1. Description of Plan:

The following description of the Trailer Bridge, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1986 for the administration of any contributions made by Trailer Bridge, Inc. (the "Company") and to encourage eligible employees to defer a part of their current income to provide for their retirement, death or disability under the provisions of Section 401(k) of the Internal Revenue Code. The Plan covers all employees of the Company. Employees who are not otherwise excluded may become a participant upon attaining age 18 and can enter the Plan the first of the month following hire or any date thereafter. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to defer, up to the limitation by the Internal Revenue Code of 1986, as amended, up to 25% of their annual eligible compensation. The Company's matching contribution is subject to change at the discretion of the Board of Directors. As of July 2012, the Company's matching contribution was suspended. During the first six months of 2012 and the entire 2011 year, the Company's matching contribution was 50% of the employee's contribution limited to 6% of total compensation. Salary deferrals for each payroll period that exceed 6% of compensation for such period will not be considered. No optional profit sharing contributions were made during 2012 or 2011.

Participant Accounts

A Deferred Salary Account, Non Deductible Voluntary Contribution Account, a Rollover Account, a Company Optional Profit Sharing Account, and a Company Match Account are maintained for each participant. Deferrals elected by each participant will be credited to the participant's Deferred Salary Account and all Company match contributions will be allocated to the participant's Company Match Account. Plan earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants invested in that fund. Any related administrative expenses based on participant earnings or account balances are deducted from the participant's account. The participants' accounts are adjusted daily to reflect contributions, income and expenses.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a common collective trust as investment options for participants.

1. Description of Plan (Continued):

Vesting

The participant's Deferred Salary Account, nondeductible Voluntary Contribution Account and Rollover Account are always 100% vested. The Company Match and Optional Profit Sharing Accounts are vested based on the following table:

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participant Loans Receivable

Participants are permitted one outstanding loan at a time. Participants may borrow a minimum of $500, up to 50% of their vested contributions and related earnings, not to exceed $50,000. Loans are secured by the balance in the participant's account and must be repaid in level payments through payroll deductions within a five-year period, except for loans for the purchase of a principal residence which may be repaid over a reasonable period of time not to exceed a maximum of 30 years. The participant pays an interest rate of one point above the prime rate. Participant loans are valued at the aggregate of unpaid principal and accrued unpaid interest.

Payment of Benefits

The entire vested balance in an individual participant's account, shall be payable to the participant, upon the election of the participant, upon retirement at or after age 65, upon determination of total and permanent disability, or to the participant's beneficiary in the event of death. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Account balances that are under $1,000 may be automatically paid out at the discretion of the Plan. Balances between $1,000 and $5,000 may be transferred to an IRA, also at the discretion of the Plan.

Forfeited Accounts

Forfeitures from nonvested participant accounts are used to reduce future Company contributions. During the years ended December 31, 2012 and 2011, forfeitures in the amount of $6,543 and $13,564 respectively, were used to reduce Company contributions. There were no forfeited non-vested accounts at December 31, 2012 and 2011.

2. Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Valuation and Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurement.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of the investments within the Plan are reflected on a trade-date basis.

Contract value is a relevant measurement attribute for certain Plan assets attributable to fully benefit-responsive investments because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the investment contract.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in net appreciation/depreciation in fair market value of such investments.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The majority of administrative expenses are paid by the Company and not recorded by the Plan. Administrative expenses recorded in the Plan pertain primarily to loan origination and record keeping fees, which are charged directly to those participants with outstanding loans.

2. Summary of Accounting Policies (Continued):

Risks and Uncertainties

The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market and credit. The Plan limits its credit risk by maintaining its accounts with what it believes to be a high quality financial institution. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that the changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Fair Value Measurements:

Financial Accounting Standards Board Statement Accounting Standards Certification Topic 820 (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following descriptions of the valuation methods and assumptions used by the Plan to estimate fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments held by the Plan are determined by obtaining quoted prices on nationally recognized security exchanges (Level 1 inputs).

Stable Value Fund: The fair value of interests held in stable value funds are based upon the net asset values of fully benefit-responsive investments, as reported by the fund managers (Level 2 inputs).

3. Fair Value Measurements (Continued):

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value as of December 31, 2012 and 2011:

(2) Balance does not respresent 5% or more during the Plan year ended December 31, 2011

4. Investments (Continued):

The Plan's investments in mutual funds, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by $451,798 and depreciated in value by $318,725 during the years ended December 31, 2012 and 2011, respectively.

5. Investment Contract:

The Plan invests in a fully-benefit-responsive investment fund through the Invesco Stable Asset Fund, (the "Fund"). The Fund is a collective investment trust fund that invests in traditional, synthetic and separate account investment contracts issued by insurance companies, banks, and other financial institutions. Under traditional investment contracts the issuer is contractually obligated to repay principal and a specified rate of guaranteed interest to the Fund. Synthetic investment contracts utilize a wrapper contract with an insurance company or bank to assure that the future interest crediting rate (the interest rate earned by participants in the Fund for the underlying investments) is not less than zero.

The Fund is presented in the accompanying statements of net assets available for benefits at contract value as reported to the Plan by the trustee. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events may limit the ability of the Plan to transact at contract value with the issuer. However, in the normal course of business, such events would not limit the ability of the Fund to transact at contract value with the participants of the Fund as the Fund is managed to maintain a certain amount of liquidity to provide for day-to-day liquidity needs.

The average yield and the blended net crediting interest rate of the Fund for the years ended December 31, was as follows:

Years ended December 31,	2012	2011
Average yield earned by Plan	0.91%	1.29%
Average yield earned by Plan adjusted for actual interest credited to participants	1.62%	1.72%

6. Information Certified by the Trustee:

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CRF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. 	$ 621,425	$ (137,683)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100 percent vested in their accounts.

The Company determined that during 2012, the Plan had a partial termination due to certain involuntary reductions in the workforce. All participants affected by the involuntary reduction in workforce became 100 percent vested in their accounts during 2012.

8. Reconciliation to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2012 and 2011:

9. Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 16, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Service.

Management evaluated the Plan's tax positions and concluded that as of December 31, 2012 the Plan had taken no uncertain tax positions that require recognition of a liability (or asset) in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years before 2009.

10. Subsequent Events:

The Plan has evaluated the accounting and disclosure requirements for subsequent events through October 8, 2013, the date of this report.
