NOTE 1 - PLAN DESCRIPTION

The following description of the Roll Coater Savings Plan for Associates ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all non-union employees of Precoat Metals Corp. (the Company), as stated in the plan agreement, effective November 24, 2004. Effective August 13, 2009, employees are eligible to participate with 12 months of service with 83.3 hours of service per month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In October 2011, the Company, previously known as Roll Coater, was sold to Sequa Corporation ("Sequa") and was then merged with Precoat Metals Corp., a subsidiary of Sequa.

Effective December 31, 2012, the Plan was merged into the Sequa 401(k) Plan ("Sequa Plan"). Total assets of $10,605,573, which included $456,970 in notes receivable from participants, were transferred from the Plan to the Sequa Plan in January 2013.

Contributions: Each year, participants may contribute from 1% to 50% of annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Each participant may direct their contributions and Company contributions into any of the investment options available under the Plan. The Company contributes a Safe Harbor matching contribution, which is 100% of the first 3%, plus 50% of the amount in excess of 3% not to exceed 6% of eligible compensation that a participant contributes to the Plan. The Company may also contribute a discretionary profit sharing contribution, which is based on years of service. The Board of Directors determined to suspend the discretionary profit sharing contribution effective February 17, 2009. For 2012 and 2011, the Company did not make a discretionary contribution. Subsequently, effective March 23, 2009, the Plan was amended to eliminate the safe harbor matching contributions. The Board of Directors determined to reinstate the safe harbor matching contributions effective January 1, 2012. In 2012, the Company made a safe harbor contribution of $212,693 related to the reinstated safe harbor matching contribution. Contributions are subject to certain limitations.

Participants' Accounts: Prior to the Plan merger, individual accounts were maintained by the Plan for each eligible employee who elected to participate in the Plan. Each participant's account is credited with the participant's own contributions, the Company's matching contribution on their deferral, the Company's profit sharing contribution, and an allocation of investment earnings, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the participant's compensation, contributions or account balance, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest are repaid ratably through payroll deductions.

Vesting: Participants are immediately vested in their contributions and in the Company's safe harbor matching contributions, plus earnings thereon. Participants are 100% vested in the Company's profit sharing contribution after three years of service. Effective November 30, 2011, participants are 100% vested in the Company's profit sharing contribution.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Payment of Benefits: On termination of service for any reason, a participant or beneficiary, if applicable, may elect to receive a distribution of his or her vested account as a single lump sum or installments over a period of not more than their assumed life expectancy. In-service withdrawals are permitted for participants who have attained age 59 ½ or for cases of financial hardship. These payments and withdrawals are subject to certain conditions and elections as defined in the plan agreement. Distributions from the Plan are subject to federal income tax rules and regulations.

Forfeitures: Forfeitures are used to pay plan expenses and to reduce future Company contributions. During the year ended December 31, 2012 and 2011, $0 and $81,552 in forfeitures were reallocated to remaining participants, respectively. As of December 31, 2012 and 2011, there were $14,030 and $8,611 in forfeitures available to reduce future employer contributions or reduce plan expenses.

Transfer In From Another Plan: The transfer is due to the employment status change of participants. The participants' balances were transferred between plans in association with the change.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value as further described in Note 4. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the

withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Net Appreciation (Depreciation) in the Fair Value of Investments: The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses, and the unrealized appreciation (depreciation) on those investments.

Termination of the Plan: Although it has not expressed intent to do so, the Company has the right to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event the Plan is discontinued, the Plan's assets will be distributed to participants in accordance with the Plan's provisions and subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in all portions of their accounts.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Wilmington Trust Retirement and Institutional Services Company, the trustee of the Plan, held the Plan's investment assets and notes receivable from participants and executed investment transactions therein, and substantially all information pertaining to investments and notes receivable from participants included in the financial statements has been certified by them. This information has not been audited by independent accountants.

At December 31, 2012, there were no individual investments that presented 5% or more of the Plan's net assets available for benefits.

The following table represents individual investments representing 5% or more of the Plan's net assets available for benefits at December 31, 2011:

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

During the plan years ended December 31, 2012 and 2011, the Plan's mutual funds (including investments bought and sold, as well as held, during the year) appreciated (depreciated) in market value by $790,639 and ($301,528), respectively.

During the plan years ended December 31, 2012 and 2011, the Plan's investments, including interest income from notes receivable from participants, earned dividend and interest income of $321,661 and $304,586, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interest in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The fund invests in a series of proprietary commingled fixed income portfolios, which include short term investments, short duration investments, intermediate investments, core investments, and guaranteed investment contracts. The objective of the fund is to provide preservation of principal, maintain a stable interest rate, and liquidity to pay plan benefits of its retirement plan investors. The fund generally provides for daily redemptions by the Plan at reported net asset value per share at contract value. When market value of units is less than the contract value, plans may also elect to withdraw units at their market value upon 10 days' notice.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no transfers between Level 1 and Level 2 during 2012 or 2011.

NOTE 5 - FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan adopted a prototype plan document issued by the Newport Retirement Services LLC. The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan was amended from the prototype plan document and, therefore, Plan management elected to request a determination letter. The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. As of December 31, 2012, there were no party-in-interest investments. The Plan also held notes receivable from participants at December 31, 2012 and 2011 of $456,970 and $483,404, respectively, which qualify as party-in-interest transactions. During 2012 and 2011, the Plan paid administrative fees of $13,483 and $13,784, respectively, to Newport Retirement Services, Inc., the third party administrator, which qualifies as a party-in-interest transaction. Certain professional fees related to the administration and recordkeeping of the Plan were paid by the Company on behalf of the Plan.
