1. Description of Plan

The following brief description of the Journal Register East, Inc. Affiliates 401(k) Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all union employees of the participating employers (the "Employers") of Journal Register East, Inc. (the "Sponsor") and its parent company, Journal Register Company (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility Requirements

An employee who has reached the age of 21 or older and has completed one year of service at any of the Employers is eligible to participate in the Plan. Upon satisfaction of the requirements, the employee may then enter into the Plan on the first day of the calendar month following the date that eligibility requirements are met.

Contributions

Any eligible employee may participate in the Plan by completing an on-line salary reduction agreement and electing to contribute on a pre-tax basis an amount of not more than 60 percent of total compensation. Total participant pre-tax contributions may not exceed amounts in accordance with Internal Revenue Service ("IRS") guidelines, which for the calendar year 2012, limits contributions to $17,000. Those participants that have attained the age of 50 may defer up to an additional $5,500 as catch up contributions. Additionally, participants may transfer to their plan accounts part or all of an "eligible rollover distribution" received from a prior employer's qualified plan.

The Plan allows for the Employers to match participant contributions at a predetermined percent of participant salary contributed at a specified percentage or percentage of a stipulated dollar amount depending on the participating employer. Each participating employer has a different match contribution formula. For 2012, federal law requires that the aggregated amounts contributed by the participant and the employer may not exceed the lesser of $50,000 ($55,500 if the participant's age is 50 or older) or 100 percent of any individual participant's compensation, as adjusted from time to time by the IRS for increases in the cost of living.

Participant Accounts

Each participant account is credited with the participant's contributions, the Employer's matching contributions, if any, and the allocations of Plan earnings and charged with an allocation of administrative expenses, if any. Allocations of Plan earnings are made on a daily basis based on the participant's share of the specific funds in which their accounts are invested in. Other allocations are based on eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers fourteen registered investment companies, more commonly referred to as mutual funds, two common/collective trusts and a retirement bank account as investment options for the participants. Additionally, participants may direct their investments into portfolios that are based on risk-tolerance ranging from conservative to aggressive. These portfolios use the same investment options available under the Plan to achieve the risk-tolerance objectives and are typically rebalanced quarterly.

Vesting and Forfeitures
Participants are always vested in their own pre-tax contributions and earnings thereon. Participants vest in the Employers matching contribution and earnings thereon at 20 percent for each year of service beginning with the end of the second year of service through the end of the sixth year of service at which time the participant is fully vested. If participants have transferred from other plans, the vested percentage cannot be lower than that of the predecessor plans. Additionally, all Employer contributions are fully vested upon death, disability or reaching normal retirement age.

Forfeitures are retained in the Plan and used to reduce future employer contributions, if any, or Plan administrative expenses. At December 31, 2012 and 2011, unapplied forfeitures held in the Plan were $1,260 and $5,757, respectively. During 2012, the account was credited with participants forfeited nonvested account balances of $1,513 and earnings of $59. $6,069 of the forfeited account was applied to the Plan's administrative expenses.

Revenue Sharing
The Plan began shares in investment related revenue, such as various processing, service, distribution and all other fees that Merrill Lynch, Pierce, Fenner and Smith, Inc. ("Merrill Lynch") receives from registered investment companies or collective trusts attributable to the Plan assets invested in such registered investment companies and trust. To the extent that this revenue exceeds the Merrill Lynch service based fees charged for the administrative services rendered to the Plan, the Plan receives a credit for this excess on a quarterly basis. In the event the stipulated revenue is not in excess of the service based fees, either the Sponsor or the Plan must pay the deficiency. At December 31, 2012 the balance of the excess credit account held in the Plan was $1,537 representing all of the excess credit earned in 2012.

Payment of Benefits
Distributions under the Plan will be made upon a participant's death, disability, normal retirement or other termination of employment. Retirement distributions are made upon attainment of age 65, either in a lump-sum payment, installment payments, or rollover to a qualified plan, at the option of the participant. Death benefits will be paid to the designated beneficiary in a payment method selected by the beneficiary.

Employees who either retire, become permanently disabled, or withdraw from the Plan generally will receive the non-forfeitable portion of their account balance subject to the following rules:

- If the employee's non-forfeitable account balance exceeds $5,000, benefit payment will not commence prior to the employee reaching normal retirement age of 65, unless the employee consents in writing to receive the payment prior to retirement.

- If the employee's non-forfeitable account balance does not exceed $5,000, the Plan administrator will distribute the funds in one lump-sum payment as soon as administratively practicable after the date of the employee's retirement, disability or withdrawal.

At any time during their employment, if a participant is in immediate financial need, he or she may apply for a hardship withdrawal no greater than the financial need and only after other means of meeting the financial need have been explored and exhausted. The plan administrator will then determine whether such withdrawal is necessary to satisfy the participant's financial hardship.

Participant Loans
Participants may borrow from their fund accounts, the lesser of a maximum of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent at the time of the loan. The term of the loan shall not exceed five years unless the loan is used to purchase the participant's primary residence, in which case the maximum payment term is 15 years. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses
All costs and expenses incurred in the administration of the Plan, including fees and expenses of the trustee, are either paid by the Plan or paid by one of the Employers, the Sponsor or the Company.

Administrative expenses include such costs as accounting and audit, legal, trustee, custodial, investment management and recordkeeping fees. These expenses, if paid by the plan, are reflected as administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan may invest in investment contracts through a common/collective trust. Accounting standards for defined contribution retirement plans require that investment contracts be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required under accounting standards, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The Plan's interest in common/collective trusts are based on the fair value of the trust's underlying investments as reported by the trustee.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of shares of registered investment companies and common/collective trusts are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains (or losses) and the unrealized appreciation (depreciation) on those investments bought, sold and held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

3. Information Prepared and Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the trustee of the Plan (the "Trustee"), has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 and on the supplemental schedule as of December 31, 2012. Additionally, the completeness and accuracy of the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 has been certified by the Trustee.

4. Investments

The following table lists investments which constitute more than five percent of the Plan's net assets available for benefits as of December 31, 2012 and 2011:

Registered investment companies	$ 599,210
Common/collective trusts	101,901
Net appreciation in investments	$ 701,111

5. Fair Value Measurements

Generally accepted accounting principles in the United States of America provide a framework for measuring fair value by utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2012 and 2011:

6. Related Party Transactions

Merrill Lynch provides recordkeeping services for the Plan. Merrill Lynch is an affiliate of Bank of America, N.A., and these transactions qualify as exempt party-in-interest transactions. During the year ended December 31, 2012, Merrill Lynch received $10,720 of recordkeeping and administrative fees.

The Retirement Bank Account available to participants to choose as an investment is with FIA Card Services, N.A., a FDIC-insured affiliate of Merrill Lynch. Any transactions with the Retirement Bank Account qualify as exempt party-in-interest transactions.

7. Tax Status

The Plan utilized the Merrill Lynch defined contribution 401(k) prototype plan. The prototype plan received a favorable determination letter from the IRS dated March 31, 2008. This favorable determination letter stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). As part of the Plan's contractual arrangement with Merrill Lynch, the prototype plan will be amended to comply with changes in regulations to remain qualified under the IRC. As such, the Plan has not requested a separate determination letter from the IRS. Although the Plan has been amended since March 31, 2008, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United State of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by either federal or state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

8. Risks and Uncertainties

The Plan provides for investments in various registered investment companies and common/collective trusts which, in turn, invest in various types of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Plan Termination

Although it has not expressed any intent to do so, the Sponsor may terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

10. Subsequent Events

The Plan has evaluated events and transactions subsequent to the Plan's year-end through the time that the financial statements were available to be issued on October 8, 2013. Based on this evaluation, the subsequent event described in the following paragraph was identified.

In April 2013, the Company disposed of its assets and certain liabilities were assumed in an asset purchase transaction. As part of that transaction, the purchaser assumed certain benefit plans of the Company which included the Plan. One of the entities associated with the purchase, 21st Century Media, Inc., elected to become the Plan sponsor and to continue to provide a retirement saving plan for the employees under the terms of the Plan. The name of the Plan was changed to 21st Century Media East, Inc. Affiliates 401(k) Savings & Retirement Plan (formerly known as Journal Register East, Inc. Affiliates 401(k) Savings and Retirement Plan).
