1. Description of Plan

The following brief description of the Journal Register Company Mid-Hudson 401(k) Savings and Retirement Plan (the "Plan") provides general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the participating employer (the "Employer") of Journal Register East, Inc. (the "Sponsor") and its parent company, Journal Register Company (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility Requirements

An employee of the employer who has reached the age of 21 or older is immediately eligible to participate in the Plan. Upon satisfaction of the age requirement, the employee may then enter into the Plan on the first day of the calendar month following the date that eligibility requirement is met.

Contributions

Any eligible employee may participate in the Plan by completing an on-line salary reduction agreement and electing to contribute on a pre-tax basis an amount of not more than 60 percent of total annual compensation. Total participant pre-tax contributions may not exceed amounts in accordance with Internal Revenue Service ("IRS") guidelines, which for the calendar year 2012, limits contributions to $17,000. Those participants that have attained the age of 50 may defer up to an additional $5,500 as catch-up contributions. Additionally, participants may transfer to their Plan accounts, part or all of, an "eligible rollover distribution" received from a prior employer's qualified plan.

Effective January 1, 2009, the Plan was amended to suspend matching contributions.

For 2012, federal law requires that the aggregated amounts contributed to the participant accounts by the participant and the employer may not exceed the lesser of $50,000 ($55,500 if the participant's age is 50 or older) or 100 percent of the participant's compensation, as adjusted from time to time by the IRS for increases in the cost of living.

In December 2011, the Sponsor added a Roth 401(k) contribution option to the Plan. This allows participants to make after-tax contributions to the Plan which have different tax treatments upon distribution.

Participant Accounts

Each participant account is credited with the participant's contributions, the Employer's matching contributions, if any, and the allocations of Plan earnings and charged with an allocation of administrative expenses. Allocations of Plan earnings are made on a daily basis based on the participant's share of the specific funds in which their accounts are invested. Other allocations are based on eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options
Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirteen registered investment companies, more commonly referred to as mutual funds, two common/collective trusts and a retirement bank account as investment options for the participants. Additionally, participants may direct their investments into portfolios that are based on risk-tolerance ranging from conservative to aggressive. These portfolios use the investment options available under the Plan to achieve their risk-tolerance objectives and are typically rebalanced quarterly.

Vesting and Forfeitures
Participants are always vested in their own pre-tax contributions and earnings thereon. Upon participation in the Plan, a participant is immediately fully vested in any matching contributions made by the Employer and the earnings thereon. Matching contributions of previous employers follow the applicable vesting schedule.

Forfeitures are retained in the Plan and used to reduce future employer contributions, if any, or Plan's administrative expenses. At December 31, 2012 and 2011, unapplied forfeitures held in the Plan were $264 and $410, respectively. During 2012, there were no forfeited participants non-vested account balances but the account was credited with earnings of $4 and $150 was applied to the Plan's administrative expenses.

Payment of Benefits
Distribution of benefits is made upon normal retirement, death, disability, or other termination of employment. Retirement distributions are made upon attainment of age 65, either in a lump-sum payment, installment payments, or rollover to a qualified plan, at the option of the participant. Death benefits will be paid to the designated beneficiary in a payment method selected by the beneficiary.

Employees who retire, become permanently disabled, or withdraw from the Plan generally will receive the non-forfeitable portion of their account balance subject to the following rules:

- If the employee's non-forfeitable account balance exceeds $5,000, benefit payment will not commence prior to the employee reaching normal retirement age of 65, unless the employee consents in writing to receive the payment prior to retirement.

- If the employee's non-forfeitable account balance does not exceed $5,000, the plan administrator will distribute the funds in one lump-sum payment as soon as administratively practicable after the date of the employee's retirement, disability or withdrawal.

At any time during employment, if a participant is in immediate financial need, he or she may apply for a hardship withdrawal no greater than the financial need and only after other means of meeting the financial need have been explored and exhausted. The plan administrator will then determine whether such withdrawal is necessary to satisfy the participant's financial hardship.

Participants Loans
Participants may borrow from their account either the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent at the time of the loan. The term of the loan shall not exceed five years unless the loan is used to purchase the participant's primary residence, in which case the maximum payment term is 15 years. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses
All costs and expenses incurred in the administration of the Plan, including fees and expenses of the trustee, are either paid by the Plan or paid by the Employer, the Sponsor or the Company.

Administrative expenses include such costs as accounting and audit fees, legal fees, trustee, custodial, investment management and recordkeeping fees. These expenses, if paid by the Plan, are reflected as administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan may invest in investment contracts through a common/collective trust. Accounting standards for defined contribution retirement plans require that investment contracts be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required under accounting standards, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The Plan's interest in common/collective trusts are based on the fair value of the trust's underlying investments as reported by the trustee.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of shares of registered investment companies and common/collective trusts are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains (or losses) and the unrealized appreciation (depreciation) on those investments bought, sold, and held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

3. Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the trustee of the Plan (the "Trustee"), has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 and on the supplemental schedule as of December 31, 2012. Additionally, the completeness and accuracy of the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 has been certified by the Trustee.

4. Investments

The following table lists investments which constitute more than five percent of the Plan's net assets available for benefits as of December 31, 2012 and 2011:

Registered investment companies	$ 149,966
Common/collective trusts	33,921
Net appreciation in investments	$ 183,887

5. Fair Value Measurements

Generally accepted accounting principles in the United States of America provide a framework for measuring fair value by utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that a Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2012 and 2011:

6. Excess Participant Contribution Payable

For plan year 2012, as a result of the various testing required under ERISA, which was done after the Plan year-end, the Plan was required to return $6,210 of contributions to certain participants that were considered in excess by the ERISA mandated test. Accordingly, this amount was recorded in the Statement of Net Assets Available for Benefits as a liability and in the Statement of Changes in Net Assets Available for Benefits as a reduction of participant contributions at and for the year ended December 31, 2012, respectively.

For the year ended December 31, 2011, the Plan reported an excess contribution payable of $3,463.

7. Related Party Transactions

During 2012 and 2011, the Plan invested in common/collective trusts with Bank of America, N.A., trustee of the Plan, and therefore, transactions with the common/collective trusts qualify as party-in-interest transactions.

Merrill Lynch, Pierce, Fenner and Smith, Inc. ("Merrill Lynch") provides recordkeeping services for the Plan. Merrill Lynch is an affiliate of Bank of America, N.A., and these transactions qualify as party-in-interest transactions. During 2012, Merrill Lynch received $1,225 of recordkeeping fees.

8. Tax Status

The Plan was utilized from the Merrill Lynch defined contribution 401(k) prototype plan. The prototype plan received a favorable determination letter from the IRS dated March 31, 2008. This favorable determination letter stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). As part of the Plan's contractual arrangement with Merrill Lynch, the prototype plan will be amended to comply with changes in regulations to remain qualified under the IRC. As such, the Plan has not requested a separate determination letter from the IRS. Although the Plan has been amended since March 31, 2008, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by either federal or state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

9. Risks and Uncertainties

The Plan provides for investments in various registered investment companies and in common/collective trusts. These registered investment companies and common/collective trusts, in turn, invest in various types of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

10. Plan Termination

Although it has not expressed any intent to do so, the Sponsor may terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

11. Subsequent Events

The Plan has evaluated events and transactions subsequent to the Plan's year-end through the time that the financial statements were available to be issued on October 8, 2013. Based on this evaluation, the subsequent event described in the following paragraph was identified.

In April 2013, the Company disposed of its assets and certain liabilities were assumed in an asset purchase transaction. As part of that transaction, the purchaser assumed certain benefit plans of the Company which included the Plan. One of the entities associated with the purchase, 21st Century Media, Inc., elected to become the Plan sponsor and to continue to provide a retirement saving plan for the employees under the terms of the Plan. The name of the Plan was changed to 21st Century Media Mid-Hudson Inc. 401(k) Savings & Retirement Plan (formerly known as Journal Register Company Mid-Hudson 401(k) Savings and Retirement Plan).
