1. Description of the Plan

The following description of the Laminations, Inc. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Laminations, Inc. (the "Company") who have completed three consecutive months of employment or been credited with one year of service, and attained age eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the plan document, up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participant contributions to the Plan are recorded in the period that payroll deductions are made from participants.

The Company contributes 25% of the first 6% of compensation that a participant contributes to the Plan. A discretionary profit sharing contribution may also be made by the Company. Contributions are determined annually by the Company's board of directors and are based upon profitability. No profit sharing contribution was made in 2012.

Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. Participants are fully vested after six years of credited service based on a graduated vesting schedule.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account. In addition, the Plan allows for hardship and in-service distributions if certain criteria are met.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00% at December 31, 2012, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Forfeited Accounts

At December 31, 2012 and 2011, there were no forfeited non-vested accounts. These accounts will be used to reduce plan expenses and then the Company's future contributions. In 2012, plan expenses were reduced by $209 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts held in the common/collective trust fund as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as distributions based upon the terms of the plan document.

Administration of Plan Assets

The Plan's assets are administered under a contract with Reliance Trust Company ("Reliance"), the trustee of the Plan. Reliance invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 10, 2013, the date the financial statements were available to be issued.

3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2012	2011
Common/collective trust fund,		
Gartmore Morley Stable Value Fund	$ 973,874	$ 1,093,835
Mutual funds:		
AM Fund Growth Fund of America	737,844	668,966
Delaware High Yield Opportunity Fund	376,601	216,411
American Century Inflation Adjusted Bond Fund	350,008	*
Blackrock Latin America Fund	262,049	201,989
Fidelity Advantage Freedom 2020	*	245,837

* Investment did not represent 5% or more of the Plan's net assets.

During 2012, the Plan's mutual funds, (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by $330,364.

4. Fair Value Measurements

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 – Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and similar techniques.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds are valued at the quoted net asset value (“NAV”) of shares held by the Plan at year end.

The common/collective trust fund is valued based upon the NAV of the units of the collective trust fund at year end. The NAV of the units is based on the fair value of the underlying assets of the fund derived principally from or corroborated by observable market data. The objective of the common/collective trust fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits and high credit quality. The common/collective trust fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Plan's investment in the common/collective trust fund is not subject to any withdrawal restrictions, and the Plan has no unfunded commitments relating to the common/collective trust fund at December 31, 2012 and 2011.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**

Total	$ 2,513,788	$ 1,093,835	$ -	$ 3,607,623

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

6. Tax Status

The Plan is operating under a prototype non-standardized profit-sharing plan with cash or deferral arrangement which received an opinion letter dated March 31, 2008 from the Internal Revenue Service ("IRS") indicating this plan was an acceptable plan under Section 401 of the IRC for use of employers for the benefit of their employees. An employer who adopts this plan will be considered to have a plan qualified under Code section 401(a), provided all the terms of the plan are followed and the eligibility requirements and contribution or benefit provisions are not more favorable to officers, owners, or highly compensated employees than for other employees. Although the Plan has been amended, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2012 and 2011. Accordingly, Reliance has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2012 and 2011 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2012, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012.

8. Related Party Transactions

The Plan's investments are held by Reliance. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative expenses are paid by the Plan and the remainder are paid by the Company. Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

9. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
