer on the last day of the plan year to be eligible for additional matching contributions. For the year ended December 31, 2012, the Employer made additional matching contributions of \$300,924.

All eligible employees receive an employer nonelective contribution. For participants hired on or after September 1, 2003, the employer nonelective contribution is equal to 1% of eligible compensation. For participants hired before September 1, 2003, the Employer contributes to each eligible employee an amount based on the participant's age and compensation as follows:

Age	Percentage of Compensation
1 - 39	1.00%
40 - 44	1.75%
45 - 49	3.00%
50 - 54	5.00%
55 - 59	8.00%
60 or older	10.00%

Contributions are subject to certain limitations.

Notes to Financial Statements For the Year Ended December 31, 2012

Note 1 - Continued

Participant Accounts - Each participant's account is credited with any contributions made to their account as well as increases or decreases in the market value of investments and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct contributions into various investment options offered by the Plan.

Vesting - Participants are always 100% vested in employer matching contributions and their salary deferral contributions. Employer nonelective contributions become 20% vested upon completion of one year of service and are vested an additional 20% for each additional year of service until fully vested.

Forfeitures - Forfeitures may be used to pay eligible administrative expenses of the Plan and then used to reduce Employer contributions to the Plan. For the year ended December 31, 2012, forfeitures of \$6,075 were used to pay eligible administrative expenses of the Plan. As of December 31, 2012, forfeited nonvested account balances totaled \$11,338 (2011 - \$5,265).

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of the participant's vested balance or \$50,000, reduced by the participant's highest outstanding loan balance under the Plan in the 12-month period prior to the date of the new loan. Participant loans bear interest at Prime plus 2% and are secured by the balance in the participant's account. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits - Upon termination of service, retirement, death, disability, or attainment of age 59 ½, a participant may receive a lump sum distribution equal to the value of the participant's vested interest in his or her account. The Plan also provides for hardship withdrawals in accordance with provisions specified in the plan document.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements For the Year Ended December 31, 2012

Note 2 - Continued

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of mutual funds includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recorded when paid. The amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2012 and 2011, were \$0 and \$40,895, respectively.

Administrative Expenses - Administrative costs for asset custody and recordkeeping services are paid by the Plan, as allowed under the applicable guidance of ERISA and the rules and regulations published by the Department of Labor. Several of the investment fund options are subject to investment management fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance. Other administrative expenses related to the Plan are paid by the Employer.

Subsequent Events - The Plan's management has evaluated subsequent events through October 9, 2013, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the fair value measurement accounting standard are described below:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

<u>Level 2</u> - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

Notes to Financial Statements For the Year Ended December 31, 2012

Note 3 - Continued

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

<u>Mutual Funds</u> - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

<u>Collective Trust Fund</u> - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

- (a) The objective of the fund was to provide participants with a high current income with preservation of capital. On May 1, 2012, the Board of Directors of the fund authorized the termination of the Trust. On this same date, investor communications announcing the Trust's termination were distributed. Prior to this date, all of the Trust's securities were liquidated and the proceeds thereof were invested into money market investments held by the Trust. The Trustee intends to wound down the Trust and distribute all of the Trust's assets to investors in 2012.
- (b) The objective of the stable value portfolio is to seek stability of principal and consistency of returns with minimal volatility. The stable value portfolio invests in financial instruments that seek to provide participants with a stable crediting rate and safety of principal plus accrued interest. The contracts and securities purchased for the funds are backed solely by the financial resources of the issuers of such contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The investment is managed by Galliard Capital Management. There were no unfunded commitments at December 31, 2012 or 2011.

^{*} Individual investment does not represent 5% or more of the Plan's net assets for the respective year.

Note 5 - Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for services totaled \$41,131 for the year ended December 31, 2012.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.

Note 7 - Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 3, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements For the Year Ended December 31, 2012

Note 8 - Information Certified by the Trustee

The Plan's management has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a trust company need not be subjected to independent audits. The Plan's management has obtained a certification from the trustee, that the following information provided by the trustee and included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2012 and 2011;
- Investment income earned for the year ended December 31, 2012; and
- Investment transactions for the year ended December 31, 2012.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balance and the amounts reported in the statements of net assets available for benefits.

Note 10 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 at December 31:
