Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Board of Directors of
Parker-Hannifin Corporation and Participants of the
Snap-Tite, Inc. Pension Plan
Cleveland, Ohio

We have audited the accompanying statement of net assets available for benefits of the Snap-Tite, Inc. Pension Plan (the Plan) as of May 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Snap-Tite, Inc. Pension Plan as of May 31, 2011 and the related statement of changes in net assets available for benefits for the year then ended, were audited by other auditors whose report, dated January 30, 2012, expressed an unqualified opinion on those statements.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The Plan has not maintained adequate records and supporting documentation for certain participants' Plan Account, as defined by the Plan. Accordingly we were unable to satisfy ourselves by other auditing procedures as we considered necessary to support the determination of a portion of the accumulated plan benefits for those participants stated at \$562,179.

In our opinion, except for the effects of such adjustments and disclosures, if any, that may have been determined necessary had we been able to obtain sufficient evidence regarding the accumulated plan benefits described in the preceding paragraph, the 2012 financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of May 31, 2012, and the changes in its financial status for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of May 31, 2012 and reportable transactions for the year ended May 31, 2012, is presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplemental information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Except as described in the third paragraph above, the information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects of such adjustments or disclosures, if any, as discussed in the third paragraph above, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Snap-Tite, Inc. Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering Snap-Tite, Inc.'s (the Company) non-union employees (including those who are classified as being in the management group of executives) who had completed one year of service, defined as completion of 1,000 hours of service during the 12-month period following the employee's first hour of service. Entrance dates for the Plan were June 1 and December 1. Effective June 1, 2006, the Plan was amended to freeze all benefit accruals. All other terms of the Plan remain unchanged and participants will continue to earn vesting service. In conjunction with this change, the Snap-Tite, Inc. 401(k) Plan, a related qualified retirement plan, was enhanced to provide for both an employer matching contribution on employee deferrals and an additional discretionary contribution. In April 2012, Parker-Hannifin Corporation completed its acquisition of Snap-Tite, Inc.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension benefits: Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1% of their average annual compensation for each year of service up to a maximum of 25 years. Average annual compensation is calculated based on the highest five consecutive years out of the last ten years of service. The Plan permits early retirement at ages 60-64, however the accrued benefit is reduced by 3% for each year the benefit commencement date precedes the normal retirement date. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Generally, retired employees receive their benefits payable monthly in the form of life annuities, consisting of several options. Married employees only receive their pension benefits in the form of a joint and survivor annuity, unless their spouse consents to the contrary. Under rare instances where the annuity's monthly payment is less than \$75, retirees may elect to receive their benefits as a lump sum payment.

An employee who was employed by Autoclave Engineers, Inc. or National Fire Hose, Inc. earned credited service effective January 1, 1996 and February 1, 1998, respectively. Autoclave Engineers, Inc. employees' accumulated contributions, which were discontinued in 1996, can be withdrawn from the Plan any time upon request from the participant. Accumulated employees' contributions at May 31, 2012 and 2011 were \$562,179 and \$472,720, respectively, including interest credited at an interest rate of 7.5% compounded annually.

Death and disability benefits: If an active employee dies at age 60 or older, a death benefit equal to 50% of the actuarial value of the employee's pension is paid to the employee's beneficiary. If a vested participant dies prior to age 60, the beneficiary will receive a monthly benefit payable at the member's earliest retirement date in an amount equal to the survivor annuity that would have been paid had the member separated service on the date of death, survived to his earliest retirement date, selected a 50% Qualified Joint and Survivor Annuity and died on the day after attaining the earliest retirement date. Disabled participants receive an accrued benefit reduced by 3% for each of the first ten years and actuarially for the years beyond ten that the benefit commencement date precedes the normal retirement date.

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Net appreciation or (depreciation) includes the Plan's gains and (losses) on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented. Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial information is as of June 1, 2012, the most recent benefit information to date. There were no significant plan amendments or demographic differences between May 31, 2012 and June 1, 2012 that would significantly change the valuation.

The significant actuarial assumptions used in the June 1, 2012 valuation are as follows:

Actuarial Cost Method:	Standard Unit Credit Cost Method
Discount Rate:	8.00%
Mortality Basis:	Healthy - 2012 Static Mortality table for annuitants and non-annuitants (previously 2011 table). Disabled - Sarason United Auto Workers 1955 table.
Retirement Age:	At the later of age 65 and 5 years of service

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Administrative expenses: Administrative expenses are paid by either the Plan or the Company, at the Company's discretion.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note 2. Summary of Significant Accounting Policies

Recently issued accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, "*Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04)". ASU 2011-04 amended Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Management is evaluating the impact of this guidance on its disclosures.

Risks and Uncertainties: The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan invests in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Reclassification: Certain prior year balances were reclassified to conform to the current year's presentation.

Subsequent events: The Plan has evaluated subsequent events that have occurred through the date these financial statements were issued. No subsequent events occurred that required adjustment to these financial statements.

Plan investments, including gains and losses on investments bought and sold as well as held during the year, appreciated (depreciated) in value during the years ended May 31 as follows:

	2012	2011
Net appreciation (depreciation) in fair value of investments		
Registered investment companies	\$ (1,689,127)	\$ 3,511,225
Certificates of deposits	-	(6,449)
	\$ (1,689,127)	\$ 3,504,776

Note 4. Fair Value Measurements

Current accounting guidance established a framework for measuring fair value that provides a hierarchy prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Snap-Tite, Inc. Pension Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Valuation methodologies used for assets measured at fair value are disclosed below. There have been no significant changes in the methodologies used at May 31, 2012 and 2011.

Registered investment companies: Valued at quoted market prices which represent the net asset value (NAV) of the shares held by the Plan at year end.

Common/collective trust fund: Valued at the total of the NAV of the underlying investment contracts at year end.

Certificates of deposits: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Money market fund: Valued at cost, which approximates fair value or quoted market prices where available.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the years ended May 31, 2012 and 2011, there were no transfers in or out of Levels 1, 2 or 3.

The following tables set forth additional disclosures of Plan's investments whose fair value is estimated using the NAV per share (or its equivalent) as a practical expedient as of May 31:

Investment	2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund (a)	\$ 466,491	None	Daily	10 Days
Investment	2011			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund (a)	\$ 458,233	None	Daily	10 Days

(a) This common/collective trust fund holds synthetic guaranteed investment contracts. Investments in this fund can be redeemed immediately at the current NAV per share, generally \$1.

Note 5. Funding Policy

It is the Company's policy to fund at least the minimum contribution required by ERISA, although amounts greater than that minimum could be funded for 2012 and 2011. The Company elected to make contributions totaling \$1,082,405 and \$1,705,923 for 2012 and 2011, respectively. The Plan no longer permits contributions from employees of the Company.

Snap-Tite, Inc. Pension Plan

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 28, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 7. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits as of June 1 is:

	2012	2011
Vested Benefits		
Retired participants and beneficiaries	\$ 10,695,301	\$ 10,498,341
All other participants	10,741,814	10,517,142
	<u>\$ 21,437,115</u>	<u>\$ 21,015,483</u>

The changes in actuarial present value of accumulated plan benefits resulted from the following:

	2012	2011
Actuarial present value of accumulated plan benefits - beginning of year	\$ 21,015,483	\$ 20,480,955
Increase (decrease) attributable to:		
Additional benefits accumulated and actuarial gain/loss	2,728	98,714
Interest due to decrease in discount period	1,638,014	1,588,526
Changes in assumptions	39,585	-
Benefits paid to participants	(1,258,695)	(1,152,712)
Actuarial present value of accumulated plan benefits - end of year	<u>\$ 21,437,115</u>	<u>\$ 21,015,483</u>

Note 8. Plan Termination

The Company anticipates and believes that the Plan will continue without interruption, but reserves the right to discontinue it at any time. In the event of discontinuance, the Plan provides that net assets be allocated among participants and beneficiaries in the order provided in the ERISA. To the extent unfunded vested benefits exist and subject to specified limitations, ERISA provides for payment by the Pension Benefit Guaranty Corporation (PBGC). Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 9. Party-in-Interest Transactions

The Plan invests in a money market fund managed by Charles Schwab & Co., Inc. (Schwab) and a common/collective trust fund managed by Invesco National Trust Company (Invesco). Schwab and Invesco are custodians as defined, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodians amounted to \$66,875 and \$62,740 for the years ended May 31, 2012 and 2011, respectively.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Snap-Tite, Inc. Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits for the period June 1, 2012 to December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion on the Financial Statements as of and for the Period Ended December 31, 2012

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by The Bank of New York Mellon/BNY Mellon, N.A., the current trustee of the Plan, except for comparing this information with the related information included in the June 1, 2012 to December 31, 2012 financial statements. We have been informed by the Plan Administrator that the trustee held the Plan's assets and executed transactions. The Plan Administrator has obtained a certification from the trustee for the period from October 31, 2012 to December 31, 2012, that the information provided to the Plan Administrator by the trustee is complete and accurate, to the best of their knowledge.

In addition, the Plan has not maintained adequate records and supporting documentation for certain participants' Plan Account, as defined by the Plan. Accordingly we were unable to satisfy ourselves by other auditing procedures as we considered necessary to support the determination of a portion of the accumulated plan benefits for those participants of approximately \$587,000 at December 31, 2012.

Independent Auditor's Report (Continued)

Disclaimer of Opinion on the Financial Statements as of and for the Period Ended December 31, 2012

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements as of December 31, 2012 and for the period June 1, 2012 to December 31, 2012. Accordingly, we do not express an opinion on these financial statements as a whole.

Emphasis of Matters – Change in Trustee and Plan Merger

As discussed in Note 1 to the financial statements, the Board of Directors of Parker-Hannifin Corporation, the Plan's sponsor, voted on December 14, 2012, to merge the Plan into the Parker-Hannifin Consolidated Pension Plan effective as of the close of business on December 31, 2012. All plan assets and accumulated plan benefits were transferred to the legal control of Parker-Hannifin Consolidated Pension Plan as of the close of business on December 31, 2012. Prior to the merger, the Plan changed trustees during October 2012. Our disclaimer of opinion has not been modified with respect to these matters.

Other Matter – Report on Supplementary Information

The supplemental schedule of reportable transactions for the period ended December 31, 2012 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis but is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule as a whole.

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Snap-Tite, Inc. Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering former Snap-Tite, Inc.'s (the Company) non-union employees (including those who are classified as being in the management group of executives) who had completed one year of service, defined as completion of 1,000 hours of service during the 12-month period following the employee's first hour of service. Annual entrance dates for employees participating in the Plan were June 1 and December 1. Effective June 1, 2006, the Plan was amended to freeze all benefit accruals. All other terms of the Plan remain unchanged and participants will continue to earn vesting service. In conjunction with this change, the Snap-Tite, Inc. 401(k) Plan, a related qualified retirement plan, was enhanced to provide for both an employer matching contribution on employee deferrals and an additional discretionary contribution. In April 2012, Parker-Hannifin Corporation completed its acquisition of Snap-Tite, Inc.

Effective December 31, 2012, the Plan merged with the Parker-Hannifin Corporation Consolidated Pension Plan (the Parker Plan). The Plan's net assets and accumulated plan benefits were transferred to and assumed by the Parker Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension benefits: Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1% of their average annual compensation for each year of service up to a maximum of 25 years. Average annual compensation is calculated based on the highest five consecutive years out of the last ten years of service. The Plan permits early retirement at ages 60-64, however the accrued benefit is reduced by 3% for each year the benefit commencement date precedes the normal retirement date. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Generally, retired employees receive their benefits payable monthly in the form of life annuities, consisting of several options. Married employees only receive their pension benefits in the form of a joint and survivor annuity, unless their spouse consents to the contrary. Under rare instances where the annuity's monthly payment is less than \$75, retirees may elect to receive their benefits as a lump sum payment.

An employee who was employed by Autoclave Engineers, Inc. or National Fire Hose, Inc. earned credited service effective January 1, 1996 and February 1, 1998, respectively. Autoclave Engineers, Inc. employees' accumulated contributions, which were discontinued in 1996, can be withdrawn from the Plan any time upon request from the participant. Accumulated employees' contributions at December 31, 2012 were approximately \$587,000 including interest credited at an interest rate of 7.5% compounded annually.

Death and disability benefits: If an active employee dies at age 60 or older, a death benefit equal to 50% of the actuarial value of the employee's pension is paid to the employee's beneficiary. If a vested participant dies prior to age 60, the beneficiary will receive a monthly benefit payable at the member's earliest retirement date in an amount equal to the survivor annuity that would have been paid had the member separated service on the date of death, survived to his earliest retirement date, selected a 50% Qualified Joint and Survivor Annuity and died on the day after attaining the earliest retirement date. Disabled participants receive an accrued benefit reduced by 3% for each of the first ten years and actuarially for the years beyond ten that the benefit commencement date precedes the normal retirement date.

Plan Termination. The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: As a result of the Plan merger, the Plan did not hold any investments at December 31, 2012. Net appreciation includes the Plan's gains and (losses) on investments bought and sold as well as held during the year. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis and dividends were recorded on the ex-dividend date.

Effective July 31, 2012, the net assets of \$467,710 invested in the common/collective trust fund managed by Invesco National Trust Company (Invesco) were transferred to a money market fund managed by Charles Schwab & Co., Inc. (Schwab). On October 31, 2012 and November 6, 2012, net assets of \$23,121,560 and \$10,571, respectively, were transferred from Schwab to Bank of New York Mellon Corporation, the trustee of the Parker-Hannifin Collective Trust (the Master Trust).

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its interest in the investments of the Master Trust which consisted of the realized gains (losses) from the sale of investments and the unrealized appreciation (depreciation) on those investments for the period beginning November 1, 2012 through December 31, 2012.

Administrative expenses: Administrative expenses are paid by either the Plan or the Company, at the Company's discretion.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recently issued accounting pronouncement: In October 2012, the FASB issued new accounting guidance regarding technical corrections and improvements and further enhancements to fair value measurements. This guidance is primarily effective for annual periods beginning after December 15, 2012.

Risks and Uncertainties: The Plan invested in various investment securities, which were exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may materially affect the amounts reported in the statement of net assets available for benefits.

The Plan invested in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities were sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies, Continued

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

Subsequent events: The Plan has evaluated subsequent events that have occurred through the date these financial statements were issued. No subsequent events occurred that required adjustment to these financial statements.

Note 3. Accumulated Plan Benefits

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented. Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial information, listed below, is as of December 31, 2012. As a result of the short plan year, a roll forward approach was used to calculate the accumulated plan benefits at December 31, 2012.

Snap-Tite, Inc. Pension Plan

Notes to Financial Statements

Note 3. Accumulated Plan Benefits, Continued

The significant actuarial assumptions used in the December 31, 2012 valuation are as follows:

Actuarial Cost Method:	Standard Unit Credit Cost Method
Discount Rate:	8.00%
Mortality Basis:	Healthy - 2012 Static Mortality table for annuitants and non-annuitants. Disabled – Sarason United Auto Workers 1955 table.
Retirement Age:	At the later of age 65 and 5 years of service

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4. Investments

Prior to the merger, the investments of the Plan were comprised of an interest in the Master Trust, Schwab and Invesco. As of November 6, 2012, all of the net assets previously held at Schwab or Invesco transferred into the Master Trust. The Plan acquired interests and income in the Master Trust based upon the fair value as of the date of each asset transfer into the Master Trust. The Plan realized a gain or loss when withdrawing interests from the Master Trust (i.e. selling interests back to the Master Trust) measured by the difference between the average acquisition cost and the fair value of the Master Trust at the withdrawal date.

The Plan's interest in the Master Trust's net appreciation in the fair value of investments during the period beginning November 1, 2012 through December 31, 2012 was \$461,955. The total Master Trust's net appreciation in the fair value of investments for this period was \$52,465,428 (the Plan's percentage was 0.88%). Additionally, the Plan's interest in the Master Trust's interest and dividend income was \$178,554. The Master Trust's total interest and dividend income for this period was \$16,007,881 (the Plan's percentage was 1.12%).

Effective the close of business December 31, 2012, the Plan's net assets of \$23,994,617 were liquidated and transferred into the legal control of the Parker Plan. In addition, the Plan's accumulated plan benefits of \$21,699,380 were also assumed by the Parker Plan.

Note 5. Funding Policy

It is the Company's policy to fund at least the minimum contribution required by ERISA, although amounts greater than that minimum could be funded for the period ended December 31, 2012. The Company elected to make contributions totaling \$252,528 for the period ended December 31, 2012.

Snap-Tite, Inc. Pension Plan

Notes to Financial Statements

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 28, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7. Party-in-Interest Transactions

The Plan invested in a money market fund managed by Schwab and a common/collective trust fund managed by Invesco. Schwab and Invesco were trustees as defined by ERISA; therefore, these transactions qualified as party-in-interest transactions. Fees paid to the trustees amounted to \$22,741 for the period ended December 31, 2012.

Note 8. Trustee Certification

The Bank of New York Mellon, the trustee of the Master Trust, certified information asset information relating to the Master Trust used to prepare the financial statements including the statement of net assets available for benefits as of December 31, 2012, the statement of changes in net assets for benefits for the period October 31, 2012 to December 31, 2012 and Note 4.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month look-back (as of February 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21.
1st Segment Rate	5.54%.
2nd Segment Rate	6.85%.
3rd Segment Rate	7.52%.
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of February 2012), without regard to the MAP-21 interest rate corridor.
1st Segment Rate	1.96%.
2nd Segment Rate	5.01%.
3rd Segment Rate	6.13%.
Retirement Age	At the later of age 65 or 5 years of service.
Mortality Rates	
Healthy	2012 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).
Disabled	Revenue Ruling 96-7 mortality table for disability after December 31, 1994.
Withdrawal Rates	See Table 1.
Disability Rates	See Table 2.
Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year.
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$200,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2010 Plan Year

8.00%, limited to 6.68%.

2011 Plan Year

8.00%, limited to 6.46%.

Trust Expenses Included in Target Normal Cost

Prior year annual expense rounded to the nearest \$1,000 then adjusted for 7 months of short plan year from June 1, 2012 through December 31, 2012.

Actuarial Method

Standard unit credit cost method.

Vesting Schedule

A participant is 100% vested in his accrued benefit upon completion of five years of Credited Service.

Preretirement Death Benefits

In the case of any Participant or Terminated Participant who dies prior to the commencement of benefits under this Plan when he is vested in any portion of his Accrued Benefit, a Death Benefit shall be payable to his surviving Spouse in accordance with paragraph (a) or (b) below as applicable.

- (a) If a Participant dies after the Earliest Retirement Age, the Participant's surviving Spouse (if any) will receive the same benefit that would have been payable if the Participant had retired with an immediate Qualified Joint and Survivor Annuity on the day before the Participant's date of death.

The spouse may elect to start benefits later than the date on which payments would have been made to the surviving Spouse under a Qualified Joint and Survivor Annuity. If payments are delayed, they shall be adjusted using the early retirement factors.

- (b) If a Participant dies on or before the Earliest Retirement Age, the Participant's surviving Spouse (if any) will receive the same benefit that would be payable if the Participant had:
- (i) Separated from Service on the date of death;
 - (ii) Survived to the Earliest Retirement Age;
 - (iii) Retired with an immediate Qualified Joint and Survivor Annuity at the Earliest Retirement Age; and
 - (iv) Died on the day after the Earliest Retirement Age.

If a Participant's death occurs after his Normal Retirement Date and before he actually retires, payments shall be made to his spouse as if the Participant had retired on his date of death and selected the one-hundred percent (100%) Contingent Annuitant Option to his Spouse.

Vesting Schedule

A participant is 100% vested in his accrued benefit upon completion of five years of Credited Service.

Preretirement Death Benefits

In the case of any Participant or Terminated Participant who dies prior to the commencement of benefits under this Plan when he is vested in any portion of his Accrued Benefit, a Death Benefit shall be payable to his surviving Spouse in accordance with paragraph (a) or (b) below as applicable.

- (a) If a Participant dies after the Earliest Retirement Age, the Participant's surviving Spouse (if any) will receive the same benefit that would have been payable if the Participant had retired with an immediate Qualified Joint and Survivor Annuity on the day before the Participant's date of death.

The spouse may elect to start benefits later than the date on which payments would have been made to the surviving Spouse under a Qualified Joint and Survivor Annuity. If payments are delayed, they shall be adjusted using the early retirement factors.

- (b) If a Participant dies on or before the Earliest Retirement Age, the Participant's surviving Spouse (if any) will receive the same benefit that would be payable if the Participant had:
- (i) Separated from Service on the date of death;
 - (ii) Survived to the Earliest Retirement Age;
 - (iii) Retired with an immediate Qualified Joint and Survivor Annuity at the Earliest Retirement Age; and
 - (iv) Died on the day after the Earliest Retirement Age.

If a Participant's death occurs after his Normal Retirement Date and before he actually retires, payments shall be made to his spouse as if the Participant had retired on his date of death and selected the one-hundred percent (100%) Contingent Annuitant Option to his Spouse.
