INDEPENDENT AUDITOR'S REPORT

To the Benefits Administration Committee
College Park, Georgia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the FKI 401(k) Retirement Savings Plan for Union Employees, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Mercer Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

(Continued)

Other Matter

The supplemental Schedule H, Line 4a – Schedule of Delinquent Contributions and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FKI 401(k) RETIREMENT SAVINGS PLAN FOR UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - PLAN DESCRIPTION

The following brief description of the FKI 401(k) Retirement Savings Plan for Union Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General: The Plan is a defined contribution plan subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan covers all employees of FKI Industries Inc. ("FKI" or the "Sponsor") and certain affiliated companies (collectively "the Employer") covered by a collective bargaining agreement, if expressly provided for in the collective bargaining agreement. Full-time and part-time employees are eligible to participate in the Plan as of the later of their age 21 or their date of hire. Subsequent to year-end, effective September 30, 2013, the Company transferred its sponsorship of the Plan to Melrose North America, Inc.

The Benefits Administration Committee (the "Committee") is responsible for the administration of the Plan and Mercer Trust Company is the trustee (the "Trustee") of the Plan.

Contributions: Participants may contribute, through payroll deductions, up to a combined 75% of their pre-tax or after-tax compensation. The after-tax contributions cannot exceed 17%. Upon eligibility of the participant, the Employer may make a discretionary matching contribution equal to 25% of the participant's first 2% contributed for Bridon American Corporation participants, 30% of the participant's first 6% contributed for Acco Material Handling Solutions division participants, and 100% of the participant's first 3% contributed for Trambeam Corporation division participants. Participant contributions may not exceed \$17,000 in 2012 and \$16,500 in 2011. A participant who attains age 50 before the end of the plan year may make additional catch-up contributions, as defined by the Plan. Catch-up contributions may not exceed \$5,500 in 2012 and 2011.

An Employer contribution equal to 4-1/2% of eligible compensation is made in addition to any Employer matching contributions for employees under the Bridon American Corporation covered unit. The Employer contribution is available to participants irrespective if they have or have not elected to make participant contributions to the Plan.

Investment Options: Participants may direct their contributions, as well as Employer contributions, among any of the Plan's and Master Trust's available investment options.

FKI Industries Inc. Master Trust: A portion of the Plan's investments are in the FKI 401(k) Retirement Savings Plans Master Trust ("Master Trust") which was established for the investment of assets of the Plan and two other defined contribution plans, one sponsored by the Company and one sponsored by an affiliated company, The Crosby Group LLC. The net assets of the Master Trust are held by Mercer Trust Company ("Trustee"). At December 31, 2012 and 2011, the Plan's interest in the net assets of the Master Trust was approximately 12.7% and 12.2%, respectively. Each participating plan's interest in the net assets of the Master Trust is based upon the value of the Plan's interest in the net assets of the Master Trust as of the beginning of the year, plus actual contributions and allocated investment income, less actual distributions and actual and allocated expenses. Net investment income of the Master Trust is allocated to the individual plans based upon their interest in each of the underlying participant-directed investments.

Participant Accounts: Each participant's account is credited with the participant's qualifying rollover contributions, the participant's contributions, the Company's contributions and allocations of plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - PLAN DESCRIPTION (Continued)

Vesting: Participants are always 100% vested in their voluntary contributions and Company discretionary contributions plus earnings thereon. A participant becomes 100% vested in Employer matching contributions after three years of service.

Participant Forfeitures: Forfeitures related to non-vested Company contributions are used to reduce future Company contributions to the Plan. In 2012, \$5,452 in forfeitures were used to offset employer contributions. In 2011, \$644 in forfeitures were used to offset employer contributions. As of December 31, 2012 and 2011, unused forfeitures totaled \$1,490 and \$3,306, respectively.

Benefits: On termination of service, a participant may elect to receive a lump sum amount equal to the value of his or her account. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available distributions prior to requesting a hardship withdrawal.

In the event a participant becomes eligible for distribution in accordance with Article 11 of the plan agreement, and if the value of a participant's vested interest (determined under Section 11.6 of the plan agreement) does not exceed \$5,000, the method of distributions as to that Participant shall be a single cash payment of the full amount payable. Such amount shall be distributed in accordance with the Plan.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with the prevailing interest rates charged on similar loans. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: The Plan's administrative and investment management expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Investment management fees pertaining to Plan specific investments and allocations from master trust are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other administrative expenses of the Plan are paid by the Company on behalf of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's and Master Trust's investments are reported at fair value as further described in Notes 5 and 6. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Master Trust holds a direct interest in a fully benefit-responsive contract. The Plan holds an interest in such contracts through its interest in the Master Trust.

Benefit Payments: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's and Master Trust's investments.

Risks and Uncertainties: The Plan and Master Trust hold various investments, which are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss) was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Mercer Trust Company, the Trustee of the Plan. This information has not been audited by independent accountants.

* Represents less than 5% of assets available for benefits but included for comparative purposes.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), excluding the Plan's allocation of the Master Trust assets, appreciated in value by \$533,581 as follows:

	<u>Year ended December 31, 2012</u>
Mutual funds	\$ 463,875
Common collective trusts	<u>69,706</u>
Net appreciation	<u>\$ 533,581</u>

The Plan earned dividend and interest income, excluding the Plan's allocation of the Master Trust assets, during 2012 in the amount of \$103,729.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan and the Master Trust for an asset or paid by the Plan and the Master Trust to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's and the Master Trust's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan and Master Trust has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

(Continued)

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 3: Significant unobservable inputs that reflect the Plan's and the Master Trust's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan and those held as underlying investments of the Master Trust.

Plan Interest in Master Trust: The fair value of the Plan's interest in the Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Master Trust.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs).

The S&P 500 Flagship fund is held directly by the Plan and had fair market values of \$539,704 and \$429,262 at December 31, 2012 and 2011, respectively. The investment objective of the S&P 500 Flagship fund, issued by the State Street Bank and Trust Company, is to mimic the long-term market performance of the S&P 500 index while providing participants the ability to purchase and redeem units on an "as of" basis. Underlying investments of the collective trusts include, but are not limited to, domestic equities, government issues, collective investment funds, and futures contracts. The investments provide for redemptions every business-day and have redemption prices that are determined by the fund's net asset value per unit. The investments may be valued as of the next succeeding valuation date or another date as the fund manager, State Street Bank and Trust, deems appropriate.

The Wells Fargo Stable Return Fund is held as an investment in the Master Trust and had fair market values of \$9,153,229 and \$8,993,822 at December 31, 2012 and 2011, respectively. The fair values of participation units in the Wells Fargo Stable Return Fund, a stable value collective trust fund which is a unitized fund managed by Wells Fargo, are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The stable value fund invests in synthetic guaranteed investment contracts, which are comprised of collective trust and U.S. Treasury Bonds with the objective of providing a high level of return that is consistent with also providing stability of investment return, a preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund generally provides for daily redemptions by the Plan at reported net asset value per share with no advance notification requirements. The Plan holds an indirect interest in this fund through its investment in the Master Trust.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The Prudential Core Conservative Intermediate Bond Fund is also held as an investment in the Master Trust and had fair market values of \$14,648,742 and 14,140,915 at December 31, 2012 and 2011, respectively. The fair values of participation units in the Prudential Core Conservative Intermediate Bond Fund, a stable value collective trust fund which is a unitized fund managed by Prudential Insurance Company of America, are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The stable value fund invests in various bonds including agency bonds, U.S. Government securities and Corporate Bonds. The fund objective is to outperform the Barclays Capital U.S. Intermediate Aggregate Bond Index (benchmark) by 25 bps over a full market cycle (3-5 years). The fund generally provides for daily redemptions by the Plan at reported net asset value per share with no advance notification requirements. The Plan holds an indirect interest in this fund through its investment in the Master Trust.

Short-Term investments: Short-term investments largely consisted of a money market fund, the fair value of which is based on the net asset value reported by the manager of the fund and supported by the unit prices of actual purchase and sale transactions (Level 2 inputs). The money market fund is designed to provide safety of principal, daily liquidity, and a competitive yield by investing in high quality money market instruments. The investment objective of the money market fund is to provide the highest possible level of current income while still maintaining liquidity and preserving capital.

Investment contracts: The fair value of traditional guaranteed investment contracts ("GICs") is calculated using the income approach by using observable inputs (Level 2) included in the investment manager's, Fiduciary Capital Management Inc.'s (FCM) Weekly bullet rate desk that is published in Barron's. The issuer prices are indicative of current market levels and yield curves. The investment manager uses a present value calculation to determine the fair value which is based off of the rates from FCM's weekly bullet rate desk. The fair value of synthetic guaranteed investment contracts ("Synthetic GICs") is calculated using the market approach based on the net asset values of the underlying collective trusts of the Synthetic GIC (Level 2 inputs).

Wrapper Contracts: Fair values of wrapper contracts associated with synthetic investment contracts are determined through matrix pricing models incorporating inputs for comparable contract size, duration, cash flows, the credit quality of the underlying portfolio and other terms (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - INVESTMENT CONTRACTS HELD BY MASTER TRUST

The Master Trust holds investments in fully benefit-responsive Guaranteed Investment Contracts ("GICs") as part of the Pooled Interest Contract Fund investment option. The Master Trust invests in both traditional and synthetic GICs.

The traditional GICs are credited with contractually stated net interest earnings and charged for participant withdrawals and administrative expenses. The issuers of the GICs are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As the GICs are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the assets available for benefits attributable to the GICs. Contract value, as reported to the Master Trust by the trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is agreed upon at contract inception, as defined in the contract agreement, but cannot be less than 0%. Such interest rate is guaranteed for the life of the contract.

The Master Trust invests in two synthetic guaranteed investment contracts. Each synthetic guaranteed investment contract is an agreement under which the Master Trust purchased debt obligations and then entered into a contract with a financial institution to provide for liquidity and an adjustable rate of return thereon (a "wrapper") which, when taken together with the underlying securities, generally results in a guaranteed return of principal and accrued interest. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the ability of the Master Trust to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Master Trust administrator does not believe that the occurrence of any such event, which would limit the Master Trust's ability to transact at contract value with participants, is probable.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Trustee and recordkeeping fees paid by the Plan qualify as parties in interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan or Master Trust. Some administrative expenses of the Plan and Master Trust are paid directly by the Company. Notes receivable from participants are also party-in-interest transactions to the Plan.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 20, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.
