1. DESCRIPTION OF PLAN

The following description of the Marathon Asset Management, LP (the "Plan Sponsor") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2000 as a profit sharing plan. During 2007, the Plan was amended to include a 401(k) option under Section 401(k) of the Internal Revenue Code covering all eligible employees of the Company. All employees are eligible to participate after attainment of age 21. To be eligible for the employer's discretionary matching contribution, participants must be employed at year-end and complete 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan excludes from participation, among others, employees covered by a collective bargaining agreement, employees who are nonresident aliens and receive no earned income from the Company within the United States, leased employees, and employees of all members of a controlled group.

Contributions

The Plan permits participants to contribute between 1% and 100% of eligible compensation on a pre-tax basis or post-tax basis under Section 401(k) or Section 402A, respectively, of the Internal Revenue Code (the "Code"). Pre-tax and post-tax contributions were limited to a maximum of $17,000 for the year ended December 31, 2012, or such other limit prescribed by Section 402 of the Code. All contributions are made through payroll deductions. The contribution percentage(s) can be changed or stopped entirely at any time.

Rollovers from other qualified plans or annuity contracts are permitted.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and earnings from the participant's investment accounts.

Vesting

Participants are 100% vested in the value of their cumulative contributions, employer contributions, and earnings thereon.

Investment Options

As of December 31, 2012, all investments of the Plan were and are held by ING (the "Trustee"). The Trustee holds the Plan's assets in a single trust and invests the assets among several investment options designated by the Company. Participants may elect to have the contributions invested, in whole or in part, in any of the funds listed on the Statements of Net Assets Available for Benefits.

Participant Loans

The Company has elected not to permit participant loans in the Plan.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant may elect to take partial withdrawals during the Plan year.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - GAAP
The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Investments
Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
A significant portion of the administrative expenses of the Plan are paid by the Plan Sponsor.

Use of Estimates in the Preparation of Financial Statements
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2012, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian. All investments are participant-directed.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical asses of liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan evaluates financial assets and liabilities subject to fair value measurements on a recurring basis to determine the appropriate level at which to classify them for each reporting period. This determination requires highly subjective judgments as to the significance of inputs used in determining fair value and where such inputs lie within the hierarchy under FASB ASC 820. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2012, the Plan held certain assets that are required to be measured at fair value on a recurring basis. These financial assets were as follows:

	Level 1	Level 2	Level 3	Balance
Mutual funds (1)	$ 8,790,705	$ -	$ -	$ 8,790,705
Fixed Income (2)	-	364,202	-	364,202
Total	$ 8,790,705	$ 364,202	$ -	$ 9,154,907

(1) Valued at the net asset value as reported on the active market of shares held by the Plan at year end.
(2) The credited rate is communicated to the plan and credited daily. Any market value adjustment or contract surrender charge will be based on the formulas and schedules in the Plan's contract.

5. PARTY-IN-INTEREST TRANSACTION

The Plan has not considered Company contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

7. INCOME TAX STATUS

The Plan sponsor has adopted the ING Life Insurance and Annuity Company Non-Standardized 401(k) Profit Sharing Plan (the ING Plan). The ING Plan received an opinion letter form the IRS dated on January 31, 2006 stating that the form of the plan is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. Accordingly, no provision has been made for federal income taxes in the accompanying financial statements.

8. RISKS AND UNCERTAINTIES

The Plan, as directed by participants, may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities may occur in the near term and that such change could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

10. SUBSEQUENT EVENTS

In accordance with guidance in the Subsequent Events Topic of the FASB Accounting Standards Codification, subsequent events are defined as events or transactions that occur after the balance sheet date, but before the financial statements are issued. It defines two types of subsequent events: recognized subsequent events, which provide additional evidence about conditions that, existed at the balance sheet date, and non-recognized subsequent events, which provide evidence about conditions that, did not exist at the balance sheet date, but arose before the financial statements were issued. Recognized subsequent events are required to be recognized in the financial statements, and non-recognized subsequent events are required to be disclosed. Entities are required to disclose the date through which subsequent events have been evaluated, and the basis for that date. This guidance is consistent with current practice and did not have a material impact on the Management's financial statements.

Management did not have any subsequent events through October 10, 2013, which is the date the financial statements were available to be issued.
