Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of the Thermotech (the “Company”) 401(k) Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all employees of the Company.

The plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974. The Company administers the Plan.

Contributions

Each year, participants may contribute 1% to 75% of eligible earnings, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 3% of eligible compensation that a participant contributes to the plan. Additional profit sharing amounts may be contributed at the option of the Company’s board of directors. There was no profit sharing contribution for 2012. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with specific transaction fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants direct the investment of their contributions into various investment options offered by the plan.

Notes to Financial Statements

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus earnings thereon is as follows:

<u>Years of Service</u>	<u>Nonforfeitable Percentage</u>
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive the vested balance of their account either in the form of a single lump sum or in installment payments. If the vested account, excluding rollover contributions, is \$5,000 or less, benefits will be paid in a single lump sum.

Forfeited Accounts

In accordance with the Plan provisions, nonvested benefits at termination of employment are forfeited and are used to first pay plan expenses and next to reduce future employer contributions. At December 31, 2012 forfeited nonvested accounts totaled \$13,466.

Notes to Financial Statements

Note 2 Summary of Accounting Policies

Basis of Presentation

The accounting records of the Plan are maintained on the accrual basis except for benefit payments to retired and terminated participants, which are reported when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Administrative Fees

Investment fees are paid directly from the Plan's assets. Thermotech pays plan administrative fees.

Date of Management's Review

The Plan's management has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 3 Investments

The following investments represented 5% or more of the Plan's net assets available for benefits at December 31, 2012:

	Current Value
Guaranteed Income Fund	\$ 3,848,339
Large Cap Growth/JP Morgan	1,352,710
International Growth/Artisan Partners	974,896
Core Plus Bond/PIMCO	807,216
Large Cap Value/LSV Asset Management	641,745
Small Cap Growth/Times Square	520,437

Note 4 Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such pursuant to the valuation hierarchy.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying investments and are valued daily by issuer.

Guaranteed investment contract: Valued at contract value which is the same as fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2012 and 2011 :

Note 5 Limitation on Scope of Examination

The Plan Administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan Administrator instructed its independent auditors not to perform, and they did not perform, any auditing procedures with respect to the following information certified by the custodian, except for comparing the information to the financial statements and supplemental schedule.

Investments

Pooled separate accounts	\$ 5,670,994
Investment contract with insurance company	3,848,339
Notes receivable from participants	263,941

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 6 Income Tax Status

The Plan adopted a prototype non-standardized 401(k) profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue, stating the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since the date of the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator believes the Plan is no longer subject to income tax for years prior to 2009.

Note 7 Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Party-In-Interest Transactions

Certain Plan investments are managed by Prudential Bank and Trust, F.S.B. Prudential Bank and Trust, F.S.B. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
