NOTE 1. DESCRIPTION OF PLAN

The following is a brief description of the WCA Hospital Defined Contribution Retirement Plan (the Plan) and is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers substantially all full-time employees of The Woman's Christian Association (WCA) of Jamestown, NY (Plan Sponsor). It was established effective January 1, 2005 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The WCA Hospital Pension Investment Committee is solely responsible for the general administration of the Plan and carrying out the Plan provisions. The Pension Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Contributions: WCA may contribute annually to the Plan on a discretionary basis, as determined by the Board of Directors. An eligible participant is an employee who has worked at least 750 hours during the plan year, is over 21 years of age, and has at least one year of service with WCA. Contributions are subject to certain limitations. During 2012, a board resolution was passed to discontinue funding to the Plan and therefore there was no discretionary employer contribution for the Plan year ended December 31, 2012. The discretionary employer contribution amounted to $2,141,447 for the year ended December 31, 2011.

Participant Accounts: Each participant's account is credited with an allocation of (a) WCA's contribution and (b) Plan earnings and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce current employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employees are immediately vested in their rollover contributions plus actual earnings thereon. Vesting in WCA's contribution portion of their accounts plus actual earnings thereon is based on years of service. Participants are credited with a vesting year of service for each plan year in which they complete at least 750 hours. Participants are fully vested after the completion of three years of services.

Payment of Benefits: On termination of service due to death, disability, retirement or any other reason, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or a rollover to another qualifying plan. To the extent the participant has invested funds in an annuity contract they will receive distributions on a monthly basis for the length of the contract.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits: Benefits are recorded when paid.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participant accounts are 100% vested and nonforfeitable.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Pronouncements: In May 2011, the FASB issued Update 2011-04, "Fair Value Measurement". The Update established common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. generally accepted accounting principles and International Financial Reporting Standards. The amendments in this Update are to be applied prospectively during annual periods beginning after December 15, 2011. Other than requiring additional disclosures, the adoption of this Update did not have a material impact on the Plan's financial statements.

The Plan's guaranteed annuity contract appreciated in value by $43,379 during the year ended December 31, 2012 ($34,921 – 2011).

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820: *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to valuation methodology are unobservable and significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of Registered Investment Companies: Valued at the net asset value (NAV) of shares held by the plan at year end. These investments are classified as level 1.

Money market fund: Valued at amortized cost, which approximates fair value and are classified as level 1 investments.

Guaranteed Annuity Contract: Valued by taking the sum of accumulated cash contributions and interest credited to the plan's contracts less any withdrawals. This investment is valued at contract value which approximates fair value (see note 9). These investments are classified as level 3.

The Company has various processes and controls in place to ensure that fair value is reasonably estimated. The Investment Committee sets the valuation policies for plan assets and is responsible for the determination of fair value. The Pension Investment Committee (1) compares price changes between periods to current market conditions, (2) compares trade prices of securities to fair value estimates, (3) compares prices from multiple pricing sources, and (4) performs ongoing due diligence to confirm that independent pricing services use market-based parameters for valuation. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets as of and for the years ended December 31, 2012 and 2011, as well as earnings and transactions for the years then ended have been derived from information provided by Wilmington Trust, trustee of the Plan, and has been certified by the trustee as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certifications and has not been audited by independent accountants.

NOTE 7. TAX STATUS

The IRS has determined and informed the company by a letter dated May 6, 2011, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not by sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Lincoln Retirement Services Company, LLC (Lincoln) and held by Wilmington Trust Company (Wilmington). Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Administrative expenses paid by the Plan to the plan auditors amounted to $2,350 for the year ended December 31, 2012 that were not covered by revenue sharing ($3,000 – 2011). Investment income earned from Wilmington and Lincoln held assets amounted to $43,380 for the Plan year ended December 31, 2012 ($34,293 - 2011). The Plan Sponsor pays directly any other fees related to the plan's operations.

NOTE 9. GUARANTEED ANNUITY CONTRACT

The Plan currently invests in a benefit responsive guaranteed annuity contract with Lincoln Financial Group (Lincoln). The account is credited with earnings on the underlying investments and charged for participant withdrawals. Lincoln provides a guarantee of principal, a guaranteed minimum rate of interest of 3%, and the potential for additional interest declared by Lincoln. Contract value is the relevant measurement attribute for a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the account, plus earnings, less participant withdrawals and administrative expenses which approximate fair market value at December 31, 2012 and 2011.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (2) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (3) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (4) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
