1. DESCRIPTION OF THE PLAN

The following description of the Flushing Center Management, LLC Salary Deferral 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1996 for the benefit of the employees of Cooper Investors, Inc. and its affiliate Flushing Center, Inc. (the "Company"). The Plan is a defined contribution plan covering all full-time employees of the Company who have reached the age of 21 or older and have completed three months of service. The Plan was instituted under Section 401(k) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The amount of the Company's contributions to the Plan is subject to the limitations imposed by law on the maximum amount which can be contributed. The Company's matching contribution is equal to the lesser of 50% of participants' contributions and 2% of their annual compensation. Employees are eligible to receive the Company's matching contribution if they have completed one year of service with at least 1,000 hours of service and have attained age 21. The Company's gross contributions for 2012 totaled $76,831.

Employees are eligible to participate in the Plan if they have completed three months of service and have attained age 21. Each year, a participant may make voluntary pre-tax contributions to the Plan provided that such contributions do not exceed 75% of the participant's gross compensation for the year, subject to certain limitations imposed by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions with the amount limited to $5,500 for 2012.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Participants may receive benefits upon death, disability, severance from employment, proven financial hardship, withdrawals provided participants have attained age 59 ½, and normal retirement at age 65.

Participants' Investment Options

Participants must direct their salary deferral contribution to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time throughout the year via telephone or internet access to State Street Bank & Trust Company. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their salary deferral contribution plus actual earnings thereon. Employer contributions to the Plan become 20% vested after two years of service, and continue to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Forfeitures

Forfeitures if any, may first be used to pay any administrative expenses, with any remaining forfeitures used to reduce employer matching contributions. Forfeitures for the year ended December 31, 2012 was $620.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund amounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the plan. However, the participant may not request a loan for less than $500. Loans must be repaid within five years unless the loan is for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a nondiscriminatory fixed rate commensurate with local prevailing rates. Principal and interest is paid ratably through weekly payroll deductions.

Administrative Expenses

Administrative expenses such as the trustee's custodial and administrative fees are paid by the Plan. Accounting and auditing fees are paid by the Company. Administrative expenses for loans are paid by the participant with the loan balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants would become fully vested with all right to any amounts in their respective accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year end. Investments in loans to participants are reported at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Interest income is accrued in accordance with the underlying debt instrument.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in pooled separated accounts and mutual funds. Such investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the values of such investments, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

3. INVESTMENTS

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA as applicable to certain investments. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank & Trust Company, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. The information certified includes total investments of $3,570,875 and $3,057,897 as of December 31, 2012 and 2011, and related net appreciation of $344,028 for the year ended December 31, 2012.

* Investments represent more than 5% of the Plan's assets.

4. INCOME TAX STATUS

Effective September 1, 2006, the Plan adopted a non-standardized form of a prototype plan sponsored by Automatic Data Processing Federal Credit Union (ADP Prototype Plan). In a letter dated May 3, 2002, the Internal Revenue Service ruled that the ADP Prototype Plan qualified under section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the fund established as part of the Plan is not subject to Federal Income tax under the provisions of section 501(a) of the Code. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code.

5. NEW ACCOUNTING PRONOUNCEMENTS

During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plan classify participant loans as notes receivable from participants rather than as investments as was previously required. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

6. FAIR VALUE MEASUREMENT

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

FASB ASC 820 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with FASB ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs, other than the quoted prices in active markets that are observable either directly or indirectly.

6. FAIR VALUE MEASUREMENT (CONTINUED)

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

FASB ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Companies: Valued at the quoted market prices.

The method described above may produce a fair calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's assets and related valuation inputs within the fair value hierarchy utilized to measure fair value as of December 31, 2012:

2012	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 3,570,875	$ -	$ -	$ 3,570,875

6. FAIR VALUE MEASUREMENT (CONTINUED)

The following table presents the Plan's assets and related valuation inputs within the fair value hierarchy utilized to measure fair value as of December 31, 2011:

2011	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 3,057,897	$ -	$ -	$ 3,057,897

7. SUBSEQUENT EVENTS

The Plan's management has performed subsequent events procedures through September 24, 2013, which is the date the financial statements were available to be issued. There were no subsequent events requiring adjustment to the financial statements or disclosures as stated herein.
