Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2012 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of ChemAid Laboratories, Inc. (the "Company") who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Each year, participants may contribute from 2% to 50% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan.

The employer shall contribute to each eligible participant's account an amount equal to 20% of the participant's elective deferrals up to a maximum of 1.2% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the Plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and Company's matching contributions, as well as allocations of the Company's contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 8%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$5,000 and \$4,000, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

The guaranteed investment contract is not benefit-responsive and is carried at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes dividend income and the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants prior to March 15, 2013 and 2012, respectively.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Reclassifications:

Certain amounts in the 2011 financial statements have been reclassified to conform with the presentation at December 31, 2012.

Subsequent events:

The Plan has evaluated subsequent events through October 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2012</u>	<u>2011</u>
ING Fixed Account	\$1,297,701	\$ 1,077,616
American Funds The Growth Fund of America - Class R-4	284,032	206,825
ING Solution 2025 Portfolio - Adviser Class	210,668	156,167
ING U.S. Stock Index Portfolio - Institutional Class	195,507	152,740

During 2012, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$224,388.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued based on the net asset value ("NAV") reported by the investment advisor. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contracts: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). In determining the reasonableness of the methodology, the Board of Trustees evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 5 - Guaranteed investment contract with ING insurance company:

The Plan has a guaranteed investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, the guaranteed investment contract is not fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2012 and 2011 was \$1,297,701 and 1,077,616, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial " termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not have a schedule maturity date. The average yield earned by the guaranteed investment contract are as follows:

	<u>2012</u>	<u>2011</u>
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 6 - Related party transactions and party-in-interest transactions:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8 - Income tax status:

The Plan obtained its latest opinion letter on a prototype plan approved by the IRS, effective March 31, 2008. The IRS stated that the prototype plan, as designed, is in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 10- Certified investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2012 and 2011, and investment income for the year ended December 31, 2012, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan.

ChemAid Laboratories, Inc. Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2012 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of ChemAid Laboratories, Inc. (the "Company") who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Each year, participants may contribute from 2% to 50% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan.

The employer shall contribute to each eligible participant's account an amount equal to 20% of the participant's elective deferrals up to a maximum of 1.2% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the Plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and Company's matching contributions, as well as allocations of the Company's contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 8%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$5,000 and \$4,000, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

The guaranteed investment contract is not benefit-responsive and is carried at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes dividend income and the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants prior to March 15, 2013 and 2012, respectively.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Reclassifications:

Certain amounts in the 2011 financial statements have been reclassified to conform with the presentation at December 31, 2012.

Subsequent events:

The Plan has evaluated subsequent events through October 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2012</u>	<u>2011</u>
ING Fixed Account	\$1,297,701	\$ 1,077,616
American Funds The Growth Fund of America - Class R-4	284,032	206,825
ING Solution 2025 Portfolio - Adviser Class	210,668	156,167
ING U.S. Stock Index Portfolio - Institutional Class	195,507	152,740

During 2012, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$224,388.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued based on the net asset value ("NAV") reported by the investment advisor. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contracts: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). In determining the reasonableness of the methodology, the Board of Trustees evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 5 - Guaranteed investment contract with ING insurance company:

The Plan has a guaranteed investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, the guaranteed investment contract is not fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2012 and 2011 was \$1,297,701 and 1,077,616, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial " termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not have a schedule maturity date. The average yield earned by the guaranteed investment contract are as follows:

	<u>2012</u>	<u>2011</u>
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 6 - Related party transactions and party-in-interest transactions:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8 - Income tax status:

The Plan obtained its latest opinion letter on a prototype plan approved by the IRS, effective March 31, 2008. The IRS stated that the prototype plan, as designed, is in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 10- Certified investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2012 and 2011, and investment income for the year ended December 31, 2012, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2012 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of ChemAid Laboratories, Inc. (the "Company") who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Each year, participants may contribute from 2% to 50% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan.

The employer shall contribute to each eligible participant's account an amount equal to 20% of the participant's elective deferrals up to a maximum of 1.2% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the Plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and Company's matching contributions, as well as allocations of the Company's contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 8%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$5,000 and \$4,000, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

The guaranteed investment contract is not benefit-responsive and is carried at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes dividend income and the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants prior to March 15, 2013 and 2012, respectively.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Reclassifications:

Certain amounts in the 2011 financial statements have been reclassified to conform with the presentation at December 31, 2012.

Subsequent events:

The Plan has evaluated subsequent events through October 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2012</u>	<u>2011</u>
ING Fixed Account	\$1,297,701	\$ 1,077,616
American Funds The Growth Fund of America - Class R-4	284,032	206,825
ING Solution 2025 Portfolio - Adviser Class	210,668	156,167
ING U.S. Stock Index Portfolio - Institutional Class	195,507	152,740

During 2012, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$224,388.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ChemAid Laboratories, Inc. Profit Sharing Plan

Notes to Financial Statements

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued based on the net asset value ("NAV") reported by the investment advisor. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contracts: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). In determining the reasonableness of the methodology, the Board of Trustees evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 5 - Guaranteed investment contract with ING insurance company:

The Plan has a guaranteed investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, the guaranteed investment contract is not fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2012 and 2011 was \$1,297,701 and 1,077,616, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial " termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not have a schedule maturity date. The average yield earned by the guaranteed investment contract are as follows:

	<u>2012</u>	<u>2011</u>
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 6 - Related party transactions and party-in-interest transactions:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8 - Income tax status:

The Plan obtained its latest opinion letter on a prototype plan approved by the IRS, effective March 31, 2008. The IRS stated that the prototype plan, as designed, is in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
