Independent Auditor's Report

To the Participants and Administrator of the
Robert Bosch Tool Corporation 401(k) Plan for Union Associates

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Robert Bosch Tool Corporation 401(k) Plan for Union Associates (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mercer Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2012 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Robert Bosch Tool Corporation
401(k) Plan for Union Associates
Notes to Financial Statements
December 31, 2012 and 2011

1. Description of the Plan

The following description of the Robert Bosch Tool Corporation 401(k) Plan for Union Associates (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

General

The Plan is a profit sharing plan with a 401(k) feature covering union employees of Robert Bosch Tool Corporation (the "Company").

Eligibility

A full-time employee becomes a participant in the Plan after completing one hour of service. Part-time employees are eligible to participate after one year of service with 1,000 hours of service, as defined in the Plan document.

Contributions

The Plan provides for participant contributions to be made on both a pre-tax and an after-tax basis. Each pay period in which participants receive wages, they may contribute between 1% and 85% of their eligible compensation, as defined in the Plan document, subject to maximum amounts established by the Internal Revenue Code (the "Code"), pursuant to Section 401(k) of the Code. Participants may also contribute amounts representing catch-up contributions (if age 50 or older), and distributions from other qualified defined-benefit or defined-contribution plans.

Company matching contributions are made in accordance with the respective Collective Bargaining Agreement.

Vesting

All accounts of active participants are fully vested at all times.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings and administrative expenses. Allocations of Plan earnings are based on participant account balances in the respective investment options. The benefit to which a participant is entitled is equal to the vested balance that can be provided from the participant's account.

Investment Options

Participants may direct all contributions to any of the investment options offered, which include mutual funds and collective trusts, as well as the Bosch Stable Value Fund, which holds a liquidity fund and several synthetic guaranteed investment contracts. Participants may also utilize a brokerage account, which permits the participant to invest in other securities. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions. The Plan's investments are held by Mercer Trust Company (the "Trustee").

Effective March 12, 2012 the JPMorgan SmartRetirement 2050 Fund C Class, was added to the investment line up.

401(k) Plan for Union Associates
Notes to Financial Statements
December 31, 2012 and 2011

Notes Receivable from Participants

Participants may borrow from their Plan accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (subject to certain limitations as defined in the Plan document) or 50% of their vested account balance. All notes receivable from participants are amortized over a reasonable period of time, generally not to exceed five years, and are payable immediately upon termination. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time of inception. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Principal and interest are generally to be paid through payroll deductions.

Benefit Payments

In the event of retirement, termination of service, death, or disability, the participant may receive a lump sum or installment payments equal to the vested value of his or her account. Participants may also obtain withdrawals of any portion of their participant contributions after attaining the age of 59-1/2 or for certain financial hardship situations. Hardship withdrawals will be authorized by the Plan administrator only upon satisfaction of criteria as enumerated in the Plan document.

If the payment is for termination of service, the amount may be transferred directly to an Individual Retirement Account or another qualified plan. If the participant does not elect a direct plan-to-plan transfer, the Internal Revenue Service ("IRS") requires the Company to withhold 20% of the final distribution for payment of federal income taxes.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants would be distributed to the participants.

Administrative Expenses

Effective April 1, 2011, an annual recordkeeping fee of \$62.50 (\$15.63 per quarter) is charged to participant accounts by the recordkeeper. This amount is reflected in administrative expenses in the accompanying financial statements. Prior to the effective date, both recordkeeping and investment management fees were reflected in the investment returns as a part of net appreciation (depreciation) in fair value of investments in the accompanying financial statements.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Units of collective trusts are valued at the net asset value of units held by the Plan at year end, based on information reported by the investment advisor using the financial statements of the collective trusts.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined, contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts within the Bosch Stable Value Fund option. The Statements of Net Assets Available for Benefits present the fair value as well as the adjustment from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the gains and losses on investments bought and sold as well as held during the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts ("GICs") as part of the Bosch Stable Value Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive wrapper contracts issued by AIG Financial Products, Royal Bank of Canada, and State Street Bank. The assets underlying the synthetic GICs substantially consist of an intermediate bond collective trust fund.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair value of the wrapper contracts was \$835 and \$1,427 at December 31, 2012 and 2011, respectively.

Fully benefit-responsive synthetic GICs are valued at contract value, rather than fair value, for determining the net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

401(k) Plan for Union Associates
Notes to Financial Statements
December 31, 2012 and 2011

The crediting interest rate, which is reset quarterly, based on a formula agreed upon with each wrapper contract issuer, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs based on annualized earnings was approximately 1.21% and 2.05% at December 31, 2012 and 2011, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 1.97% and 2.21%, respectively, for the years ended December 31, 2012 and 2011. The credit ratings for AIG Financial Products were A- at both December 31, 2012 and 2011, and the credit ratings for Royal Bank of Canada and State Street Bank were AA- at both December 31, 2012 and 2011.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include restructurings, early retirement plans, divestitures, bankruptcies or as the result of legal, tax or regulatory changes. The Plan administrator believes that the occurrence of any such event is remote.

The providers of the wrapper contracts can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract.

Benefit Payments

Benefits are recorded when paid.

Accounting Pronouncement

Fair Value Measurements

In May 2011, the FASB issued authoritative guidance to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards by changing the wording used to describe many of the requirements for measuring fair value and disclosing information about fair value measurements. The amendments include those that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. This Accounting Standards Update, which is to be applied prospectively, is effective for annual periods beginning after December 15, 2011. As this guidance provides only disclosure requirements, the adoption of the standard did not impact the Plan's financial statements.

3. Certification of Investment Information

In accordance with the provisions of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Mercer Trust Company has certified as complete and accurate certain investment information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2012 and 2011. The following table presents a summary of the certified amounts as of and for the years ended December 31, 2012 and 2011.

	2012	2011
Investments, at contract value *	\$ 3,617,831	\$ 3,439,857
Investment interest and dividends	80,428	61,213
Net appreciation (depreciation) in fair value of investments	195,548	(20,224)
Notes receivable from participants	42,360	26,401
Interest income on notes receivable from participants	1,334	1,705

* The investments within the Bosch Stable Value Fund were certified at their contract value of \$1,862,106 and \$1,947,781 at December 31, 2012 and 2011, respectively. The fair value and the adjustment from fair value to contract value of (\$34,510) and (\$7,702) at December 31, 2012 and 2011, respectively, were not certified.

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows at December 31:

	2012	2011
JPMorgan Liquidity Fund	\$ 196,182	\$ 204,993
JPMorgan Intermediate Bond Fund	1,609,460	1,749,063
JPMorgan SmartRetirement 2015 Fund C Class	339,133	299,254
JPMorgan Small Cap Equity Fund R5	441,280	381,497

The Plan's investments including investments bought and sold as well as held during the year appreciated (depreciated) in fair value as follows:

	2012	2011
Mutual funds	\$ 50,453	\$ (513)
Collective trusts	145,095	(19,711)
	<u>\$ 195,548</u>	<u>\$ (20,224)</u>

4. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value, see Investment Valuation and Income Recognition under Note 2. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) discussed with investment consultants and custodians using available market data (for example, swap curve rate).

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1, 2 or 3.

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The funds are valued based on the NAV as provided by the investment account manager and are classified in Level 2 of the fair value hierarchy. Certain of these investments can only be traded within a certain window within each monthly period. Common collective trusts included in the Plan and their relative benchmarks include:

Common Collective Trust	Description	Benchmark	Trade Frequency Restriction
JPMorgan Liquidity Fund	Short term cash investments	90 day U.S. treasury bill	None
JPMorgan Intermediate Bond Fund	Diversified bond fund	Barclays Capital Intermediate Aggregate Index	None
JPMorgan Mortgage Private Placement Fund	Long duration debt securities	Barclays Capital U.S. Aggregate Index	Monthly

Gains and losses, realized and unrealized, included in changes in net assets for the periods above are not reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits because those financial statements are reported at contract value as discussed in Note 2.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs.

<i>Instrument</i>	<i>Fair Value</i>	<i>Principal Valuation Technique</i>	<i>Unobservable Inputs</i>	<i>Range of Significant Input Values</i>
Wrapper Contracts	\$835	Discounted Cash Flow	Actual Wrap Fees	0.20% - 0.25%
			Replacement Cost	0.22% - 0.25%
			Crediting Rate/Yield	2.12% - 2.26%
			Swap Rate	0.50%

5. Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated May 1, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended before receiving the tax determination letter, the plan administrator and the Plan's ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is generally no longer subject to income tax examinations for plan years beginning prior to January 1, 2009.

6. Party-in-Interest Transactions

Notes receivable from participants qualify as exempt party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

8. Subsequent Events

The Plan has evaluated the events and transactions that have occurred through October 11, 2013, the date the financial statements were available to be issued, and concluded there were no subsequent events to recognize or disclose.
