Olshan Hotel Management Group Employees' 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of Plan

The following description of the Olshan Hotel Management Group Employees' 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established for the benefit of the employees of Marco Beach Hotel, Inc., Fair Oaks Motel, Siegen Lane Hotel, L.L.C., Seigen Lane Hotel II, L.L.C., Columbus Easton Hotel, LLC, Columbus Easton Hotel II, LLC, and Columbus Easton Hotel III, LLC, (the "Employer"). The Plan is a defined contribution plan covering all employees of the Employer who have met certain age and service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute allowable compensation, as defined in the Plan document, subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. As a discretionary match, the Employer contributed twenty-five percent (25%) of the first six percent (6%) of base compensation that a participant contributed to the Plan for the year ended December 31, 2012.

Participant Accounts

Each participant's account is credited with the participant's contributions, and allocations of: (a) the Employer's contributions, (b) Plan earnings, and (c) forfeitures of terminated participant's non-vested accounts and charged with withdrawals and allocations of (a) Plan expenses and (b) Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Plan Description (continued)

Forfeitures

At December 31, 2012 and 2011, forfeited non-vested account totaled \$341 and \$307, respectively. Forfeited accounts will be used to reduce future employer matching contributions and/or pay administrative expenses of the Plan.

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings/losses thereon. Vesting in the Employer contributions plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' accounts become fully vested upon reaching normal retirement age.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a guaranteed investment contract as investment options for participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Guaranteed investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the guaranteed investment contract as well as the adjustment to the fully benefit-responsive guaranteed investment contract from fair value to contract value when there is a material adjustment between the two. At December 31, 2012 and 2011, there was no material difference between fair value and contract value; therefore, no adjustment is reflected in the statements of net assets available for benefits.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

2. Significant Accounting Policies (continued)

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Employer, as provided by the Plan document. Certain administrative functions are performed by employees of the Employer. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (such as distribution fees), if any, are charged directly to the participant's account.

Subsequent Events

The Plan has evaluated subsequent events through October 4, 2013, which is the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent more than 5% or more of the Plan's net assets at December 31:

	<u>2012</u>	<u>2011</u>
Pooled Separate Accounts:		
Principal Money Market SA	\$ 236,823	\$ 202,346
Principal Lifetime 2030 SA	333,433	294,205
Principal Large-Cap Growth II SA	246,477	262,441
Principal Lifetime 2020 SA	470,534	375,149
Principal Lifetime 2040 SA	382,224	304,714
Principal International EM Market SA	185,644	149,714
Principal Mid-Cap Growth III SA	*	148,991
Principal Bond and Mortgage SA	197,824	148,101

*Amount represents less than 5% of net assets.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	\$ 328,036
Guaranteed investment contract	<u>(366)</u>
	<u>\$ 327,670</u>

4. Fair Value of Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

4. Fair Value of Measurements (continued)

These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets which are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Level 2 investment securities include pooled separate accounts for which quoted prices are not available in active markets for identical instruments. These investments are valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV of certain pooled separate accounts is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed investment contracts are reported at contract value which approximates fair value. The value represents contributions to the account plus interest less any withdrawals for benefit payments and expenses. Disclosure of unobservable inputs to fair value measurement has not been included for guaranteed investment contracts because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by the insurance company. The contracts are classified within Level 3 hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity ^(a)	\$ -	\$ 1,107,787	\$ -	\$ 1,107,787
Balanced ^(b)	-	1,315,649	-	1,315,649
Fixed income ^(c)	-	513,186	-	513,186
Guaranteed investment contract	-	-	114,510	114,510
Total	<u>\$ -</u>	<u>\$ 2,936,622</u>	<u>\$ 114,510</u>	<u>\$ 3,051,132</u>

4. Fair Value of Measurements (continued)

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity ^(a)	\$ -	\$ 1,071,893	\$ -	\$ 1,071,893
Balanced ^(b)	-	1,065,133	-	1,065,133
Fixed income ^(c)	-	383,512	-	383,512
Guaranteed investment contract	-	-	86,115	86,115
Total	<u>\$ -</u>	<u>\$ 2,520,538</u>	<u>\$ 86,115</u>	<u>\$ 2,606,653</u>

(a) Equity fund strategies seek capital appreciation by investing in domestic and international equity securities.

(b) These investments seek a total return consisting of long-term growth of capital and current income, designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. The accounts invest in underlying Principal domestic and foreign equity, hybrid, and fixed-income mutual funds. The accounts may invest in any of the institutional class shares of the equity funds or fixed-income funds of Principal Funds.

(c) These investments include a mix of fixed income securities to reflect the broad fixed income market.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Guaranteed Investment Contract
Balance, beginning of year	\$ 86,115
Unrealized losses	(366)
Interest credited	332
Purchases	60,772
Sales	(32,343)
Balance, end of year	<u>\$ 114,510</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Unaudited Information Certified by the Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	<u>2012</u>	<u>2011</u>
Investments	<u>\$ 3,051,132</u>	<u>\$ 2,606,654</u>
Net appreciation in fair value of investments	<u>\$ 327,670</u>	
Interest income	<u>\$ 333</u>	

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

6. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

GAAP requires the guaranteed investment contract to be included in the financial statements at fair value and then adjusted to contract value. Because the guaranteed investment contract is full benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value. At December 31, 2012, the fair value of the guaranteed investment contract was \$114,510 and the contract value was \$115,276. For the year ended December 31, 2011, the fair value of the guaranteed investment contract was \$86,115 and the contract value was \$86,515.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

6. Investment Contract with Insurance Company (continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There are no reserves against contract value of credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2012	2011
Average yields:		
Based on actual earnings	.64%	.42%
Based on interest rate credited to participants	.75%	1.40%

7. Excess Deferral Contributions

The Employer determined that during the Plan year 2012, excess deferral contributions amounted to \$7,525. The excess deferral contributions were returned to the applicable active participants by March 15 of the subsequent year, as required to satisfy the relevant nondiscrimination provisions of the Plan. Accordingly, the refundable amounts are reflected as a liability and netted against contributions received from participants.

8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts.

9. Exempt Party-in-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the Plan's custodian and as such, transactions with the custodian qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the trustee by the plan for administrative services were \$11,322 for the year ended December 31, 2012 and 2011.

10. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2008, that the prototype plan document was designed in accordance with applicable section of the

10. Tax Status (continued)

IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and as concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2012:

Net assets available for benefit per financial statement	\$ 3,109,043
Excess contributions refundable to participants	<u>7,525</u>
Net assets available for benefits per form 5500	<u>\$ 3,116,568</u>

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2012:

Net increase in assets available for benefit per financial statement	\$ 440,040
Excess contributions refundable to participants	<u>7,525</u>
Net increase in assets available for benefits per form 5500	<u>\$ 447,565</u>

12. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

13. Subsequent Event

Effective February 28, 2013, the Plan's assets were transferred to a new custodian, ADP Retirement Services.
