Note 1 - Plan Description

The following description of Fidelitone, Inc. Employees' Profit Sharing and Savings Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan covers all full-time employees of Fidelitone, Inc. (the "Company") who have completed 90 days of service from their original hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate in the Company matching and profit-sharing contributions once they have completed at least 1,000 hours of service and are 21 years of age or older. Employees must have 12 consecutive months of service and be employed on the last day of the plan year to receive a profit-sharing contribution.

Contributions - The Plan provides for employee salary 401(k) deferral contributions or voluntary after-tax contributions up to a maximum of 85 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. New participants eligible to participate in the Plan will have an automatic deferral amount of 3 percent of their compensation contributed to the Plan unless an election is made by the participant to change this amount. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company may make discretionary matching and profit-sharing contributions to the Plan. During 2012, the Company made matching contributions equal to 50 percent of each participant's salary deferrals not to exceed $300. The Plan did not make a profit-sharing contribution to the Plan for the year ended December 31, 2012.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the employer contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined. The Company's discretionary profit-sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each participant's compensation to total compensation for all participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances based on the performance of participants' investment selections. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary, employer matching, and rollover contributions and any income or loss thereon. Vesting in the Company's profit-sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after one year of service, an additional 20 percent after the second year of service, and another 20 percent per year thereafter until they become fully vested after five years of service.

Benefit Payments - Upon termination of service, a participant with a vested balance of more than $1,000 may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, straight-life annuity payments, or a direct rollover distribution. Upon termination of service, participants with a vested balance of less than $1,000 will receive a single lump-sum distribution.

Hardship withdrawals are also permitted by the Plan if certain criteria are met. Participants who receive hardship withdrawals are suspended from making deferral contributions to the Plan for a period of six months.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures that are not used by the Plan to pay expenses are used to reduce future Company contributions. At December 31, 2012 and 2011, forfeited account balances totaled $10,307 and $8,768, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by John Hancock Life Insurance Company (U.S.A.) or its affiliates. John Hancock Life Insurance Company (U.S.A.) is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying assets. See Note 5 for additional information.

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

John Hancock Life Insurance Company U.S.A. (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Note 3 - Unaudited Information (Continued)

Significant investments as of December 31, 2012 and 2011 are as follows:

	2012	2011
Pooled separate accounts:		
Retirement Choices at 2010	$ 44,390	$ 356,864
Retirement Choices at 2015	163,174	1,341,480
Retirement Choices at 2020	1,129,053	1,522,255
Retirement Choices at 2025	1,488,786	1,416,962
Retirement Choices at 2030	582,958	532,234

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

As of December 31, 2012 and 2011, the following valuation method has been used to value the Plan's investments:

- Pooled separate accounts - Valued at the net asset value (NAV) per unit as determined by John Hancock. Such NAV is based on the value of the underlying assets and liabilities of the accounts. The investment objective of the accounts varies and can be differentiated by the nature of their holdings as disclosed in the tables below. Participants may transfer funds in and out of the accounts without restriction.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
