Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Accounting Policies (con't)

Net Appreciation/ (Depreciation) in Fair value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits and is included in investment earnings.

Payment of Benefits

Benefits are recorded when payable.

Plan Expenses

Administrative expenses relating to the Plan are prorated among plan participants.

Forfeited Accounts

Per the plan, forfeitures of employer matching contributions will be used to reduce administrative expenses then any remaining forfeitures will supplement employer contributions.

Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
