Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Dunlap Community Hospital 403(b) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that provides benefits to all eligible employees of Dunlap Community Hospital (the "Hospital") as determined according to the provisions of the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants are eligible to contribute to the Plan immediately. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan also permits rollover contributions subject to approval by the plan administrator.

The Plan provides for employer matching contributions of 50 percent of the participant's contribution not to exceed 6 percent of the employee's deferred compensation. The Hospital may also make a discretionary contribution to the Plan. Participants are eligible to receive employer matching and discretionary contributions upon reaching age 18 and completing one month of service. There were no discretionary contributions approved for plan year 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution, and allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Vesting in the Hospital's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Hospital 20 percent after one year of service, an additional 20 percent after two years of service, and another 20 percent per year thereafter until they become fully vested after five years of service. Participants are immediately 100 percent vested in employee and rollover contributions and any income or loss thereon.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

The Plan allows for distributions pertaining to hardship and in-service withdrawals. A participant must be 100 percent vested in order to receive an in-service withdrawal.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested portion of the account is forfeited. Forfeitures are used to reduce future Hospital contributions or expenses paid. At December 31, 2012 and 2011, forfeited account balances totaled \$5,446 and \$4,838, respectively.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The money market funds are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Hospital.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2013, which is the date the financial statements were available to be issued.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Note 3 - Unaudited Information

Reliance Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related investment transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments are as follows:

	2012	2011
Mutual funds:		
Metropolitan Total Return Bond Fund M	\$ 637,467	\$ 488,854
American Beacon Large Cap Value Fund I	447,207	321,685

American-The growth fund of America R4	-	309,270
Vanguard Short term Bond index fund investor	209,914	186,344

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 4 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
