Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Trustees of and Participants in
the Exelis Electronic Systems Pension Plan
for Employees in the Bargaining Unit:

We have audited the accompanying financial statements of the Exelis Electronic Systems Pension Plan for Employees in the Bargaining Unit (the "Plan"), which comprise the statements of net assets available for pension benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for pension benefits as of December 31, 2012, and the changes therein for the year then ended and its financial status as of December 31, 2011, and the changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

EXELIS ELECTRONIC SYSTEMS PENSION PLAN FOR EMPLOYEES IN THE BARGAINING UNIT

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF THE PLAN

The following description of the Exelis Electronic Systems Pension Plan for Employees in the Bargaining Unit (formerly known as the ITT Electronic Systems Pension Plan for Employees in the Bargaining Unit) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

On October 31, 2011, ITT Corporation (ITT) completed the previously announced spin-off (the “Spin-off”) of Exelis Inc. (the “Company” or “Exelis” or the “Plan Sponsor”) and Xylem Inc. (“Xylem”), formerly ITT’s Defense and Information Solutions and Fluid Technology segments, respectively. Prior to October 31, 2011, ITT sponsored the Plan. The sponsorship of the Plan was transferred from ITT to the Company at Spin-off and the Company became the new sponsor of the Plan. All assets in the Master Trust (as defined below) related to plans that continued to be sponsored by ITT and Xylem after the Spin-off were transferred to the Master Trusts of ITT and Xylem, respectively.

General — The Plan is a defined benefit plan covering substantially all employees of Exelis Electronic Systems, a division of Exelis, who are represented by Local 84999, IUE the Industrial Division of the Communications Workers of America, AFL-CIO. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Master Trust — Effective October 31, 2011, the Investment Master Trust of ITT was transferred from ITT to the Company and renamed the Investment Master Trust of Exelis (formerly, the Investment Master Trust of ITT) (the “Master Trust”). Under a trust agreement dated July 1, 1977, The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as trustee of the Plan and administers the Plan’s investment assets. The Plan’s assets consist of an undivided interest in an investment account of the Investment Master Trust of the Company, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan, as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan’s proportionate share of such assets at December 31, 2012 and 2011.

Eligibility — All employees of Exelis Electronic Systems, who are represented by Local 84999, IUE the Industrial Division of the Communications Workers of America, AFL-CIO, are eligible to participate as of their date of employment.

Pension Benefits — Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplying the benefit rate, which depends upon the participant’s date of termination, by the total number of years of credited service, not to exceed 42 years. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service. Early retirement eligibility is age 55 and 10 years of continuous service.

Death and Disability Benefits — A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations.

An employee, who is age 40, with 10 years of credited service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed as it would be for normal retirement, based on the employee's years of credited service as of the date of disability, but not less than \$340 per month.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan, through the Master Trust utilizes various investment instruments, including common stock, U.S. government securities, corporate debt instruments, limited partnerships, collective trust funds, and registered investment companies. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees. The Plan Sponsor provides accounting and other administrative services to the Plan and Master Trust at no charge.

New Accounting Standards:

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends Accounting Standards Codification (ASC) 820. ASU No. 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The effect of the adoption of ASU 2011-04 had no impact on the Plan's statements of net assets available for benefits and statements of changes in net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. The Plan's financial statements as of December 31, 2012, were prepared with actual reported values for all Level 3 assets. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- *Domestic and International Equity* — Domestic and international equity, which include common and preferred stocks, domestic listed and foreign listed equity securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. Also included within this asset category are common collective trusts (CCTs) composed of common and preferred shares. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at net asset value (NAV) as of the measurement date. Fair value is estimated based on the NAV practical expedient described below. CCTs investing in common and preferred shares are classified as Level 2.

- *Private Equity Funds* — Private equity funds, which include buy-out, mezzanine, venture capital, distressed asset, commodities, real estate and venture capital, are typically limited partnership investment structures and/or joint ventures. Private equity valuations are based on the valuation of the underlying investments, which include inputs, such as cost, operating results, discounted future cash flows, and market-based comparable data. Private equity funds were valued using audited financial statements provided by the fund manager.
- *Fixed-Income Investments* — Fixed-income investments, which include U.S. government securities is generally valued using pricing models that use verifiable, observable market data, such as interest rates, benchmark yield, bids provided by brokers or dealers, or quoted prices of securities with similar characteristics. Also included within this asset category are (CCTs) composed of corporate bonds. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV as of the measurement date. Fair value is estimated based on the NAV practical expedient described below. CCTs investing in debt are classified as Level 2.
- *Hedge Funds* — Hedge funds, which include equity long/short, event-driven, fixed-income arbitrage and global macro, are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on NAV calculated by the funds and are not publicly available. Hedge funds were valued using audited financial statements provided by substantially all of the fund managers. Hedge funds that permit redemption on a quarterly or more frequent basis with 90 or fewer days' notice are generally classified within Level 2 of the fair value hierarchy; all other hedge funds are classified as Level 3.
- *Other* — Other is primarily composed of guaranteed insurance contracts valued at book value, which approximates fair value, and is calculated using the prior-year balance adjusted for investment returns and changes in cash flows.
- *Cash and Cash Equivalents* — Cash and cash equivalents are primarily composed of short-term money market funds valued at cost, which approximates fair value, or valued at quoted market prices of identical instruments.

A summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2012 and 2011, is set forth by level within the fair value hierarchy as follows (in thousands):

(a) Redemption restrictions vary by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may extend over a period of time.

(b) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.

The information regarding the unfunded commitments and redemption restrictions for partnerships and joint ventures held by the Plan as of December 31, 2012 and 2011, is as follows (in thousands):

	Unfunded Commitments		Redemption Frequency (If Eligible)	Redemption Notice Period

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.
- (b) Buyout funds are partnership investment vehicles that take a controlling interest primarily in private companies with the intent of developing them for future sale at a higher price to a strategic or financial buyer or through an initial public offering. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next three to 10 years.
- (c) Distressed asset investments are partnership investment vehicles that purchase debt or preferred equity instruments of companies that are distressed, near bankrupt or bankrupt. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next seven to nine years.
- (d) Venture capital funds are partnership investment vehicles that provide seed or growth capital to start-ups and early stage companies, usually in high-growth industries, such as information and clean technology, health care, and biotechnology. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next six to nine years.
- (e) Mezzanine private equity funds provide mezzanine loans to companies that need capital but do not want to sell or dilute their equity interests. Mezzanine loans are subordinated debt or preferred equity securities that represent a claim on the borrower's assets which is senior to the common equity but subordinate to senior secured and unsecured debt. The nature of the investments in this category is that distributions are received through coupon payments and the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next eight to 10 years.
- (f) Commodities are partnership investment vehicles that invest in businesses engaged in commodity-related sectors, including energy, natural resources and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer, or through an initial public offering.

- (g) Real estate investments are partnership investment vehicles that invest in commercial, industrial and residential real estate. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2012 and 2011.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2012.

The actuarial present value of accumulated plan benefits as of January 1, 2012, is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$11,668,927
Other participants	<u>14,704,320</u>
Total vested accumulated plan benefits	26,373,247
Nonvested accumulated plan benefits	<u>1,096,311</u>
Total actuarial present value of accumulated plan benefits	<u>\$27,469,558</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2012, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2011	\$26,203,432
Increase (decrease) during the year attributable to:	
Benefits accumulated	516,147
Assumption changes	(59,389)
Benefits paid	(1,483,616)
Interest	<u>2,292,984</u>
Actuarial present value of accumulated plan benefits at January 1, 2012	<u>\$27,469,558</u>

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the January 1, 2012, valuation were:

- Mortality: For 2012, the mortality assumption was updated according to the projection specified in Internal Revenue Service (IRS) Regulation 1.430(h)(3)-1, applied on a static basis, projected seven years from the valuation date for annuitants and 15 years for nonannuitants whereas for 2011, the mortality assumption was based on the UP-94 mortality table (scale AA projected 16 years) with special mortality table used for the period after disability.
- Retirement age: Age 65.
- Investment return was 9.0% per annum for 2012.
- Discount rate was 9.0% per annum for 2012.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement and disability.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of registered investment companies managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the Internal Revenue Code (IRC) and ERISA's rules on prohibited transactions.

8. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated February 10, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011 because of the Spin-off. The Company became the Plan's sponsor effective October 31, 2011. ITT, the prior sponsor of the Plan, may be subject to income tax examinations for years prior to 2011. The Company and ITT entered into a Tax Matters Agreement, which generally provides that ITT shall indemnify Exelis for consolidated income taxes relating to any pre Spin-off period up to a certain amount.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

10. SUBSEQUENT EVENTS

For the year ended December 31, 2012, subsequent events were evaluated through October 11, 2013, the date the financial statements were available to be issued. Effective January 1, 2013, the name of the Plan was amended from the Exelis Electronic Systems Pension Plan for Employees in the Bargaining Unit to the Exelis Communication Solutions Pension Plan for Employees in the Bargaining Unit.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each of these assumptions is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

EIN / PIN 45-2083813 / 004
Schedule SB, Line 22 – Description of Weighted-Average Retirement Age

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for t = FRA-ERA.

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r) * (ERA + t + \frac{1}{2})$$

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r)$$

where

FRA = age by which everyone is assumed to retire
 ERA = age before which nobody is assumed to retire
 ${}_t p_{ERA}$ = probability of surviving at work to age ERA + t
 q_{ERA+t}^r = probability of retiring at age ERA + t

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding Assumptions and Methods

Funding interest rates

Current Year:	Segment Rates with four month lookback:	
	First Segment Rate	2.06%
	Second Segment Rate	5.25%
	Third Segment Rate	6.32%

In accordance with MAP-21, the first, second and third Segment Rates are constrained to a 90%-110% Corridor around the average Segment Rates for the 25-year period ending September 30, 2011, or 5.54%, 6.85% and 7.52%, respectively for minimum funding and benefit restrictions but not for maximum tax-deductible purposes.

	Effective Interest Rate	7.07%
Prior Year:	Segment Rates with four month lookback:	
	First Segment Rate	3.78%
	Second Segment Rate	6.31%
	Third Segment Rate	6.57%
	Effective Interest Rate	6.34%

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

EIN/PN: 45-2083813 / 004

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

Expenses

Expected plan related expenses of \$274,330 were added to Target Normal Cost.

Frequency of optional payment forms

70% of future retirees and terminations are assumed to take a life annuity. Those future retirees who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50%, 75%, or 100% Option with equal probability. Those terminations who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50% or 75% Option with equal probability.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Mortality table

The mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

The rates shown are the ultimate withdrawal rates for participants with 3 or more years of service. For ages 45 or less, the rates for the first, second, and third year of employment are the above multiplied by 1.838 plus 0.0343, 1.393 plus 0.0056 and 1.240 minus 0.0046, respectively.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 9.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2011 measurement period:	6.57%
2010 measurement period:	6.82%

Statement of Enrolled Actuary

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such future differences.
