Note 1 - Description of Plan

The following description of the Unity International Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description ("SPD") for a more complete description of the plan's provisions. Unity International Group is comprised of Unity Electric Co., Inc. Unity Electric, LLC, Uni-Data and Communications, Inc., Uni-Data Services, LLC and Unity Data & Electrical Services, LLC, collectively (the "Company").

General

The Plan is a contributory, defined contribution 401(k) plan available to eligible employees of the Company. Eligible employees are those who have attained age 21 and have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

All participants in the Plan may make tax deferred cash contributions of 1-25% of eligible compensation up to the maximum allowed by Section 402(g)(1) of the Internal Revenue Code. The Company may make a discretionary matching and profit sharing contribution to a participant's account. For the year ended December 31, 2012, the Company did not make any contributions.

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. The Plan provides for the Company's matching contribution to become 100% vested upon the completion of 6 years of continuous service. Each participant's nonforfeitable percentage is determined under the following table.

Completed years of service	Nonforfeitable percentage vested
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Note 1 - Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of plan earnings. Allocations are based on the account balances, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants have the option to transfer part or all of their fund balances among various funds within the Plan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant is entitled to receive 100% of the participant's account balance as soon as practicable after the date of retirement, death or termination of employment. For termination of service due to other reasons, as defined, a participant is entitled to 100% of the participant's contributions, and the vested portion of their account attributable to the Company matching contributions. Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned on the accrual basis. Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. A participant's loan is secured by the balance in the participant's account and bears interest at prime rate plus 1% determined when the participant applies for the loan. The loans are repaid ratably through payroll deductions over a period of five years or less.

No allowance for credit losses has been recorded at December 31, 2012 or 2011. If a participant ceases to make note repayments and the plan administrator deems the participant note to be a distribution, the participant note balance is reduced and a deemed distribution is recorded.

Note 1 - Description of Plan (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures

Forfeiture allocations are retained in the Plan and first used to pay administrative expenses. Any remaining forfeitures will be used to reduce the Company's matching contributions, if applicable. Plan assets include $798 and $2,883 in forfeited balances at December 31, 2012 and 2011, respectively. Amounts forfeited during 2012 were $725.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 - Investments

The following presents the fair value of investments (in either 2012 or 2011) that represent 5% or more of the Plan's net assets:

	December 31, 2012	2011
First GWL&A Key Guaranteed Portfolio Fund	$2,244,096	$2,101,174
American Funds Growth Fund of America R3	651,930	637,383
Pimco Total Return Admin	635,316	531,151
Great West T. Rowe Price Equity Income	643,352	527,765
Davis NY Venture R	565,071	517,907
Great West Moderate Profile II	472,159	508,209
Great West T. Rowe Price Mid-Cap Growth	502,220	437,092

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value and earned interest and dividends as follows:

	Year ended December 31, 2012
Net Appreciation in Fair Value of Pooled Separate Accounts	$ 579,988
Interest and Dividends:	
Interest on Notes Receivable from Participants	9,042
Investments	212,194
	$ 801,222

Note 4 - Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

Note 4 - Information Certified by the Plan's Custodian (continued)

	December 31, 2012	2011
Investments:		
Pooled Separate Accounts	$5,821,527	$5,084,419
Group Annuity Contract	2,245,096	2,104,056
Notes Receivable from Participants	201,809	216,797
Total	$8,268,432	$7,405,272

	Year ended December 31, 2012
Interest and Dividends:	
Interest on Notes Receivable from Participants	$ 9,042
Investments	212,194
Net appreciation in fair value	579,988

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Note 5 – Group Annuity Contract

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company ("Great West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The contract is included in the financial statements at fair value which approximates contract value. The account is credited with earnings of the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5 – Group Annuity Contract (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $2,245,096 and $2,104,056, respectively. The crediting interest is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reset quarterly and averaged 1.45% and 2.03% during 2012 and 2011, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

a) amendments to the Plan document (including complete or partial Plan termination or merger with another plan),
b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
c) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or
d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 6 - Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract: The group annuity contract is valued at contract value, which approximates fair value (see Note 5).

Pooled Separate Accounts: Valued at the Net Asset Value ("NAV") of the shares of the Pooled separate Accounts held by the Plan at year end. The NAV is based on the value of the underlying mutual fund, minus an expense factor, and then divided by the number of shares. The NAV of the Mutual Funds shares are quoted market values for similar assets in an active market and are classified within Level 2 of the valuation hierarchy.

Note 6 - Fair Value Measurements (continued)

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

December 31, 2012	Level 1	Level 2	Level 3	Total
Mutual Funds:				
Domestic Value Funds	$1,045,663	$ -	$ -	$1,045,663

Bond Funds	764,824	-	-	764,824
Group Annuity Contract	-	2,245,096	-	2,245,096
Total	$5,821,527	$2,245,096	$ -	$8,066,623

December 31, 2011	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts:				
Domestic Value Funds	$ -	$ 870,633	$ -	$ 870,633
Domestic Blend Funds	-	1,036,905	-	1,036,905

Bond Funds	-	608,338	-	608,338
Group Annuity Contract	$ -	2,104,056	-	2,104,056
Total	$ -	$7,188,475	$ -	$7,188,475

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the Company is required to direct the timely distribution of the participant's account balances. Each participant will receive either the entire amount finally credited to the participant's account, or such amount as may be held by the Trustees until the participant's normal retirement date.

Note 8 - Income Tax Status

The Internal Revenue Service ruled that the Nonstandardized Prototype for Profit-sharing Plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The opinion relates only to the acceptability of the form of the Plan under the IRC and is not a ruling or a determination as to whether the Plan qualifies under Section 401(a).

As of the financial statement date, the Plan has not applied for a favorable determination letter from the Internal Revenue Service to confirm its tax-exempt status. However, in the opinion of the Plan's Trustees, the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and qualifies the Plan and related trust forms for tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Risks and Uncertainties

The Plan invests in various mutual fund investment securities and a group annuity contract. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Subsequent Events

The Company has evaluated subsequent events from January 1, 2013 through October 11, 2013, the date the financial statements were available to be issued, and has determined that there are no events to disclose.
